COVID-19. We've been living with it for what sometimes seems like forever. Given the number of deaths that have occurred from the disease, it's perhaps not surprising that some consumers are turning to drugs not approved or authorized by the Food and Drug Administration (FDA).

One of the FDA's jobs is to carefully evaluate the scientific data on a drug to be sure that it is both safe and effective for a particular use. In some instances, it can be highly dangerous to use a medicine for the prevention or treatment of COVID-19 that has not been approved by or has not received emergency use authorization from the FDA.

There seems to be a growing interest in a drug called ivermectin for the prevention or treatment of COVID-19 in humans. Certain animal formulations of ivermectin such as pour-on, injectable, paste, and "drench," are approved in the U.S. to treat or prevent parasites in animals. For humans, ivermectin tablets are approved at very specific doses to treat some parasitic worms, and there are topical (on the skin) formulations for head lice and skin conditions like rosacea.

However, the FDA has received multiple reports of patients who have required medical attention, including hospitalization, after self-medicating with ivermectin intended for livestock.

Here's What You Need to Know about Ivermectin

- The FDA has not authorized or approved ivermectin for use in preventing or treating COVID-19 in humans or animals. [Ivermectin is approved for human use](#) to treat infections caused by some parasitic worms and head lice and skin conditions like rosacea.
- Currently available data do not show ivermectin is effective against COVID-19. [Clinical trials](#) assessing ivermectin tablets for the prevention or treatment of COVID-19 in people are ongoing.
- Taking large doses of ivermectin is dangerous.
- If your health care provider writes you an ivermectin prescription, fill it through a legitimate source such as a pharmacy, and take it *exactly* as prescribed.
- Never use medications intended for animals on yourself or other people. Animal ivermectin products are very different from those approved for humans. Use of animal ivermectin for the prevention or treatment of COVID-19 in humans is dangerous.

What is Ivermectin and How is it Used?

[Ivermectin tablets are approved by the FDA](#) to treat people with intestinal strongyloidiasis and onchocerciasis, two conditions caused by parasitic worms. In addition, some topical forms of ivermectin are approved to treat external parasites like head lice and for skin conditions such as rosacea.

[Sep. 15, 2021](#) - The plot against Ivermectin.

- This interesting article describes the propaganda around fraudulently labeling Ivermectin as “horse dewormer”

Jan. 2, 2024 - 49 year old Champion bodybuilder and former paramedic Chad Russell McCrary died unexpectedly. In Aug.2021 he mocked Ivermectin as a “horse wormer” and got COVID-19 Vaccinated.

- He was paralyzed in 2005 after motocross accident but continued to compete
- Aug. 21, 2021: FDA Issued their false propaganda tweet about Ivermectin
- Aug. 30, 2021, McCrary: “People would rather take horse wormer apparently. Well, I didn’t murder anyone and I damn sure not a horse”
- Aug. 30, 2021: “Trying to convince people to take equine medicine is the craziest shit I’ve ever heard of...As a paramedic, I wonder what the ER doctor would say if I rolled up in there and tell them I gave my patients horse wormer...for the love of God”
- Sep. 26, 2021: “One of the main reasons I went ahead and got my covid vaccine is because I go to hospitals and nursing home to visit people and hopefully lift their spirits”.

One of the main reasons I went ahead and got my covid vaccine is because I go to hospitals and nursing home to visit people and hopefully lift their spirits. Yesterday I had to have a rapid covid test to enter a facility. They jammed swabs up my nose. Man that sucked. It was negative so I guess that's good. I thank God he has protected me during this time. I know lots of others haven't been so fortunate. My thoughts and prayers go out to those who's families that have been affected by this virus. Together we will get through this.

People look at me like I murdered some people when I tell them I've had the vaccine. I've even had people tell me they would pray for me.... People would rather take horse wormer apparently. Well, I didn't murder anyone and I damn sure not a horse. if you dont want the vaccine then don't take the damn thing. Dont ostracize people for trusting the experts though. Trying to convince people to take equine medicine is the craziest shit I've ever heard of.... As a paramedic I wonder what the ER doctor would say if I rolled up in there and tell them I gave my patients horse wormer... for the love of God....

SO Arnold went overboard saying "Screw your freedom" in a video regarding the covid vaccine. One should never say that. Especially someone who is an implant and NEVER fought for freedom. It should always be a choice to get this vaccine. I took it, I'm fine and will with certain not be placed on a ventilator. Yes, you can still get covid after the vaccine, but you wont end up in critical condition. As someone with a profession in healthcare, I've had so many vaccines I've lost count. What I do know is I've never had any virus that could kill me. People are skittish about being able to trust our leadership and considering what's happened in the last year, I don't blame them.

Oct. 29, 2023 - IL - Deborah Zari died suddenly on Oct. 29, 2023.

- “Are people really dumb enough to believe a *horse dewormer* is safer than the vaccines?”
- Deborah Zari was found unresponsive in the morning of Oct. 29, 2023.

<  **Karen Skinner** 5d · 🌐 ...

October 29, 2023

I worked with [Deborah Zari](#) for thirty years. I am devastated by her death this morning. I am also relieved that she lingered no longer after being found unresponsive . A couple of days is more than enough. She always had a chair by her desk. Deb was an introvert who loved a story. She sure heard and observed more than her fair share of them. She could be induced, on occasion, to share some of her own - some via words and even more through her gorgeous photographs. I spent a fair amount of time in that chair over thirty years. We have held some of each others tenderest moments and we have, metaphorically, stuck pins in many voodoo dolls. Deb was a staunch and loyal friend, daughter and worker. She deserved a longer retirement. I think of her every day as I walk past the framed prints she took of me kissing my little guys when they visited me at the office,

I'm grateful for the thirty years. **Illinois, USA**

Dwight Allan Twilley (1951-2023) Oklahoma, USA October 31, 2023

Tulsa, Oklahoma native and power pop legend, Dwight Allan Twilley, passed away on Wednesday, October 18, 2023. Dwight was driving alone in Tulsa when he suffered a massive stroke, lost control of his car and crashed into a tree. Dwight passed away due to a consequent cerebral/brain hemorrhage at St. John's in the Critical Care Unit with his wife, Jan Twilley, and a few close friends in attendance.

Dwight Twilley was born June 6, 1951 in Tulsa, Oklahoma. Along with fellow Beatles worshipper, Phil Seymour, he formed the band, Oister. The pair pioneered home recordings working with a Teac 4-track. Twilley's songwriting combined raw-edged '50s rock 'n roll and rockabilly with melodic '60s pop, plus his own distinctive quirkiness to yield "power pop." Oister was renamed The Dwight Twilley Band, and the duo, accompanied by their stalwart guitarist Bill Pitcock IV, were signed by Shelter Records (Leon Russell and Denny Cordell) in Tulsa.

May 26, 2023 - West Chester, PA - 52 yo animal activist Chris Takacs died in his sleep on May 26, 2023.

- Sep. 7, 2021: "Please get vaccinated. Please don't take sheep medication."
- April 30, 2021: "I got my second shot of the Moderna vaccine today"

Christopher Joseph Takacs

May 4, 1971 ~ May 26, 2023
52 Years Old

Obituary

Christopher Joseph Takacs of West Whiteland Township **unexpectedly passed away in his sleep on May 26, 2023 at age 52**. He is survived by his father Ronald, and predeceased by his mother Adrianna and brother Kevin. He is also survived by the love of his life Jill Hunsberger, his beloved Aunt and Uncle Kathy and Bruce Ferrentino of Andover NJ, cousins Ashley and Chris Miller, their sons Zachary and Andrew, and cousin Tyler Ferrentino of Morristown NJ.

Born in Passaic NJ, Chris moved with his family to West Whiteland in 1975, graduated from Henderson High School, and then from Penn State University with a degree in finance and had been employed in the finance department of Cooper

Joe Rogan Talks About Ivermectin “Horse Paste” Propaganda

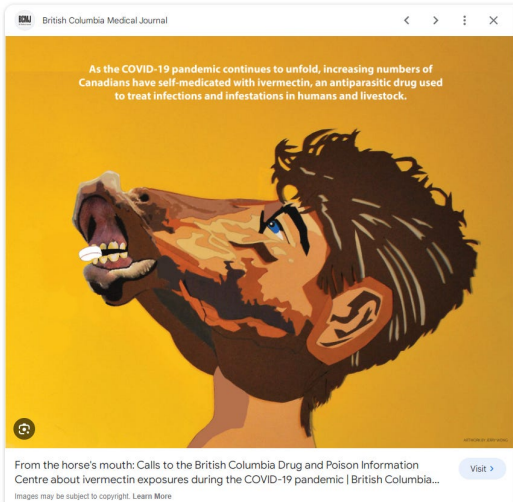

Watch the video [here](#).

Mainstream Media and Medical Associations

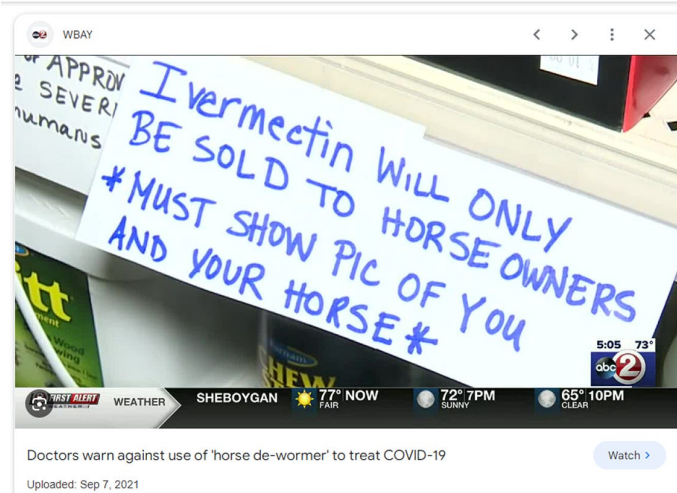

- The propaganda in US and Canada around “horse dewormer” was relentless and hundreds of media outlets and medical associations participated in it.
- For example, the British Columbia Medical Association Journal in Canada wrote an article titled “From the horse’s mouth: Calls to the Drug and Poison Information Centre about Ivermectin Exposures”
- It’s crucial to remember that they were ALL in on it.

TikTok Covid Cure Videos: Ivermectin Horse Deworming Misinformation

Despite health warnings, horse medicine being purchased to treat COVID-19 | Watch News Videos Online

[MSNBC](#) - Example of Mainstream Media Propaganda on "Horse Dewormer"

In America, the business of lies is winning – and killing people

We have credible proof that ivermectin does not work against Covid-19. But it's still out there.

April 4, 2022, 9:43 AM MDT

By Dr. Kavita Patel, MSNBC columnist

Here's a handy tip, courtesy a box of ivermectin: "Deworming depends on the right amount of dewormer getting into your horse. DEWORMER WON'T WORK IF IT ENDS UP ON YOUR SHIRT!"

This is the drug that fringe doctors and right-wing social media celebrities swore would prevent and/or cure Covid-19, a lie that led to it being in short supply last year. As incredible as this might seem, it is just a symptom of the real diagnosis. Science and credible health information have been replaced by anyone with the ability to stitch together a narrative of government conspiracies and the brainwashing of America's doctors.

The energy exerted by the radical right filters into the mainstream by disguising itself with the label of "doctor" or "patient" or "right to try."

Consider the actual science. A recent large, double-blind, randomized, placebo-controlled trial (considered the gold standard in research) from Brazil confirmed what dozens of studies have already found. In brief: Ivermectin does not help reduce hospital

admissions or emergency room visits for patients with Covid. In fact, the data is so compelling that one could argue any doctor that prescribes this medicine for a patient should have their credentials re-evaluated.

Ivermectin is an anti-parasitic that has been in use for animals since the 1970s and was eventually found to have clinical use in humans for treating lice, scabies and other parasitic diseases. Its use against

- “any doctor that prescribes this medicine (Ivermectin) for a patient should have their credential re-evaluated”.
- “This is the drug that fringe doctors and right-wing social media celebrities swore would prevent and/or cure Covid-19, a lie that led to it being in short supply last year.”
- “There is black and white evidence that ivermectin not only does not help Covid patients, but also that when the product intended for animals is taken by humans, it can cause harm, including a dramatic increase in calls to poison control centers nationwide.” (the harm isn’t any actual poisoning, but an “increase in phone calls”)
- “The real threat is not limited to ivermectin, of course. It extends to misinformation around other unproven Covid treatments such as hydroxychloroquine and targeted at actual effective strategies such as vaccines, masks and more.”
- “The energy exerted by the radical right filters into the mainstream by disguising itself with the label of “doctor” or “patient” or “[right to try.](#)””

My Take...

This article is not about the hundreds of thousands of lives in the US and Canada that could have been saved with Ivermectin or other early treatments.

Beyond what RFK Jr talked about with Rogan (blocking Ivermectin so the \$200+ billion failed mRNA tech could be rolled out), I believe there was another, more specific purpose to the “horse dewormer” operation.

As the phenomenon of “died suddenly” among the COVID-19 mRNA Vaccinated continues to accelerate, I have noticed that some of those who have recently died, fully bought the fraudulent “horse dewormer” propaganda and were brainwashed into mRNA vaccination.

This particular piece of propaganda was rolled out in August 2021 and it was so effective that many are still parroting the false talking points to this day.

But why August 2021?

This was the final non-coercive tool to try and increase mRNA Vaccine uptake and compliance which had stalled around 60%.

The propaganda technique employed was: shaming and ridiculing the unvaccinated (you’re not a horse, you’re not a cow). That’s why the FDA post was so unprofessional and childish – it had to be that way to achieve the goal of “persuading” the remaining 30-40% who were holding out on vaccination.

What came immediately after this?

Illegal COVID-19 Vaccine mandates – get the mRNA vaccine or lose your job, career, University/College program, government benefits, etc.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
