Living nightmare: I put my headaches down to ‘Christmas flu’ six months after my wedding day - but it was an incurable brain tumour

He said people still don’t understand cancer’s true horror

By Owen Leonard, [The Sun](#), September 2, 2024

A DAD put his headaches down to simple “Christmas flu” six months after his wedding day - but it turned out to be an incurable brain tumour.

Adam Chapman, 43, thought it might’ve also been work-related stress when he started getting headaches after December 2022.

But he was left devastated after being diagnosed with high-grade glioblastoma - the most aggressive [cancer originating from the brain](#) - when he was rushed to hospital in February last year.

Adam has since been subjected to two operations, the most recent being last month, as well as months of gruelling radiotherapy and [chemotherapy](#).

His memory, cognition and sight have also all been “severely impacted” after he suffered a stroke during his initial 12-hour surgery.

He said: “I put the headaches down to work related stress, tiredness, and the tail end of the [Christmas](#) flu.

“My thoughts were blurred and things didn’t seem to make sense; I was slowly starting to lose control of my brain and body.”

Adam, from [Worcester](#), used to train in the gym five days a week and competed in 10k assault course races before his diagnosis.

But now he’s had to come to terms with the fact that he’ll deal the tumour for the rest of his “limited life”.

He said: “People appear to think that because I’ve had surgery and chemotherapy and

I'm at home now, I must be OK.

My Take...

Glioblastomas are the 2nd most common TURBO CANCER caused by COVID-19 mRNA Vaccines.

These are tumors that usually have a bad prognosis but these are even worse.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. —Edward Curtin
