Video 1: Major Japanese Press Conference

[Click here to watch the video](#)

They were stirring up that the vaccine should be taken for people with diseases, so my spouse and I stupidly believed that that just getting this vaccine would definitely save us and we got vaccinated. Two days later, while I was on a day off going back to my parents' house, he passed away alone An autopsy was also conducted.

I wasn't satisfied because many of our customers were doctors, they said to perform the autopsy anyway because if you leave the cells, they can be examined again with the latest technology later on. So the advice was to go ahead with the autopsy anyway. Okay. Based on the suggestion to preserve the cells, we had the pathologist perform the autopsy. The autopsy was conducted. And I was not satisfied either. The reason is that the pathologist said the vaccine was 100% not related. At that time, even the minister said that it's absolutely impossible to die from the vaccine. "Has anyone acknowledged this?" was the question posed. The pathologist told me that all you can do now is to conduct late-night consultations and honor your husband's memory. That's all you were told you could do. Even if you were to take the cells everywhere, or even talk to a university hospital, just to work on a single cell would cost 300,000 yen, and to work on all the cells would cost tens of millions of yen. Either way, you were laughed at with the notion that even if you sued the government, you'd lose. At that time, I thought it was absolutely terrible. What I'm thinking about now, beyond the process of death, is the immense damage caused by the coronavirus vaccine and how the country continues to ignore it and pushes for vaccination. They proceed.

Meanwhile, they relentlessly pressure private companies to the fullest. The vaccine damage are not shared with the public. Not at all. Neither information nor the media are disseminated. They make the damages from the new coronavirus vaccine seem smaller or ignore them altogether, as if to suggest it's being circulated in such a way. That's what I've thought over these three years. People are dying, and the reality of what is happening is being hidden. They are gone. There are people currently existing who suffer from side effects and damages, yet, even this is hardly broadcasted by the media. Almost not at all.

What infuriates me the most is the way the new coronavirus vaccine damage is being substituted for coronavirus damage and disseminated by the media.

I also feel stifled by this and really think, what kind of country is this, you know? Even before and now, after getting vaccinated, I think the information being spread by the country to Japan is impure. "Please get vaccinated." "After that, it's your responsibility." I absolutely think this situation is wrong.

Because you signed the vaccination ticket, it's all on you. I got vaccinated because of the media's guidance. I believed in the country. In the end, the country says it's your responsibility because you signed the vaccination ticket. It's your responsibility.

What does that even mean?

You can't make the decision not to get it to get it. You can't judge that one step wrong could lead to death. Really?

What kind of shot is that?

In the end, I believe my husband wanted to live. I think my husband truly regretted it. The country really should take responsibility. That's all.

Video 2: A Mother Recounts Her Son's Death Amid Landmark Class Action Lawsuit Filed by COVID Vaccine Victims Against Government

A Heart-Wrenching Moment at Japanese Press Conference: A Mother Recounts Her Son's Death Amid Landmark Class Action Lawsuit Filed by COVID Vaccine Victims Against Government.

Plaintiff number 7:

"My son had his third dose of the vaccine on May 1, 2022, and then in the early... pic.twitter.com/S8z86CMIHL

— aussie17 (@_aussie17) [April 18, 2024](#)

Plaintiff number 7:

"My son had his third dose of the vaccine on May 1, 2022, and then in the early hours of May 4, at [4:30 AM](#), he suddenly shouted out and immediately after went into cardiac arrest, He was rushed to the hospital by ambulance and put on ECMO, but he passed away a week later, on May 11. He was only 19 years old"

"My son, who worked at a pharmaceutical company, had strong side effects from the first and second doses and said he wouldn't take a third, but he had to take it for the sake of the company; the president also strongly urged him, resulting in him getting vaccinated."

“Please, this is the truth. It’s neither a lie nor a made-up story. Don’t look away from reality. Why is vaccination not halted? How long will this situation be ignored? I hope there are as few people as possible enduring the suffering we go through every day. “

Video 3 – Japan’s Most Senior Oncologist, Prof. Fukushima Condemns mRNA Vaccines as ‘Evil Practices of Science’

[Click here to watch the video](#)

Japan’s Most Senior Oncologist, Prof. Fukushima Condemns mRNA Vaccines as ‘Evil Practices of Science’

Highlights

“I am the most senior medical oncologist in Japan. I was the first to open a cancer outpatient clinic at Kyoto University, and before that, in Kyoto University, in 2020, I was the head of a section at the Aichi Cancer Center, all positions were at the Aichi Cancer Center Hospital. I established the first course in pharmacoepidemiology at Kyoto University in Japan. ...

People are saying about what’s being called “turbo cancer,” a type previously unseen by doctors, characterized by its incredibly fast speed. By the time it’s discovered, it is already in stage four, advanced cancer, and such cases are starting to sporadically appear in consultations. Thus, doctors began sharing information about these extraordinary cases that are different from before. So, this has gradually become the situation since last year or the year before that. Indeed, doctors have been sensing from the field that something unusual related to cancer may be happening. They were feeling it on the ground. ...

Moreover, the results of our analysis show, surprisingly, that specific types of cancer, in relation to the vaccination, seem to be experiencing excess mortality. Firstly, cancers such as breast cancer, ovarian cancer, thyroid cancer, and then statistically, esophageal and lung cancer. These are, and another one is prostate cancer in men. Such cancers are specifically observing excess mortality. This phenomenon cannot be simply explained by disruptions

such as early screenings being unavailable due to the pandemic, or lost opportunities for treatment. ...

It's as if we've opened Pandora's box and are now encountering all sorts of diseases. We're facing them. Autoimmune diseases, neurodegenerative diseases, cancer, and infections. All of these, including rare and difficult diseases, even those rare conditions are happening. Even diseases unheard of are being encountered by ordinary doctors. ...

This isn't science; it's more akin to faith, hysteria, or even cult behavior, in my opinion. Opposing vaccines doesn't make one a heretic like Galileo; it's become like being treated as a complete outcast. That's the situation. This is madness. ...

We really must take these damages seriously and address them earnestly. Any efforts to dismiss these damages as if they didn't happen are, frankly, the work of evil. This is a quintessential example of the evil practice of science. ...

Therefore this vaccine was from the beginning based on misconception, misconduct, and evil practices of science, totally defective, founded on misconceptions, leading to a totally false production, a false product, I believe. ...

We must confront this directly again and shine the light of science on it, so the WHO should lead a comprehensive outcome research on this gene vaccine used on humanity on a large scale for the first time, and all countries should cooperate with it.

We should never again use such vaccines. This is a shame for humanity. It's a disgrace!

Video 4 – Dr. Atsuo Yanagisawa, Former President of the International Society for Orthomolecular Medicine, SHOCKED at mRNA Adverse Reactions Data

【署名II】 ワクチンの薬害と死亡の説明を求める aussie17.com

季節性インフルエンザワクチンと新型コロナワクチンの
65歳以上の接種数と救済制度死亡認定数

ワクチン種別	総接種回数	死亡認定数
インフルエンザワクチン	1億7922万1430回 ※2012~2021年度	4名
新型コロナワクチン	1億9308万5078回 ※2024年2月20日公表分(首相官邸) 2024年2月19日公表分	3名

Dr. Atsuo Yanagisawa, Former President of the International Society for Orthomolecular Medicine, SHOCKED at mRNA Adverse Reactions Data

Highlights:

What I am about to talk about now, as a doctor, was very shocking data to me. This is a comparison of the risks involved in administering the seasonal flu vaccine and the COVID vaccine to people over the age of 65. It is.

For the influenza vaccine, the number of administrations over 10 years is 180 million times, and for the COVID vaccine, it's 190 million times, with the latter being administered over a period of 3 years. In both cases, a person received the vaccine 2, 3, 4, 5 times. It's a multi-dose vaccine. Now, regarding the adverse reactions officially recognized as causing death by certain countries, for the influenza vaccine, there were only 4 deaths out of nearly 180 million doses administered. Just four people. On the other hand, for the COVID vaccine, there were 378 deaths, which means there were more than 90 times the number of people officially dying from adverse reactions, due to the vaccine. ...

Now, regarding the risks of this new coronavirus vaccine, we first call on the government to temporarily halt the vaccinations. Pause them, and then, on that basis, reassess the vaccine's safety trials and safety to consider whether it's worth examining safety further.

Japanese Edition of Michel Chossudovsky's Book

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom
