\$15.00 plus s and h

In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a “war without borders” led by the U.S. and its NATO allies.

This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken.

Each of the authors in this timely collection digs beneath the gilded surface to reveal a complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people`s lives.

Michel Chossudovsky is an award-winning author, Professor of Economics (Emeritus) at the University of Ottawa and Director of the Centre for Research on Globalization (CRG), Montreal. He is the author of *The Globalization of Poverty and The New World Order* (2003) and *America's "War on Terrorism"* (2005). He is also a contributor to the Encyclopaedia Britannica. His writings have been published in more than twenty languages.

Andrew Gavin Marshall is an independent writer both on the contemporary structures of capitalism as well as on the history of the global political economy. He is a Research Associate with the Centre for Research on Globalization (CRG).

“This important collection offers the reader a most comprehensive analysis of the various facets - especially the financial, social and military ramifications - from an outstanding list of world-class social thinkers.” Mario Seccareccia, Professor of Economics, University of Ottawa

“In-depth investigations of the inner workings of the plutocracy in crisis, presented by some of our best politico-economic analysts. This book should help put to rest the hallucinations of ‘free market’ ideology.” Michael Parenti, author of *God and His Demons and Contrary Notions*

“Provides a very readable exposé of a global economic system, manipulated by a handful of extremely powerful economic actors for their own benefit, to enrich a few at the expense of an ever-growing majority.” David Ray Griffin, author of *The New Pearl Harbor Revisited*.

The complex causes as well as the devastating consequences of the economic crisis are carefully scrutinized with contributions from Ellen Brown, Tom Burghardt, Michel Chossudovsky, Richard C. Cook, Shamus Cooke, John Bellamy Foster, Michael Hudson, Tanya Cariina Hsu, Fred Magdoff, Andrew Gavin Marshall, James Petras, Peter Phillips, Peter Dale Scott, Bill Van Auken, Claudia Van Werlhof and Mike Whitney.

Superpower The Truth Can Be Hidden

A documentary film by Barbara-Anne Steegmuller (DVD)

GLOBAL RESEARCH ONLINE AND MAIL ORDER US\$22.00 plus s and h (includes taxes where applicable)

Superpower is a comprehensive film that asks tough questions and goes behind the scenes of America's national security apparatus and military actions. Far from a conspiracy film about the dangers of government secrets and regime change, this well-balanced film straddles the philosophical divide and allows viewers to understand the US quest for global dominance through economic and military strategy that is exposed through review of historical events, personal interviews, and analysis of US foreign policy.

**Seeds of Destruction
The Hidden Agenda of Genetic Manipulation**

by F. William Engdahl

Global Research, 2007 ISBN 978-0-937147-2-2

GLOBAL RESEARCH ONLINE AND MAIL ORDER US\$17.00 plus s and h (includes taxes where applicable) (List Price US\$24.95 plus taxes)

This skilfully researched book focuses on how a small socio-political American elite seeks to establish control over the very basis of human survival: the provision of our daily bread. "Control the food and you control the people."

This is no ordinary book about the perils of GMO. Engdahl takes the reader inside the corridors of power, into the backrooms of the science labs, behind closed doors in the corporate boardrooms.

The author cogently reveals a diabolical World of profit-driven political intrigue, government corruption and coercion, where genetic manipulation and the patenting of life forms are used to gain worldwide control over food production. If the book often reads as a crime story, that should come as no surprise. For that is what it is.

Engdahl's carefully argued critique goes far beyond the familiar controversies surrounding the practice of genetic modification as a scientific technique. The book is an eye-opener, a must-read for all those committed to the causes of social justice and World peace.

**[The Globalization of Poverty and the New World Order](#)
by [Michel Chossudovsky](#)**

In this new and expanded edition of Chossudovsky's international best-seller, the author outlines the contours of a New World Order which feeds on human poverty and the destruction of the environment, generates social apartheid, encourages racism and ethnic strife and undermines the rights of women. The result as his detailed examples from all parts of the world show so convincingly, is a globalization of poverty.

This book is a skilful combination of lucid explanation and cogently argued critique of the fundamental directions in which our world is moving financially and economically.

In this new enlarged edition -which includes ten new chapters and a new introduction- the author reviews the causes and consequences of famine in Sub-Saharan Africa, the dramatic meltdown of financial markets, the demise of State social

programs and the devastation resulting from corporate downsizing and trade liberalisation.
