Region: [Middle East & North Africa](#)

Theme: [Media Disinformation](#), [Terrorism](#),
[US NATO War Agenda](#)

In-depth Report: [SYRIA](#)

A Little Background: The U.S. Has Tried to Carry Out Regime Change Since Syria Became An Independent County ...

The U.S. government has been trying to replace the Syrian government with folks who will be subservient to America [since 1949](#) ... 3 years after Syria became an independent nation.

The CIA [succeeded](#) in carrying out a coup in Syria 1949.

In 1957, the [American president and British prime minister agreed](#) to launch regime change again in Syria using a false flag. (False flags are not only historically documented, but presidents, prime ministers, congressmen, generals, spooks, soldiers and police have [ADMITTED](#) to planning and carrying out false flag attacks).

In [1983, 1986, 1991, 2001, 2009 and 2012](#), American officials again schemed about regime change in Syria.

The 2013 Syrian Weapons Attack Was Carried Out By ...

The 2013 sarin attack in Ghouta, Syria, was blamed by the U.S. on the Syrian government.

However, the United Nations' report on the attack did [NOT](#) blame the government, and the U.N.'s human rights investigator [accused](#) the *rebels* - rather than the Syrian government - of carrying out the attack.

Moreover, [high-level American and Turkish officials](#) say that Turkey supplied Sarin gas to Syrian rebels in 2013 in order to frame the Syrian government ... to provide an excuse for regime change.

Pulitzer-prize winning investigative reporter **Seymour Hersh** - who uncovered the Iraq prison torture scandal and the Mai Lai massacre in Vietnam - previously [reported](#) that high-level American sources tell him that the [Turkish government](#) carried out the chemical weapons attacks blamed on the Syrian government.

As Hersh [noted](#):

'We knew there were some in the Turkish government,' a former senior US intelligence official, who has access to current intelligence, told me, 'who

believed they could get Assad's nuts in a vice by dabbling with a sarin attack inside Syria - and forcing Obama to make good on his red line threat.'

Indeed, it's long been known that sarin was [coming through Turkey](#).

And a tape recording of top Turkish officials planning a false flag attack to be blamed on Syria as a justification for war was [leaked](#) ... and *confirmed* by Turkey as being authentic.

The 2017 Chemical Incident ... Which "Justified" Trump's Bombing Syria with 57 Cruise Missiles

The recent chemical incident was immediately blamed on the Syrian government. And the Trump administration immediately launched 59 cruise missiles at a Syrian air base based on the accusation.

But many of the American intelligence officials who warned that the claims about Iraq (which led to a disastrous war) were fake say that [these claims are fake as well](#).

Indeed, former CIA officer **Philip Girdi** says that American intelligence community insiders are [furious](#) that the Trump administration has twisted the intelligence so as to claim that the Syrian government carried out a chemical weapons attack. And [see this](#).

Indeed, the lead UN investigator into Syrian chemical weapons attacks [has debunked](#) one of the main allegations attempting to pin the recent chemical incident on the Syrian government.

And a top U.S. rocket scientist has [made Swiss cheese](#) out of the government's claims that the Syrian government was responsible. And see [this](#).

But when the military-industrial folks [want a war](#), do facts even matter?
