Global Research Editor's Note

We stand in firm support of The American Herald Tribune and Professor Anthony Hall, who has the courage to confront the US corporate media.

The tendency is towards online media censorship in derogation of the Rights to Free Speech. Google and Facebook are collaborating with the FBI in this endeavor.

See screenshot of the DOJ statement.

Below is Professor Hall's statement.

United States Seizes Domain Names Used by Iran's Islamic Revolutionary Guard Corps

Seizure Documents Describe Iranian Government's Efforts to Use Domains as Part of Global Disinformation Campaign

The United States has seized 92 domain names that were unlawfully used by Iran's Islamic Revolutionary Guard Corps (IRGC) to engage in a global disinformation campaign, announced the Department of Justice.

According to the seizure documents, four of the domains purported to be genuine news outlets but were actually controlled by the IRGC and targeted the United States for the spread of Iranian propaganda to influence United States domestic and foreign policy in violation of the Foreign Agents Registration Act (FARA), and the remainder spread Iranian propaganda to other parts of the world. In addition, the seizure documents describe how all 92 domains were being used in violation of U.S. sanctions targeting both the Government of Iran and the IRGC.

"We will continue to use all of our tools to stop the Iranian Government from misusing U.S. companies and social media to spread propaganda covertly, to attempt to influence the American public secretly, and to sow discord," said Assistant Attorney General for National Security John C. Demers. "Fake news organizations have become a new outlet for disinformation spread by authoritarian countries as they continue to try to undermine our democracy. Today's actions show that we can use a variety of laws to vindicate the value of transparency."

"Today we are 92 domains closer to shutting down Iran's worldwide disinformation campaign," said U.S. Attorney David L. Anderson for the Northern District of California. "This important work will continue. Iran cannot be allowed to hide behind fake news sites. If Iran wants to be heard using U.S. facilities, it must reveal its true colors."

"Today, we successfully seized 92 domains involved in a disinformation campaign conducted by Iran-based actors to promote pro-Iranian propaganda. This investigation, initiated by intelligence we received from Google, was a collaborative effort between the FBI and social media companies Google, Facebook, and Twitter," said FBI Special Agent in Charge Bennett. "This case is a perfect example of why the FBI San Francisco Division prioritizes maintaining an ongoing

By Prof. Anthony Hall

Our writers are from all over the world expressing themselves freely on a variety of issues as they see fit.

I have been Editor in Chief of AHT since its inception. AHT draws contributions from journalists of many backgrounds throughout the world.

We do have some contributors from Iran who express themselves as they wish. I have attended New Horizon conferences in Iran and most recently in Beirut a year ago. In this milieu I met many well-known journalists from throughout Europe and North America some of whom have contributed to AHT.

Editorially AHT is pro-peace and the contributors are overwhelmingly opposed to the intrigues of the anti-Iranian war hawks intent on invading the Islamic Republic.

Here is an excerpt of an earlier article I wrote to respond to the fake news being published by CNN and the Washington Post concerning the Intelligence agencies disinformation on American Herald Tribune.

BY [PROF. ANTHONY HALL](#)

Who wins and who loses in the fake news sweepstakes?

AHT is a news site that I helped get off the ground beginning in 2015 when I agreed to become Editor in Chief of the small but exceptionally lively Internet publication. In wrongfully accusing AHT, CNN and Washington Post are adding to the scale of a wide constituency that is coming to the conclusion that these media operations are serial manufacturers of [fake news](#)

In doing research into the antics of the two media ventures I came across the story of a well-publicized move by a member of the Tennessee Legislature to have CNN and Washington Post legally reprimanded. Representative Micah Van Huss [formulated a resolution](#) asserting “the State of Tennessee recognizes CNN and Washington Post as fake news and part of the media wing of the Democratic Party.” The text of Resolution 779 continues,

- BE IT FURTHER RESOLVED that we condemn them [CNN and Washington Post] for denigrating our citizens and implying they are weak-minded followers instead of people exercising their rights that our veterans paid for with their blood.
