Brazilian Musician MC Katia a Fiel had a minor surgery in July 2023 to remove a 5cm fibroid. She ended up with two leg amputations.

MC Katia was COVID-19 Vaccinated with one dose J&J Janssen:

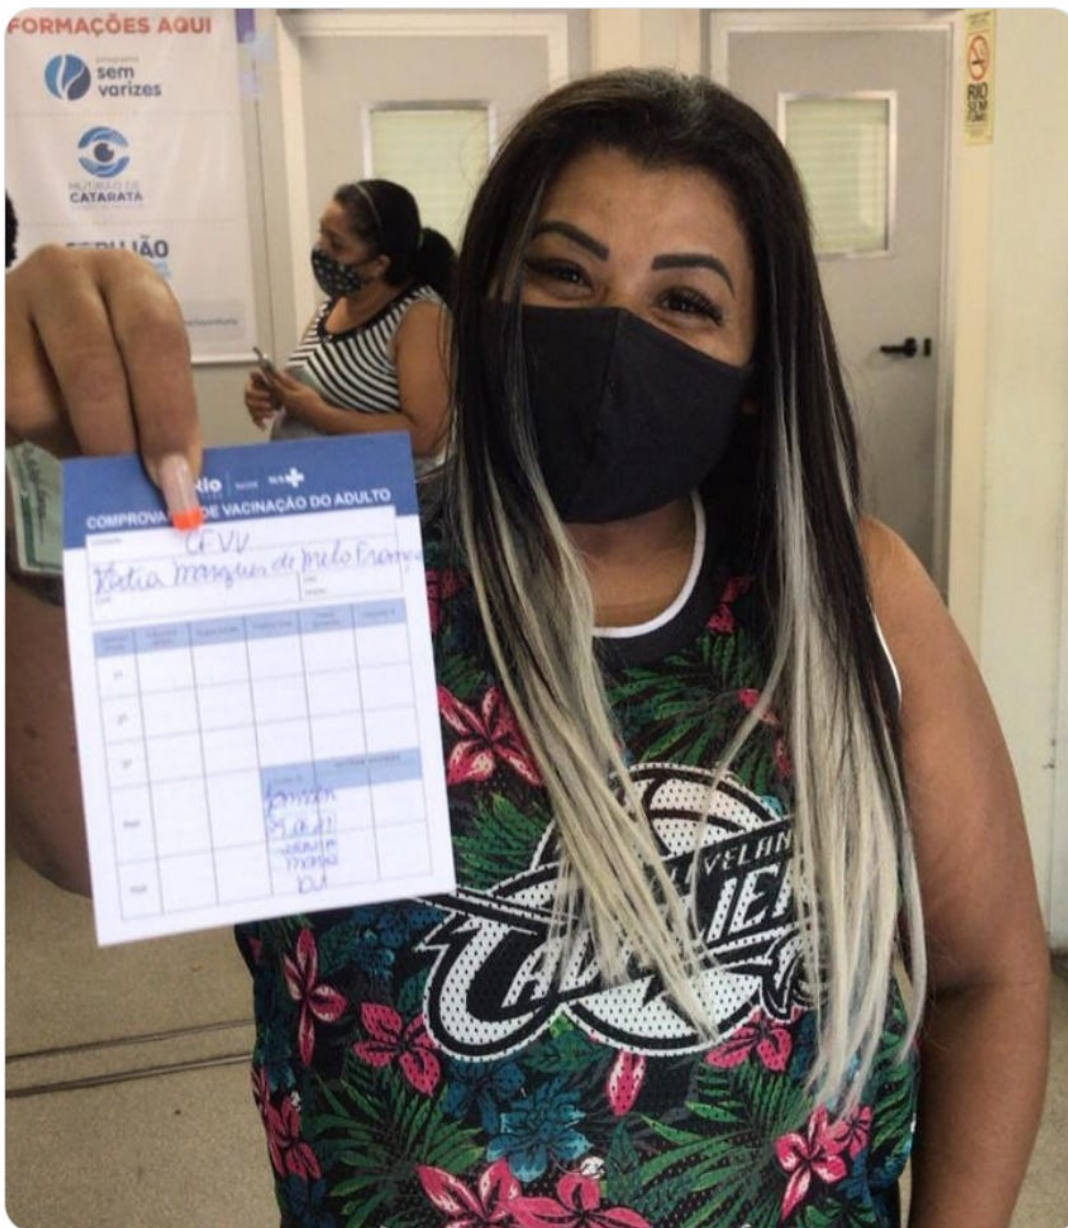

MC KATIA A FIEL
@mckatiaafiel

Vacinada graças a Deus ..🙏
Em breve todos serão
E tudo voltará ao normal #fé
#Vacinajanssen dose única
Translated from Portuguese by Google
Vaccinated, thank God.. 🙏
Soon everyone will be
And everything will return to normal #fé
#Vacinajanssen single dose

@mckatiaafiel

PELO AMOR DE DEUS SÓ PAREM DE FALAR DE EFEITO COLATERAL DE VACINA E VAI VACINAR!!!! Fica aí com ressaca de 3 dias parecendo que contraiu dengue pq virou vários litrão misturou com gin e askov e não lembra nem como chegou em casa e quer falar de efeito de vacina? me poupe

Translated from Portuguese by Google

FOR THE LOVE OF GOD JUST STOP TALKING ABOUT VACCINE SIDE EFFECTS AND GO GET VACCINATED!!!! You sit there with a 3-day hangover looking like you contracted dengue because you drank several liters of it, mixed it with gin and askov and you don't even remember how you got home and you want to talk about the effect of the vaccine? spare me

MC KATIA A FIEL

@mckatiaafiel

São 500 mil mortos! 500 mil pessoas que perderam a vida por falta de
vacina.

Enquanto outros países estão comemorando o fim ... infelizmente a
gente estamos perdendo pessoas que amamos  para o covid
Bora!!! Eu ainda acredito que vamos comemorar o fim dessa pandemia

Translated from Portuguese by Google

There are 500 thousand dead! 500 thousand people who lost their lives
due to lack of vaccine.

While other countries are celebrating the end... unfortunately we are
losing people we love  to covid

Let's go!!! I still believe we will celebrate the end of this pandemic

A brief explanation of what happened in July 2023:

Mc Katia undergoes second leg amputation due to surgery complications; understand

Funkeira had thrombosis after needing to remove a fibroid; she asks for donations to purchase a prosthesis

Why Writing

08/09/2023 5:12 PM • Update: 08/11/2023 09h39

Mc Katia has been hospitalized since the beginning of July at Hospital Souza Aguiar, in Rio, to remove a fibroid in the uterus. This Tuesday, 8th, the funkeira had to undergo a new surgery and amputate her right leg.

Last month, the singer had thrombosis after surgery to remove the fibroid and needed to amputate part of her feet.

ADVERTISING

In a new statement on social media, the artist's husband, DJ Ld, said: "Katia underwent a new surgery, had another amputation because the blood was not going to the foot, and it was necessary to amputate above the knee. The surgery went well, everything went well. She continues to recover. I thank you all for your affection".

"She is very strong and special woman", concluded the DJ.

My Take...

COVID-19 Vaccinated do extremely poorly with even the most minor surgeries – they tend to develop blood clots either during or shortly after the operation and these clots can be devastating and in many cases, FATAL.

This is happening with all COVID-19 Vaccines, not just the original "clot shots" which were AstraZeneca and J&J (and the reason they were pulled off the market).

I wrote an article about this on Sep. 15, 2023: "Minor surgeries turn deadly for the COVID-19 mRNA Vaccinated – 16 tragic stories" ([click here](#))

According to WHO VigiAccess, 65% of COVID-19 Vaccine injured are WOMEN.

COVID-19 Vaccinated women are suffering blood clots after minor surgeries, which are commonly cosmetic surgeries, like the following example of a 21 year old London, UK resident Dellie Isla, who had a labiaplasty in April 2023 and within hours developed blood clots which required 3 emergency surgeries.

Glam OnlyFans star ‘almost died’ after £5,000 ‘designer vagina’ surgery blood clot hell

By Ellie Adams | February 20, 2024 | No Comments

Dellie Isla, 21, got a labiaplasty in April as she didn't like the look of her original vagina, which was causing her discomfort – but the surgery caused horrifying complications

An OnlyFans star suffered a horrific illness after getting a ‘designer vagina’ surgery – but is now having the best sex of her life.

Influencer Dellie Isla sought out the surgery because she didn't like the look of her “old” vagina, which was causing her discomfort.

After reportedly researching her surgeon for two years, the 21-year-old Londoner finally booked her labiaplasty – which cost her a whopping £5,000 – in April of this year.

However, she soon became ill and was rushed to hospital, where she said doctors found three blood clots as a result of the surgery.

Isla said: “My fiancé ended up having to call an ambulance, which resulted in me being taken to hospital and spending 10 days in an emergency ward.

“I went home an hour after the procedure was completed and within two hours, I was in excruciating pain, which is not normal for this kind of surgery.”

The internet star was then forced to get three emergency surgeries, causing “unbearable pain”.

The model recalled that for around a week during her stint in hospital, she was “unable to move almost completely.”

It's one thing for a 70+ year old COVID-19 Vaccinated woman to die from blood clots after a shoulder surgery, like Nancy Crookston who died on Nov. 17, 2023. No one will think twice about such a case.

It's an entirely different case for 21 year olds to die the same way.

Nancy Seamons Crookston
13 m · 🌐 **19th November, 2023**

Nancy Seamons Crookston 11/23/48 - 11/17/23

Just 8 days after shoulder surgery, 6 days before her 75th birthday, and a million days too soon, Nancy Seamons Crookston passed away suddenly and unexpectedly due to a blood clot that developed postoperatively. We are beyond shocked and devastated. She loved her Facebook friends so much and was so interested in learning from and living through all of you. We hope to have a celebration of her life and will share details soon. **California**

Lynda Michaelis
8h · 🌐 **Dec. 9, 2023 - Maryland, USA**

Hello all,
It's Melanie posting this for Lynda.
On Thursday morning Lynda went in for heart valve replacement. All went well and after waking up her legs felt numb. They checked for pulse with the doppler in her feet and couldn't hear anything. So they did an ultrasound and found several blood clots in both femoral arteries. She had to go back into the OR under full anesthesia and after more than 4 hours she was brought into ICU. Both procedures went well and she is now recovering. She still feels some pain but it's tolerable with the right medication lol. They are waiting for her to get cleared for step down until which should be today or tomorrow. All in all she can crack jokes and be sarcastic so we know she is getting back to her normal self.
Thanks for all the messages to her. She appreciates all the love...

Sometimes you die at the start of a surgery like Carolyn Dixon from Charlotte, NC, did on Nov. 7, 2023.

I know it is the daytime, but last night, after I posted my mom devotional, I went to check on one of my mom friends I knew was having surgery on Monday. I was devastated to find out she passed away at the beginning of the surgery. I met Carolyn Dixon a long time ago when all I was looking for was 5 minutes away from the loudness that was life. We all were. In the days before social media, we had discussion boards and meet up groups. Carolyn and I got to know each other over talk about fabric and cupcakes. I am heartbroken for her family, especially Frank and her kids. Please pray for them and their sudden loss of this beautiful woman.

Of course, it’s happening to men as well. Here is a very routine surgery in a 20 year old baseball player for George Mason University (Fairfax, VA), Sang Ho Baek, which was fatal.

46 year old football coach Radford Dudoit, at Kalani High School, Hawaii had complications after heart surgery, losing both feet and his left hand. He died Feb. 1, 2024.

Kalani high school head football coach Radford Dudoit passed away on Thursday. He was 46.

After having heart surgery last June, Dudoit battled a bevy of complications from the operation, which included losing both feet and his left hand.

[All the latest sports news from Hawaii's sports station](#)

Dudoit was flown to Stanford Medical Center on an emergency basis for approximately 40 days. From there, he returned to Queen's Medical Center in Honolulu, and eventually returned to his home in late December.

Dudoit was hired as Kalani's head coach in 2022. In Dudoit's absence in 2023, the Falcons went 4-4 under interim head coach Quinn Griffiths.

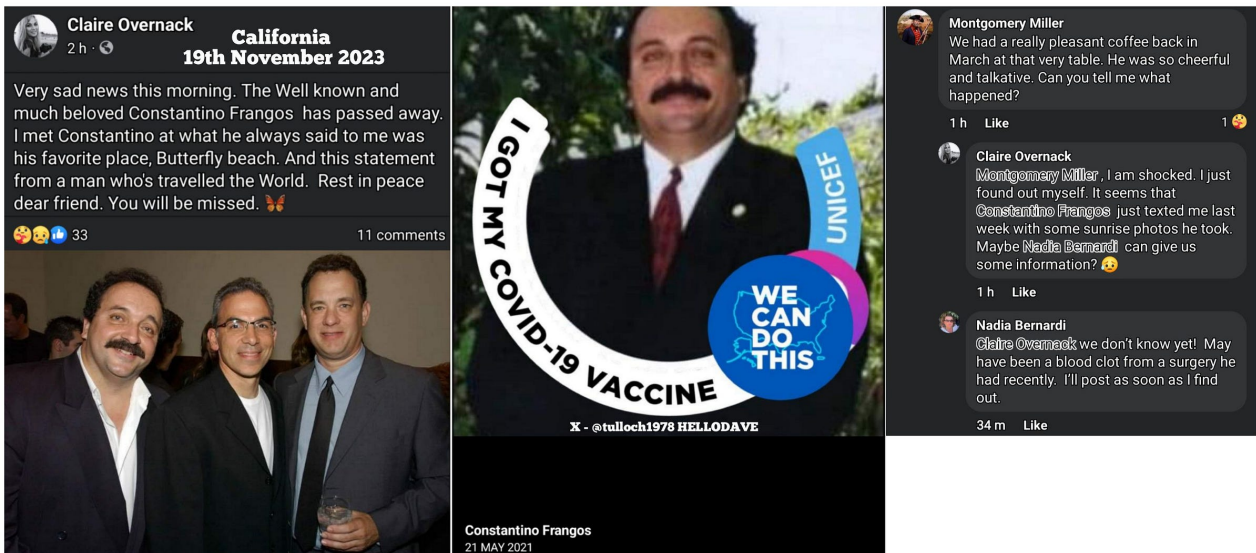

Dudoit, who also served as an assistant athletics director at Kalani, had planned to return to coach the Falcons in 2024.

For weeks, Dudoit had battled a septic infection before succumbing on Thursday, according to his wife, Zabrina.

A [GoFundMe](#) has been set up for Dudoit's family.

"May have been a blood clot from a surgery he had recently" – Constantino Frangos died

Nov. 2023.

Conclusion

Where can we find evidence? UK government data.

522% increase in hematological disabilities in 2022 in the UK.

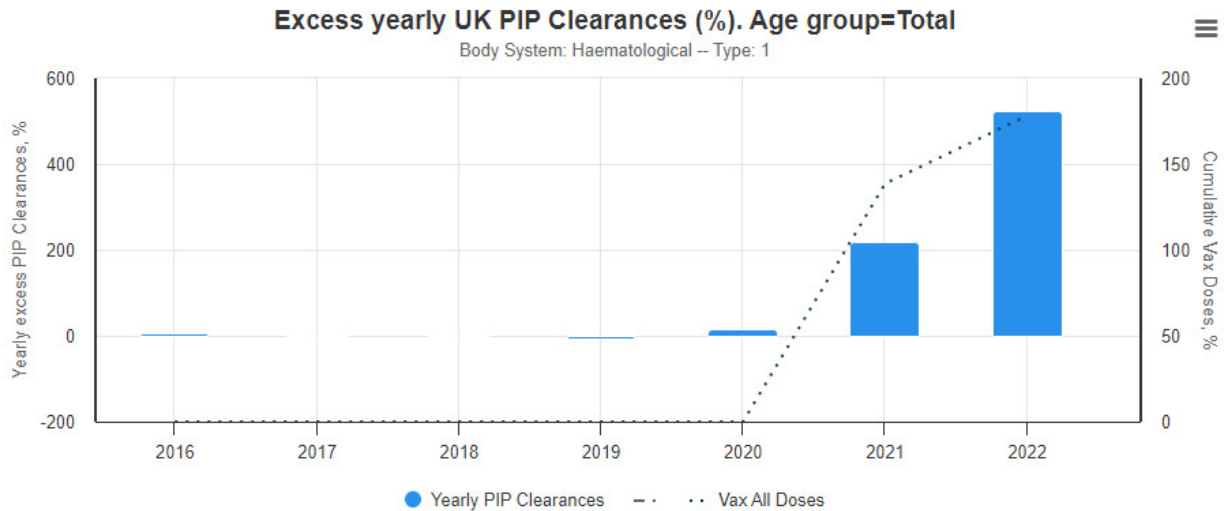

- Blood clotting disorders +162%
- platelet disorders +221%
- Blood disorders +137%

This isn't "Long COVID" which barely registers a small blip in 2020.

These are COVID-19 Vaccine Induced hematological disorders.

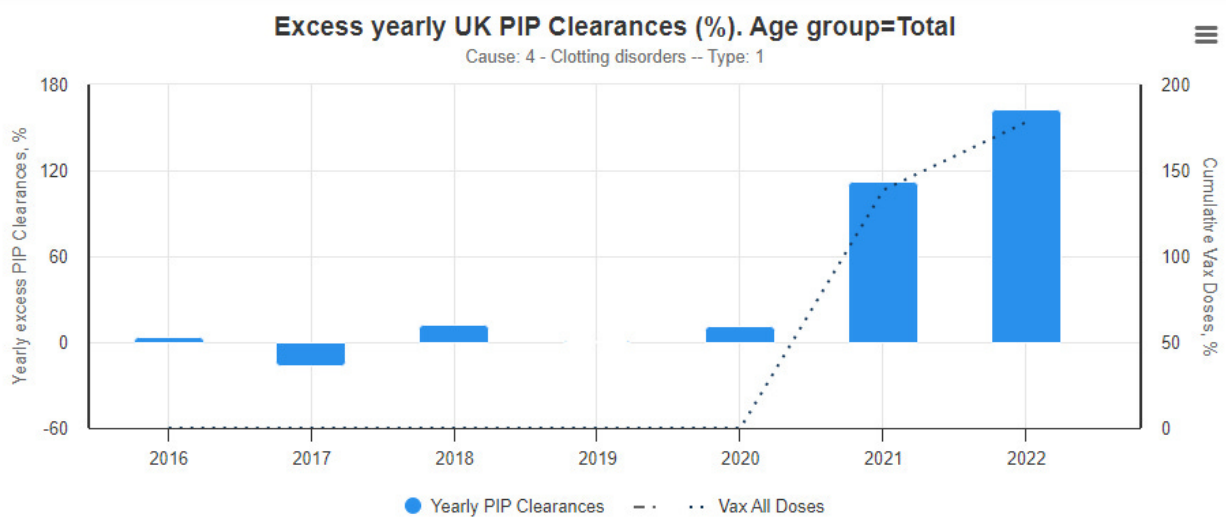

Yearly PIP clearances (New Claims), from 2016 to 2023.

Choose the type of output for monthly PIP Clearances (New Claims):

Haematological

So what do you do if you're COVID-19 Vaccinated and you need a surgery?

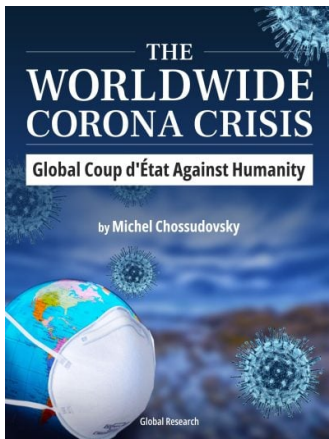

Avoid elective surgeries where possible.

Otherwise, inform your doctor of the significantly elevated risk of blood clots due to COVID-19 Vaccines.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —**Dr. Mike Yeadon***

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —**Dr. Emanuel Garcia***

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —**Peter Koenig***

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —**David Skripac***

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
