George Orwell, the pen name by which Eric Blair is known, had the gift of prophecy, or else blind luck. In 1949 in his novel, 1984, he described the Amerika of today and, I fear, also his native Great Britain, which is no longer great and follows Washington, licking the jackboot and submitting to Washington's hegemony over England and Europe and exhausting itself financially and morally in order to support Amerikan hegemony over the rest of the world.

In Orwell's prophecy, Big Brother's government rules over unquestioning people, incapable of independent thought, who are constantly spied upon. In 1949 there was no Internet, Facebook, twitter, GPS, etc. Big Brother's spying was done through cameras and microphones in public areas, as in England today, and through television equipped with surveillance devices in homes. As everyone thought what the government intended for them to think, it was easy to identify the few who had suspicions.

Fear and war were used to keep everyone in line, but not even Orwell anticipated Homeland Security feeling up the genitals of air travelers and shopping center customers. Every day in people's lives, there came over the TV the Two Minutes of Hate. An image of Emmanuel Goldstein, a propaganda creation of the Ministry of Truth, who is designated as Oceania's Number One Enemy, appeared on the screen. Goldstein was the non-existent "enemy of the state" whose non-existent organization, "The Brotherhood," was Oceania's terrorist enemy. The Goldstein Threat justified the "Homeland Security" that violated all known Rights of Englishmen and kept Oceania's subjects "safe."

Since 9/11, with some diversions into Sheik Mohammed and Mohamed Atta, the two rivals to bin Laden as the "Mastermind of 9/11," Osama bin Laden has played the 21st century roll of Emmanuel Goldstein. Now that the Obama Regime has announced the murder of the modern-day Goldstein, a new demon must be constructed before Oceania's wars run out of justifications.

Hillary Clinton, the low-grade moron who is US Secretary of State, is busy at work making China the new enemy of Oceania. China is Amerika's largest creditor, but this did not inhibit the idiot Hilary from, this week in front of high Chinese officials, denouncing China for "human rights violations" and for the absence of democracy.

While Hilary was enjoying her rant and displaying unspeakable Amerikan hypocrisy, Homeland Security thugs had organized local police and sheriffs in a small town that is the home of Western Illinois University and set upon peaceful students who were enjoying their annual street party. There was no rioting, no property damage, but the riot police or Homeland Security SWAT teams showed up with sound cannons, gassed the students and

beat them. <http://www.youtube.com/watch?v=ufKv-5t0t4E>

Indeed, if anyone pays any attention to what is happening in Amerika today, a militarized police and Homeland Security are destroying constitutional rights of peaceful assembly, protest, and free speech.

For practical purposes, the U.S. Constitution no longer exists. The police can beat, taser, abuse, and falsely arrest American citizens and experience no adverse consequences.

The executive branch of the federal government, to whom we used to look to protect us from abuses at the state and local level, acquired the right under the Bush regime to ignore both US and international law, along with the US Constitution and the constitutional powers of Congress and the judiciary. As long as there is a "state of war," such as the open-ended "war on terror," the executive branch is higher than the law and is unaccountable to law. Amerika is not a democracy, but a country ruled by an executive branch Caesar.

Hillary, of course, like the rest of the U.S. Government, is scared by the recent International Monetary Fund (IMF) report that China will be the most powerful economy in five years.

Just as the military/security complex pressured President John F. Kennedy to start a war with the Soviet Union over the Cuban missile crisis while the US still had the nuclear advantage, Hillary is now moving China into the role of Emmanuel Goldstein. Hate has to be mobilized, before Washington can move the ignorant patriotic masses to war.

How can Oceania continue if the declared enemy, Osama bin Laden, is dead. Big Brother must immediately invent another "enemy of the people."

But Hillary, being a total idiot, has chosen a country that has other than military weapons. While the Americans support "dissidents" in China, who are sufficiently stupid to believe that democracy exists in Amerika, the insulted Chinese government sits on \$2 trillion in US dollar-denominated assets that can be dumped, thus destroying the US dollar's exchange value and the dollar as reserve currency, the main source of US power.

Hillary, in an unprecedented act of hypocrisy, denounced China for "human rights violations." This from a country that has violated the human rights of millions of victims in our own time in Iraq, Afghanistan, Pakistan, Yemen, Libya, Somalia, Abu Ghraib, Guantanamo, secret CIA prisons dotted all over the planet, in US courts of law, and in the arrests and seizure of documents of American war protestors. There is no worst violator of human rights on the planet than the US government, and the world knows it.

The hubris and arrogance of US policymakers, and the lies that they inculcate in the American public, have exposed Washington to war with the most populous country on earth, a country that has a military alliance with Russia, which has sufficient nuclear weapons to wipe out all life on earth. The scared idiots in Washington are desperate to set up China as the new Osama bin Laden, the figure of two minutes of hate every news hour, so that the World's Only Superpower can take out the Chinese before they surpass the US as the Number One Power.

No country on earth has a less responsible government and a less accountable government than the Americans. However, Americans will defend their own oppression, and that of the world, to the bitter end.
