

Counteracting Cult-Imposed Chaos. “Draw Back and Quieten the Mind”, An Awakened Mankind Committed to Defeating Our Oppressors

We are only manipulated to the degree to which we allow ourselves to be. Pull back a few paces from the insanity and you can find yourself in a quiet reflective place having absolutely nothing to do with the relentless razzamataz of the globalist construct.

At this point of time, in particular, it is really important to take such a step on a daily basis. Because the chaos being imposed by the central control system is directly absorbed by our three dimensional five senses, and at that moment is taken to be the sum total of all that is.

But when one draws back and quietens the mind, the centre of attention shifts to the inner heart zone. From here one is able to calmly and rationally assess whatever it is that is troubling one.

Only in this way can one discern the difference between the superficial/fake and the true.

Within today’s highly volatile information field the brain is loaded with a thousand different – and largely contradictory – streams of information which it is incapable of discerning or ordering without first putting them through the filter of an always discerning heart-centred awareness. All meditation practices follow the same principle.

This is not what the chaos imposers want us to do, of course. They want us to suffer endless bouts of agitation, stress, fear, anger and ultimately despair. They want to overload our brain cells to the point where our attempt to make sense of what is designed to make no sense, drives large segments of the population to drink, drugs, pharmaceutical sedatives and a lingering form of depression.

This mass sedated state of mankind is worth billions of dollars to Big Pharma and Big Alcohol – and quite obviously supports the general dumbing-down agenda of the deep state.

But there is more to it than this.

The desire to confuse, corrupt and kill-off mankind does not have its origins within the fundamental evolutionary process of sentient and empathic human beings. It should not be confused with the mix of typical 'hard knocks' we all have to contend with in the struggle to keep moving ahead.

No, these malevolent actions are essential components of once covert, but now overt, satanic practices based upon an anti-life precept closely related to that of psychopaths and those we call megalomaniacs.

As we go about our daily business struggling to maintain some form of basic equilibrium, it does not occur to most that this nefarious torture regime has its roots in the work of a small but powerful cult which basically despises sentient mankind.

If we clearly understood this, we would realise that trying to use rational thought procedures to explain the deliberately imposed irrational and chaotic, is a worse than useless task.

Their chaos is deliberate and designed to elicit panicked public calls for 'order'; the imposition of which will be uncompromising. 'Order Out of Chaos' leads to totalitarian lockdown.

Those 'only half' human, or non-human dictators who we witness today manifesting their seemingly infinite need to torture, control and destroy, are getting their dark energies from what Robert Monroe, the late US researcher involved in the study of human consciousness, termed 'loosh'.

What is loosh?

Loosh is that form of vibratory energy manifest by emotional expressions, both positive and negative. Both emotionally expressed love and hate will give off loosh.

But in the context of this article I refer to the vibrations given-off by fear, anxiety, anger and despair as providing a form of emotional food for the anti-life forces that show no emotion, no empathy and no interest in the victims of their vampiric full spectrum dominance agenda.

It is profoundly shocking to suddenly recognise that the deeply sick satanic behaviour patterns that emanate from the exponents of loosh mining, have been adopted by very public icons at the top end of the music business, professional sport, global banking and

related corporate empires, scientific institutions, politics, religion and increasingly psychotic multi billionaires seeking to exert their domination over all aspects of planetary life.

Within the many thousands of secret society founded Masonic lodges that proliferate North America and Europe, the leading figureheads ritually worship demonic overlords who in turn appear to bestow upon them a form of dark Astral power.

This crosses over with paedophiles, child sacrificers and traffickers. It is no longer simply a source of speculation that deeply evil acts of utter degradation are performed by those who seek highest office in the top suite of New World Order pyramid. And from there, down the ladder to aspiring young leaders of the Schwab 'sell your soul school for future fascists'.

It is a big – but entirely necessary brain stretch – to grasp the fact that these are the forces setting the agenda of almost all types of planetary activities, right down to the seemingly superficial details of everyday life.

Here's an example of what I mean. When you hear that your telephone landline is going to be phased out in 2025 and that only a digital connection will then be available, you might think "Damn! These companies are at it again, always cost cutting the quality and giving us the cheaper version so as to increase their profits."

But while such an explanation touches on a perennial superficial truth, the real reason hides in the shadows, manipulated by the anti-life cult's overriding ambitions to wrest control over our ability to electronically communicate with some degree of privacy – and to thereby steal reams of personal data at the ping of a 'smart' EMF button. Data that can then be used to trap one into complying with the increasingly nefarious demands of the surveillance state.

The sequence goes further: loss of landline means 'must go digital and Wi-Fi'. Going digital and Wi-Fi instantly connects one up with the global microwave radiation transmission tower and satellite emitting EMF frequency bands that operate through mobile and smart phones at 3,4 and 5G power outputs.

An increasingly vast labyrinth of intersecting wireless wave-forms create 'electro smog' which interrupt the natural circadian rhythms of the atmosphere and magnetosphere – as well as distorting the 7.83 hertz Schumann Resonance – known as 'the earth's heart beat'.

This is the resonance field which keeps balance within the earth's electromagnetic low vibratory energy field, tapped into by bees, insects, birds and plants, and indeed, by our

own instinct of natural inner and outer balance.

Human health is not unaffected. On goes the cell phone - and immediately pulses of non-ionising radiation are activated which pass through the human temple and into the soft brain tissue, with potentially lasting consequences according to British radiation expert Barry Trower and other leading EMF specialist researchers.

All the while, those manning the digital and cybernetic control centres of the planet are alert to orders coming down from secret service operatives, to put an algorithmic tab on the communications made by 'too effective' dissidents, so their 'offensive' material can be traced and expunged.

If this fails to elicit the desired silencing, they have the option of setting up a reverse messaging system which, unbeknown to the receiver, sends a digital electronic message directly into the neocortex of the supposed renegade, with the tacit objective of destabilising his/her thoughts and emotions. This can, of course, be done to anyone - and no doubt is.

A vast 'hive mind' is thus brought into being, where carefully chosen thought and nervous system controlling pulses can be directed from a central digital control hub to wherever deemed necessary, to block the rise of creative and spiritual energies essential for a sane society and the greater positive evolution of mankind.

Such pulses will not do the desired job to those who are spiritually aware. Such individuals remain immune.

5G/6G have the capacity to carry such mass invasiveness even further. To establish a virtual reality high-tech 'smart' environment which overlays the natural world which is our home. This is where the vastly popular digital Wi-Fi 'convenience culture' ultimately takes us.

So, how is this explained by your friendly regional telecommunications corporation?

"Hello, we are making a few small changes that will help you achieve higher quality tele-communications and save on old landline rental charges. We care about our customers and want to offer the best possible convenience advantages available today. Thank you for your attention"

Sincerely, *Teled deception plc.*

Unthinkingly accepting what are sold as 'convenient improvements' to one's daily life - can have big consequences. So next time you nonchalantly reach into your back pocket to pull out your mobile phone, know who it is you are supporting and what it is that you are killing-off.

Counteracting Chaos

One of the first steps to take in countering cult imposed chaos, is to check one's taken for granted unquestioned habits, in order to see if they may be a contributory factor.

Disruption by chaos, as I said at the beginning, can be eradicated by stepping back into a quiet space, to which I will now add - and reviewing one's contribution to further supporting the source of disruption.

“Still shopping at the hypermarket?” Yes, I support corporate agribusiness.

“Still watching television?” Yes, I support mainstream fake news, the streaming of political dogma and general entertainment shows.

“Still playing with your EMF gismos and laptop?” Yes, I support crap soap opera movies, Net Flix distractions and war game apps.

“Still proud to troll around the multifarious features of your latest smartphone?” Yes, I support all smartphone technology that is taking over my life.

“Still searching for the highest interest rates at your chosen global banking institution?” Yes, of course, need to get the best rate going, even though I realise I may be supporting the global vampiring of the earth’s resources and profits of the war and weapons industry.

“Still going against the call of your soul by trying to ignore your addiction to the convenience culture slavery agenda?” Err, well, never thought about that. But it’s a soulless world and I need to operate in it in order to bring in sufficient income to maintain my life style.

You get it, of course. How many of these fundamental hurdles have you actually crossed? Only one or two - maybe none? Be honest.

Do you consider yourself to be fighting injustice or supporting it?

Are you true to yourself - your real self - or are you still essentially embracing the chaos that provides a fertile base for the hypocritical life so ubiquitously manifesting today?

These are the admittedly brutal ‘in the mirror’ questions that we must ask ourselves and demand answers to. Answers in the form of actions that will end any further support of the chaos - and turn into a commitment to illuminate and live by truth.

There is no other way of supporting the deep change that must be brought about. It all starts with us, and we need to act bravely and conscientiously and to lead by example.

If one is not able to set the necessary example, how can one expect others to?

Words unattached to actions have become empty and ultimately meaningless. Yet much of social media chat and smart-messaging is just that – an empty shell, and echo chamber that distracts from facing-up to reality and making a solid stand for the emancipation and regeneration of Life.

The crisis now at our door presents the best and most meaningful challenge that mankind has ever faced. It quite simply drives us to dig deep and unlock that hidden power within.

Dark manifestations are not just the domain of a satanic cult. They also emanate from our own seemingly locked-in behaviour patterns and are a reflection of the long term accumulated repression of our deeper instincts. It is well known that energetic natural and creative instincts not given expression, turn into their opposites and subsequently manifest as destructive powers.

The insentient anti-life power play will only be stopped in its tracks by an awakened mankind, able and willing to give full expression to the call of heart and soul.

By repressing or ignoring the voice of soul/ heart wisdom, we enter the same territory as that of our dark-side oppressors. We too become loosh to fuel their malevolent attacks on human kind.

The longer we leave this battle ground uncontested, the longer the satanists will prevail and the longer will we suffer the repercussions of our passivity – which is, in fact, a form of soul suicide.

No, dear friends, dare not entertain such a concept. Let us draw our symbolic golden swords and turn to face our oppressors head-on.

At this highly auspicious moment, a previously latent power will rise up in us that transforms the ordinary into the extraordinary. That turns the timid silent witness into courageous spiritual warrior.

It is such heroic acts that will finally

We *all* have it in us to render such a service to humanity and to thus honour that Supreme Consciousness which entrusted us to take responsibility for perpetuating the momentum of creation.
