Abstract

Our understanding of COVID-19 synthetic, modified mRNA (modmRNA) products and their public health impact has evolved substantially since December 2020.

Published reports from the original randomized placebo-controlled trials concluded that the modmRNA injections could greatly reduce COVID-19 symptoms. However, the premature termination of both trials obviated any reliable assessment of potential adverse events due to an insufficient timeframe for proper safety evaluation. Following authorization of the modmRNA products for global distribution, problems with the methods and execution of the trials have emerged.

The usual safety testing protocols and toxicology requirements were bypassed. Many key trial findings were either misreported or omitted entirely from published trial reports. By implication, the secondary estimates of excess morbidity and mortality in both trials must be deemed underestimates.

Rigorous re-analyses of trial data and post-marketing surveillance studies indicate a substantial degree of modmRNA-related harms than was initially reported.

Confidential Pfizer documents had revealed 1.6 million adverse events by August 2022. A third were serious injuries to cardiovascular, neurological, thrombotic, immunological, and reproductive systems, along with an alarming increase in cancers.

Moreover, well-designed studies have shown that repeated modmRNA injections cause immune dysfunction, thereby potentially contributing to heightened susceptibility to SARS-CoV-2 infections and increased risks of COVID-19.

This paper also discusses the insidious influence of the Bio-Pharmaceutical Complex, a closely coordinated collaboration between public health organizations, pharmaceutical companies, and regulatory agencies.

We recommend a global moratorium on the modmRNA products until proper safety and

toxicological studies are conducted.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic,

explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.
—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
