In the history books we learned about Nazis infamously burning books to censor truth in the past. In today's computer age, the internet has served a similar function as the modern-day Gutenberg press that centuries ago began producing written language books as a milestone to early human achievement and scholarship. After all, knowledge is power and with today's war against the truth, elites are dumbing us down to keep us both ignorant and powerless.

*To a large degree, current censorship is manifesting as what's called **shadowbanning**, defined as the act of muting a user or their content on an internet social media platform without informing them. An exponential surge of shadowbanning is now occurring as a form of major censorship on today's web.*

It turns out that the same powerbroking controllers that systematically bribe, blackmail and extort virtually all major government puppets in the world, invent divide and rule enemies to make nonstop war, impose bioweapon pandemics with **mandated lockdowns and deadly bioweapons masquerading as vaccines, collapse national economies, cut off essential food and fuel supplies to render housing, food and fuel unaffordable to an increasing number of people on our planet, are also responsible for the tsunami of censorship on the internet.**

At this late hour, on an unprecedented scale, globalists are now embarking on the modern equivalent to book burning, aggressively censoring internet access to the truth by using AI algorithms to silence the truthteller community attempting to inform the global masses of the latest destructive antihuman developments rapidly unfolding in our perilously troubled world. Those who are both active podcasters on various social media platforms as well as users of the popular platforms in the last few days are encountering a level of censorship never seen before. Those journalists writing for independent alternative news outlets are likewise seeing their work censored by all the major algorithmic search engines like Google. Today's information war against truth is multipronged, and pervasively far reaching.

This article is an emergency information alert attempting to inform consumers/users of alternative news outlets and social media platforms whereby an increasing percentage of people that no longer use mainstream media for its proven false propaganda and mass manipulation. As a result, the CNNs and New York Times of this world are increasingly suffering massive layoffs and corporate downsizing because their customer base is drying up and dwindling in numbers as are numerous Big Tech giant social platforms like Facebook. Younger generations especially have turned to independent alternative news and less censored social media platforms for a more accurate account of news and information outflow today.

Today the powers-that-be, whose self-interests are to keep people ignorant, uniformed and

fearful for control purposes, are resorting to aggressive censorship to willfully hide the truth from internet users. Since a small minority of powerbrokers engaging in criminal, treasonous behavior obviously wants the masses kept in the dark and oblivious, a growing effort to eradicate from the internet truth-tellers by suppressing and concealing the free flow of truth and accurate journalism publicly exposing the elites is of utmost top priority to the controllers, especially since they are currently engineering unprecedented deadly crises targeting humanity for depopulation purposes.

This week many podcasters and independent journalists along with their growing number of consumers are reporting unprecedented levels of over-the-top censorship. Thousands, if not millions of internet users have abruptly found that their download and upload capabilities are now near zero, meaning the optimal levels of near 30 megabits per second (MBPS) for downloading and uploading that is generally the norm is overnight been reduced so significantly that it becomes nonfunctional for reaching website, viewing podcasts or even sending and receiving email.

Independent podcaster Maverick Artist Victor-Hugo Vaca and myself as an independent journalist-author have suddenly encountered massive censorship of our work on both social media and algorithmic search engines. Those of us truth-tellers that are hitting the target exposing the criminal truth of our puppet governments and their puppet masters, have become the target of unprecedented levels of censorship intended to systemically silence us and deny those who seek information and news from online sources from access to inconvenient truths the controllers do not want people to know. Thus, internet users' access to websites, especially the heavily censored ones like YouTube, Rumble, and even Bitchute now, are increasingly inaccessible. Broadcasts are algorithmically censored whereby increasing stretches of dialogue are also cut out in silence. This is clearly a First Amendment violation of both free expression and free speech.

Repeated, failed attempts by consumers to download and watch a given video that's been intentionally altered and "buffered to death," whereby constant intermittent freeze-ups occur, for instance, causing a short two-minute clip to take twenty minutes to get through it. This typically becomes so frustrating that consumers are no longer able to listen/watch video content on an alarmingly increasing number of platform venues suddenly this last week, essentially shutting down podcasts and podcasters from providing vital key information to consumers. The link to two recent podcasts that Victor-Hugo did with myself can be found [here](#) and also one with broadcast journalist Max Igan can be found [here](#) illustrating the obvious sabotage tampering. Also note the consumer comments. Victor's podcast exposing the skullduggery is entitled "Censorship On Steroids Behind The Scenes Of The Information War Censored Podcast Of Censored Podcast" can be found [here](#). Finally, a link to more comments about the sudden censorship can be found [here](#).

Upon encountering the aforementioned problem, individual internet users may unwittingly conclude that the presence of increased technical problems, limitations and the inherently ensued frustration encountered may be caused from their own personal end based on their internet provider/server or their own electronic device rather than accurately attribute the problem to rampant malevolent censorship on steroids, willfully imposed by those afraid of the truth empowering people toward activism, revolt and opposition demanding accountability and justice. The elites are clearly afraid of our wrath as more of us awaken daily to the diabolical criminality that bloodline overlords are regularly and increasingly

resorting to in order to escape justice.

The implications of this grave violation is designed to incapacitate our individual autonomy by effectively cutting off our informational access to the truth, and sabotaging and limiting our viably important communication. Just as the pathological agenda of lockdowns is/was to cut off human to human contact and radically lower the opportunity for the people to communicate with friends, family and their social network, the same consequence applies to limiting information gleaned from internet sources within its social milieu. This unprecedented and blatant straightjacketed lockdown on our internet informational exchange portends a foreboding future of what's to imminently come our way as both a nation and human species.

The expanding imminent Israeli war and genocide in the Middle East where Bibi the Butcher Netanyahu is at will engaging in **targeted assassinations of top Hamas, Hezbollah and even Iran Islamic resistance leaders is taking the war to a whole new, never before seen, dangerous level.** Moreover, Israel publicly proclaiming probable pre-emptive major attacks on Lebanon, Syria and even Iran are clearly aimed to forcibly manipulate its cash cow military ally United States to enter into what amounts to a World War III Armageddon bloodbath on a historic, potentially unfathomable, devastating scale.

Meanwhile, the Anti-Defamation League CEO Jonathan Greenblatt and the mainstream fascist Big Tech factchecking industry are notoriously imposing censorship bans like there is no tomorrow. They are self-righteously proclaiming that any and all criticism of the genocidal murder perpetrated by Israel and its criminal co-accomplice America is blasphemously antisemitic, now increasingly criminalized as so-called "hate speech" when in fact it is neither. It is the ethical and moral stand that all moral people must take against unacceptable crimes against humanity. Yet this incessant criminal attack on our constitutional First Amendment rights of free speech and free press are currently being treasonously trampled on and destroyed. We must hold the violating traitors fully accountable. Our freedom and liberty are under unprecedented attacks by the growing authoritarian tyranny weaponized against today's human population.

***Joachim Hagopian** is a West Point graduate, former Army officer and author of "Don't Let the Bastards Getcha Down" exposing a faulty US military leadership system based on ticket punching up the seniority ladder, invariably weeding out the best and brightest, leaving mediocrity and order followers rising to the top as politician-bureaucrat generals designated to lose every modern US war by elite design. After the military, Joachim earned a master's degree in Clinical Psychology and worked as a licensed therapist in the mental health field with abused youth and adolescents for more than a quarter century. In Los Angeles he found himself battling the largest county child protective services in the nation*

within America's thoroughly broken and corrupt child welfare system.

The experience in both the military and child welfare system prepared him well as a researcher and independent journalist, exposing the evils of Big Pharma and how the Rockefeller controlled medical and psychiatric system inflict more harm than good, case in point, the pandemic hoax and kill shot genocide. As an independent journalist for the last decade, Joachim has written hundreds of articles for many news sites, including [Global Research](#), [lewrockwell.com](#) and currently <https://jameshfetzer.org>, [Inteldrop.org](#) and <https://thegovernmentrag.com>.
