

# Children Age 5-11 with Medical Problems Have More Side Effects from COVID-19 Vaccination

Parents of Children with Chronic Illnesses Should be Aware of Safety Profile

*A large German study has found that children ages 5-11 years with baseline medical problems have an amplified side effect profile with COVID-19 vaccines. The study first featured by [TrialSite News](#) called PaedVacCOVID by Holzwarth et al, sent surveys to parents whose children took the Pfizer mRNA vaccine including 793 respondents (179 children with comorbidities and 614 healthy children). Inclusion criteria were age 5-11 years at study enrollment and vaccination with BNT162b2 between December 2021 and March 2022. Surveys were completed about 17 days after the shots. It is expected by this time a significant number of children had already recovered from COVID-19 illness, unfortunately, this was not reported by the authors.*

## PaedVacCOVID - safety of the BNT162b2 vaccine against the SARS-CoV-2 in children with and without comorbidities aged 5 to 11 years

Sarah Holzwarth<sup>1</sup> · Kimiya Saadat<sup>1</sup> · Maximilian Jorczyk<sup>1</sup> · Svenja Dreßen<sup>1</sup> · Sarah Kotsias-Konopelska<sup>2</sup> · Anne Schlegtendal<sup>3</sup> · Christoph Maier<sup>3</sup> · Jochen Schmitt<sup>4</sup> · Kevin Paul<sup>5</sup> · Julia Pagel<sup>5,6</sup> · Ania C. Muntau<sup>5</sup> · Reinhard Berner<sup>1</sup> · Folke Brinkmann<sup>3,7,8,9</sup> · Nicole Toepfner<sup>1</sup>

PaedVacCOVID - safety of the BNT162b2 vaccine against the SARS-CoV-2 in children with and without...

Holzwarth, S., Saadat, K., Jorczyk, M. *et al.* PaedVacCOVID - safety of the BNT162b2 vaccine against the SARS-CoV-2 in children with and without comorbidities aged 5 to 11 years. *Infection* (2024).  
<https://doi.org/10.1007/s15010-024-02427-2>

Systemic symptoms were reported in both children with and without comorbidities. Fatigue was the most frequently reported systemic reaction with 12.87% (79/614) in healthy children and 20.11% (36/179) in children with comorbidities (OR: 1.71, [95% CI: 1.088 to 2.605]). Fever above 38.5 °C was reported in 0.81% (5/614) of healthy children and 4.47% (8/179) in children with comorbidities (OR: 5.70, [95% CI: 1.796 to 15.60], Table 2). The average duration of fever was 1.8 days and was treated with antipyretics in 9 of 13 cases.

Specific organ system safety concerns reported on the survey are shown in the figure. No hospitalizations or deaths were reported. These data add to the growing body of evidence suggesting COVID-19 vaccination is likely to make children feel sick and is not clinically indicated nor medically necessary.

## **The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity**

**by Michel Chossudovsky**

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### **Reviews**

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin*
