“The rush to vaccinate first and research later has left you in a position whereby COVID-19 vaccination policy is now entirely divorced from the relevant evidence base.”

OPEN LETTER AND NOTICE OF LIABILITY FROM DOCTORS AND SCIENTISTS TO THE EUROPEAN MEDICINES AUTHORITY AND THE MEMBERS OF THE EUROPEAN PARLIAMENT REGARDING COVID-19 VACCINATION

The cohesiveness of society is beginning to tatter into shreds as governments and media continue to push the manufactured COVID crisis into new frontiers of deception and divisiveness.

On the one hand there has been a flood of revelations revealing the unprecedented scale of the deaths and injuries being caused by the improperly tested COVID injections. Much of this information is accompanied by analysis revealing the tactics being deployed to misrepresent and hide the massive harm being done.

Public understanding of the lethal harm our society is absorbing from the COVID jabs is growing just as authorities are joining together to impose mandatory vaccines on many classes of workers and students.

This imposition of mandatory vaccines is being opposed by a growing coalition of Frontline Workers for Freedom. This group has organized large demonstrations throughout Alberta including at Calgary, Edmonton, and Lethbridge. At Lethbridge City Hall about 400 people gathered at City Hall on Wednesday September 15 to oppose mandatory vaccines.

In Alberta like elsewhere throughout North America, the public movement against **forcing employees to be stabbed by unwanted COVID jabs is being led by police, EMS**

workers, and some nurses. By and large the leadership of trade unions is not backing up the position of their members who are resisting taking the dangerous COVID injections as a condition for retaining their jobs.

Nor is the Student Union at the University of Lethbridge or the professors' faculty association at the U of L protecting their membership from the dangers associated with the vaccines. They are not standing up for the principles of freedom or choice or bodily autonomy.

My recently-published article on the failure of trade unions to align themselves with the upsurge of popular resistance to the coercive imposition of mandatory vaccination is available at Global Research.ca. See [this](#).

Mike Whitney is the bearer of a lot of bad news in his well-documented article entitled. "[The Conspiracy Theorists Were Right, It IS a Poison Death Shot](#)." Whitney describes that the COVID jabs were allowed to receive tentative emergency use authorization in spite of the fact that top authorities in the regulatory agencies knew the jabs would cause death, injuries and infertilities.

As Whitney sees it, its not human error that is causing the harm but rather the damage is being done because of the malevolence of those pushing the vaccines on the world population. Whitney concludes by writing,

The vaccine isn't supposed to work, it's supposed to make things worse. And it has! It's increased the susceptibility of millions of people to severe illness and death. That's what it's done. It's a stealth weapon in an entirely new kind of war; a war aimed at restructuring the global order and establishing absolute social control. Those are the real objectives. It has nothing to do pandemics or viral contagion. It's about power and politics. That's all.

Dr. Joseph Mercola, a leading member of the of the group that US **President Joe Biden** labelled the "Disinformation Dozen," surveys legal cases involving legal challenges to mandatory vaccinations. Biden is attempting to force the owners and managers of all businesses with over 100 employees to require mandatory vaccinations as a condition of employment.

One of the legal strategies being used to oppose vaccine mandates in court involves the scientifically-well founded argument that natural immunity to COVID-19 is much more strong, resilient and adaptable than the weak and circumscribed immunity from the COVID shots. In fact vaccines undermine the natural immunity of those who have been infected with COVID-19. See [this](#).

Biden has made coercively-imposed vaccines a centerpiece of his presidential administration in a sharply worded speech where he basically characterized so-called "unvaccinated" people as enemies of the state. **Justin Trudeau** is employing a similar strategy in his campaign for re-election in Canada. How can you run an election campaign when all the main parties basically agree on almost everything? Trudeau seems to think he can appoint the unvaccinated as the foes he promises to defeat if elected.

The "unvaccinated" are being demonized and dehumanized. We are being blamed for many things, including the completely false claims that it is us who are filling the hospitals. This

process of dehumanization is all too familiar to an aroused group of holocaust survivors. They see another vicious crime taking shape. They write,

If 80 years ago it was the Jews who were demonized as spreaders of infectious diseases, today it is the unvaccinated who are being accused of spreading the virus. Physical integrity, freedom to travel, freedom to work, all coexistence has been taken away from people in order to force vaccination upon them. Children are being enticed to get vaccinated against their parents' judgement. See [this](#).

Whitney's article calls attention to the interventions of top medical researchers in Europe who identify their group as Doctors for Covid Ethics. The group includes **Prof. Sucharit Bhakdi**, **Prof. Martin Haditsche** and **Dr. Michael Yeadon**, all top authorities in their fields.

In February of 2021, 12 health care professionals including those named above warned the European Medicines Authority that it should not give the COVID jabs emergency use authorization. The Doctors for Covid Ethics blew the whistle, arguing that the vaccines were too dangerous and that they were likely to cause a wide array of serious blood ailments as well as infertility. I wrote about their intervention in a Global Research essay earlier in September. It is entitled "[Herd Stupidity.](#)"

On September 13 the same scientists wrote back to the European Medicines Authority noting the failure of the EMA to take their professional whistle blowing seriously. They explain the murderous consequences of the disastrous decision to "**rush to vaccines first and conduct research later.**" Infamy is cast on many officials who showed contempt for the scientific method by their decision to rush ahead with mass injections of vaccines before proper research could take place. The malfeasance extends to the enforcers of mandatory vaccines including **President Mike Mahon** of the University of Lethbridge.

Rather than deal with the increasingly compelling case that the vaccines are doing much more harm than good, Dr. Mahon and the University of Lethbridge Board of Governors chose to indiscriminately and coercively push mandatory vaccinations on the entire university community including students, faculty members, and staff.

Of course many university presidents corporate presidents, government officials, and media moguls are guilty of the same malfeasance. But the cooptation of universities removes a major obstacle to the plans of those behind the manufactured COVID crisis. It seems that a primary condition for participation in the activities of higher education these days is to demonstrate a willingness to buckle to administrative dictate rather than stand on the ground critical thinking and sound independent research.

The intervention of the [Doctors for Covid Ethics](#) comes in the form of a notice of liability making explicit the guilt of those officials who chose to ignore their medical intervention back in February. It is worthwhile to share a lengthy section of the notice. They begin by explaining

This request [for a response from the European Medicines Authority back in February] was scorned and the vaccination program has been rolled out on a global scale, with catastrophic consequences that we trust are known to you. Our original fears have been confirmed and further pathways leading to injury and death by the experimental agents have been uncovered through new scientific discoveries in 2021.

The rush to vaccinate first and research later has left you in a position whereby COVID-19 vaccination policy is now entirely divorced from the relevant evidence base.

The rush to vaccinate first and research later has left you in a position whereby COVID-19 vaccination policy is now entirely divorced from the relevant evidence base.....

As you consider your next steps in mandating a vaccine that is contra-indicated by science, we draw your attention to recently published Freedom of Information requests, which reveal gross negligence in the COVID vaccine authorisation process, including misleading the Commission on Human Medicines as to whether any independent verification of vaccine trial data had occurred.

Hapless and defenceless children are now becoming victims of the blasphemous and negligently regulated vaccination agenda. We charge you for actively or tacitly paving the way to the second holocaust of mankind. The same charge has been independently submitted by survivors of the first holocaust and their families.

You are hereby placed on notice that you stand to be held personally and individually responsible for causing foreseeable and preventable harm and death from COVID-19 vaccines, and for supporting crimes against humanity, defined as acts that are purposely committed as part of a widespread or systematic policy, directed against civilians, committed in furtherance of state policy.

The gravity of your deeds is now laid out before the world. For the sake of yourselves and your families, rise and respond. Or go down in history books in indelible shame and disgrace.

Signed, Doctors for Covid Ethics

The US Food and Drug Administration, the FDA, carries similar regulatory responsibility for these COVID vaccines as the does the European Medicines Authority in the EU. In Canada, Health Canada is the responsible agency that gave the vaccines' emergency use authorization.

The FDA is in serious disarray especially after it gave "approval" to a new Pfizer COVID vaccine to be known as Comirnaty. This disarray developed because the FDA failed to include its own panel of scientific experts a say in the approval process. Some on the panel resigned because of the decision to leave them out of the process.

This failure can be seen as yet another violation of the precautionary principle. The supposedly "approved" product, however, is currently unavailable and probably will not be available until Pfizer gets a guarantee that it will not be sued for any deaths or injuries caused by the Comirnaty vaccine.

The indemnification of vaccine companies speaks of the corrupt nature inherent in the

public-private partnerships integral to the workings of the pharmaceutical industry. Like many industries, Big Pharma has captured its regulators. All too often government agencies overseeing the activities of companies like Pfizer or Moderna have officials who are patent holders with proprietary interests in some of the very products they assess and oversee. The notorious litany of lies and conflict-of-interest swirling around Dr. Anthony Fauci is emblematic of an industry gone horribly wrong.

On Sept. 17 the FDA's Vaccines and Related Biological Products Advisory Committee refused to approve the release of the booster shot that Joe Biden had declared would become available on September 20. This refusal of the usual suspects to comply with the agenda of quick and compliant authorization signals that something is changing. Even insiders are starting to try to distance themselves from the dark cloud of corruption that hangs over the whole area of government regulation in the era of the manufactured COVID Crisis.
