

Chaos - not Victory - is the Empire's "Name of the Game"

Theme: [US NATO War Agenda](#)

"Once again a country "liberated" by the West is sinking deeper and deeper into chaos." Global Research.

This could be anyone of the countries in conflict, where Washington and its Western and Middle Eastern stooges sow war - eternal chaos, misery, death - and submission.

This is precisely the point: The Washington / NATO strategy is not to 'win' a war or conflict, but to create ongoing - endless chaos. That's the way (i) to control people, nations and their resources; (ii) to assure the west a continuous need for military - troops and equipment - remember more than 50% of the US GDP depends on the military industrial complex, related industries and services; and (iii) finally, a country in disarray or chaos, is broke and needs money - money with hardship conditions, 'austerity' money from the notorious IMF, World Bank and other associated nefarious 'development institutions' and money lenders; money that equals enslavement, especially with corrupt leaders that do not care for their people.

That's the name of the game - in Yemen, in Ukraine, in Syria, in Iraq, in Sudan, in Central Africa, in Libya.... you name it. Who fights against whom is unimportant. ISIS / ISIL / IS / DAISH / DAESH / Al-Qaeda and whatever other names for the mercenary killer organizations you want to add to the list - are just tags to confuse. You might as well add Blackwater, Xe, Academi and all its other successive names chosen to escape easy recognition. They are prostitutes for the Zionist-Anglo-Saxon Empire, prostitutes of the lowest level. Then come elite prostitutes, like Saudi Arabia, Qatar, Bahrain and other Gulf States, plus the UK and France, of course.

President Hollande has just signed a multi-billion euro contract with Qatar for the sale of 24 *Rafale* fighter jets. He is now heading to Riyadh for talks with the Saudi King Salman, and to sell more *Rafale* planes - it's good business and helps killing off the fabricated enemies; and also to attend a Gulf Cooperation Council (GCC) summit on 5 May. Topics of discussions at the meeting are the 'crises' of the region including in Yemen, planted by the west on behalf of Washington (and its Zionist masters) and blamed on the 'rebels' who are seeking merely a more just government.

The west has invented a vocabulary so sick, it's like a virus ingrained in our brains - or what's left of it - that we don't even know anymore what the words really mean. We repeat them and believe them. After all, the MSM drills them into our intestines day-in and day-out. People who fight for their freedom, for survival against oppressive regimes, are 'terrorists', 'rebels'. - The refugees from Africa, from the Washington inflicted conflict-stricken countries, the refugees of whom more than 4,000 have already perished this year trying to

cross the Mediterranean for a 'better life' - they have been conveniently renamed 'immigrants'. Often the term 'illegal' is added. Thus, the west's conscience is whitewashed from guilt. Immigrants are beggars. Illegal immigrants belong jailed. They have nothing to do with unrest and chaos planted by the west in the 'immigrants' home countries. - Shame on you, Brussels!

Back to chaos - Mr. Hollande knows very well that his jets are being used to serve the master and spread more havoc in the region, more death, more disaster, more misery, more slavehood - more refugees drowning in the Mediterranean Sea - more everlasting chaos, people at the edge of survival, people who can no longer fight for their country, for their resources, for their freedom - as they must just fight for their sheer survival, for the survival of their kids and families. That's empire.

Tell me - is someone who sells weapons, fighter planes - other types of killing machines, to countries, knowing quite well that these weapons are being used for killing people, for destroying countries - is such a person not a mass-murderer? A war criminal of the worst kind?

Mr. Hollande, in addition to being a war criminal, he is a perfect bigot who believes at the end of the day a few crumbs of the Big Loot will fall into his plate - and that he may swim with his masters in a lush sea of milk and honey. Does he think he has to save the economy of his grand country that produced the likes of Victor Hugo, Stendhal, Balzac, Dumas - by selling killing machines to other stooges of the empire? - Does he not care that 83% of his electorate despise him?

Spreading unrest, chaos, misery - that is what Washington and its vassals do best. They do not want to 'win' wars; they want eternal chaos, misery; people who can be subdued easily - *full spectrum dominance*, they call it.

And since the US army and its big brother (or sister) NATO cannot be everywhere, doesn't want to be seen everywhere, they hire to kill. Washington invents and creates, then funds with its endless money stream, the ISILs, Daesh's, AlQaedas - and the repertoire grows as the masters please - to fight for them, to kill for them, to produce chaos and false flags - so that eventually they - NATO and the Pentagon bulldozer - can come in and make believe 'destroying' those mercenaries that they generated in the first place. But the mainstream media won't tell you the truth.

They have you believe that the Houtis, a secular humanitarian left-leaning group of Shias, and the Sunnis are fighting each other in Yemen for power; that the Saudis and their GCC cronies are just freeing Yemen from a bunch of terrorists; that the Houtis are supported by Iran (a predominant Shia country) - recently vehemently denied by a UN official - so, the Houtis have to be subdued. At the same time there is more reason for Washington to put yet another blame on Iran. Once the Houtis are dominated and killed off in sufficient numbers, a puppet president will be put in place, like the ex-President Saleh, or his successor Hadi, so that Washington can keep calling the shots - oppressing the country's population to maintain unlimited access to the strategic port of Aden - and to the Gulf.

Ukraine is the same: Are ISIS / ISIL/ Daesh, Al Qaeda, or whatever their names may be, in the Ukraine? - You bet they are, under the command of CIA and some 6,000 US troops, trainers of course. They train the Kiev troops how best and fastest to kill their brothers in the

Donbass; they train them how to create lasting chaos. And if the soldiers refuse to be trained to kill their brothers, the Kiev Nazi regime will shoot them as traitors. Point blanc. So easy. So that nobody will resist.

Not least, the US military 'advisors' and CIA with the help of their hired killers, the Kiev Nazis, the ISIS / Daesh / AlQaeda, are attempting to provoke President Putin into war – possibly a third World War. Yes, the third in less than hundred years, potentially devastating Europe, and possible the world. So far, the world has been spared this disaster, largely thanks to Mr. Putin's wise strategy of non-confrontation.

So – no question whether the ISIS / Daesh / AlQaeda are in the Ukraine. They are everywhere the empire orders them to be. That's what they are paid for. That's what prostitutes do. Especially created prostitutes; well-paid prostitutes. Ideology is just a fig leaf, conveniently used by the western media – so we all may believe that the Muslims are evil, some even more than others. The west must fight them, because they are a serious and present danger for our freedom, our liberty our democracies – and especially our neoliberal everything-goes free market values.

Because that is the ultimate goal: humans as a market commodity, dispensable, reducible to cannon fodder, to be killed off in masses by (poisoned) genetically modified food, by drones, by bombs, by artificially created famine, so that at the end the survivors are serfs to a small elite which controls the four corners of the globe and ALL its resources, to maintain a lifestyle of exceptional people – yes, the exceptional nation, will be reduced to a bunch of exceptional people living in grand splendor.

Remember Henry Kissinger's infamous words, the vision of one of the most atrocious war criminals still alive today – another Nobel Laureate (sic) – spoken some fifty years ago: *"Who controls the food supply controls the people; who controls the energy can control whole continents; who controls money can control the world."*

These words ring truer every day. But only as long as we allow it; as long as We, the People, We the 99.999% of the globe's inhabitants, allow it.
