Tragic mum Krystal Pitt, 24, died just 10 days after giving birth to her second child when she suddenly had a heart attack as she queued up at a Perth post office: 'You never know when your last

Story by Sarah Liversidge For Daily Mail Australia • 1d

A father has been left heartbroken after his wife died tragically just days after giving birth to their second child.

Brayden Yates' wife Krystal Pitt, 24, died 10 days after giving birth to her second child, Toby, just over a fortnight ago.

The couple had been lining up at the Noranda post office, in [Perth's](#) northern suburbs, after visiting Toby in the neonatal intensive care unit in Perth Children's Hospital when Ms Pitt told Mr Yates her chest hurt.

Within seconds, he realised she was having a heart attack.

'I had her sit down and then pretty quick, she had a cardiac event,' Mr Yates, 28, told the [West Australian](#).

Mr Yates called triple-0 before performing CPR and then setting up a defibrillator in a desperate attempt to save his wife's life before an ambulance arrived.

Ms Pitt was then placed into an induced coma and while her prognosis was initially positive, her health quickly deteriorated before she died in hospital on Saturday.

It is understood Ms Pitt, who had a pre-existing blood condition, died from blood clots that had formed in her lungs and triggered the cardiac arrest.

The couple, who are originally from York, had named their son Toby together at the hospital before she passed away.

GRAVID WOMAN DIES AFTER THE HEART STOP IN AIRROW.

In the early hours of Friday (21), a woman identified as Renata Pereira, 26, 3 months pregnant, died after suffering cardiac arrest.

According to information, the woman would have had recently had hemorrhoid surgery, and that may have been what caused a sudden illness and led to arrest.

SAMU attempted resuscitation, but unfortunately it was not possible to reverse and death was confirmed.

Stephanie Ripa is organizing this fundraiser on behalf of Connor Cave.

Dear friends, family, and community,

It is with great sadness to announce that my childhood friend Connor Cave tragically lost his wife, Justine a few days ago during the birth of their daughter. She unfortunately suffered very severe complications during the birth of their daughter. They reside in South Carolina, they were best of friends and soulmates who were excited to welcome their baby girl Casey to the family. Justine was also a wonderful stepmother to Brantley, Connor's older daughter and she absolutely loved her as her own. All their friends and family are completely devastated as she was only 32 years old.

My sister passed away after giving birth please help my family with funeral arrival. Sha'Asia 26 years old went to the hospital to have her labor induced. The doctor gave her a test dose of epidural and anesthetic medication (fentanyl). He inserted the epidural catheter wrong and didn't wait enough time between the epidural & the other meds. When she said she was having trouble breathing, he would not give her oxygen. She delivered a healthy baby girl but had a heart attack 2hrs later and died.

The death of a Perth mother days after giving birth to twins in hospital should be subject to an independent, external review, a health advocate says.

Monika Mann, 36, died on May 15, seven days after giving birth to a little girl and boy at Fiona Stanley Hospital, in Perth's south.

She was discharged from hospital six days after the birth but returned the following morning and arrived at the Emergency Department "unresponsive" and was declared dead shortly after.

Key points:

- Monika Mann died seven days after giving birth to twins at Fiona Stanley Hospital
- She was discharged six days post delivery, but returned with abdominal pain the next day
- Ms Mann had existing health issues, including heart disease and a mechanical heart valve

The 32-year-old chess master, who died in England last week, is being remembered by family and friends for her “generous spirit” and “beautiful smile”.

Her tragically early death was revealed by her husband Gawain Jones on Facebook, an English grandmaster and two-time British Chess Champion.

“It is with great sadness and heavy hearts that we announce that my beautiful wife, Sue Maroroa Jones, has passed away,” he posted.

“An incredible and cherished mother of Samaria and baby Daniel, beloved daughter of the late Temu Maroroa and Suee Lee Maroroa, and wonderful sister of Andrew Maroroa.

“She leaves behind a loving family who will miss her greatly.”

Chess master Maroroa Jones’ death came soon after Daniel’s birth, following post-natal complications, according to [Chess.com](#) - the world’s biggest chess website.

“We are deeply saddened at the tragic loss of our dear teammate and friend, Sue. She will be forever in our hearts and minds,” the Icelandic Mátar Chess Club said online.

“Sue was the most generous spirit I was lucky enough to call a friend,” another mourner said.

New Zealand Chess said she was an accomplished player who held the FIDE title of Woman International Master and represented New Zealand in five world championships between 2002 and 2012.

She was once the fastest woman in the world. So when Tori Bowie was found dead last month at just 32 years old, it rocked the sport of track and field. And now the tragedy of her death is fully known: Bowie was eight months pregnant, and died due to complications from childbirth.

The revelation came from the Orange County Medical Examiner’s Office in Florida, which just released its autopsy report on Bowie. The report concludes that Bowie, [who was found in bed alone in a home, had been undergoing labor.](#)

Bowie, whose career highlights include a 100-meter world championship and three Olympic medals (one of them gold), was found deceased on May 2, during a welfare check. The local sheriff’s office had sent deputies to check on her after she wasn’t seen for several days.

Natural causes are cited in autopsy report

The elite athlete died from natural causes, Associate Medical Examiner Chantel Njiwaji wrote in her autopsy report, citing evidence of Bowie undergoing labor when she died. The toxicology report came back negative.

Njiwaji cited possible complications from respiratory distress and eclampsia. Eclampsia, like preeclampsia, is a disorder related to high blood pressure during pregnancy. The dangers of the two conditions are well-documented, even if their precise causes aren’t yet known.

As many of you know, Crystal Candler, one of our Childcare Directors, had a medical emergency last weekend. After a hard-fought battle against all odds, she passed away last night. Crystal was 35 weeks pregnant and baby Maddox is doing amazingly well.

Crystal was a ray of sunshine to anyone she came in contact with. She was a friend to all and loved the children she worked with.

Her services will be on Monday, May 1, 2023, at 1pm. Family will receive friends from 11 am to 1 pm at the First Methodist Church in Pearisburg. We will be closed on Monday to mourn, honor and reflect on her life.

We appreciate the outpouring of support we have received. Please continue to keep her family, children, friends, and her coworkers in your thoughts and prayers as we try to cope with her loss.

Thank you all!

[March 15, 2023](#) - Guatemala - Pennsylvania mother of two boys, 27 year old Rocio "Rose" Michelle Roberts died suddenly on March 15, 2023, 4 days after giving birth, from a pulmonary embolism.

Thousands poured into the streets of San Cristobal Verapaz, Guatemala to honor the life of a 27-year-old Pennsylvania mother of two boys (both under two years of age) on March 19, 2023, those who knew her told Daily Voice.

Rocio "Rose" Michelle Roberts passed suddenly on March 15, 2023, according to her sister-in-law Diana Ramirez.

On March 11, Rose delivered her youngest son, while attended by an indegious midwife, just as she had with her first pregnancy. Four days later she died, but the cause of her death is not fully known. "She was doing well post delivery but then suddenly developed some complications. She was taken to a hospital in Guatemala, where she ultimately passed. The physicians believe it was a pulmonary embolism that caused her death," Ramirez explained in a follow-up conversation with Daily Voice.

Prime Healthcare hospital under investigation after death of new mother

Nick Thomas (Twitter) - Monday, March 6th, 2023

A Los Angeles area hospital operated by Ontario, Calif.-based Prime Healthcare is under investigation after the death of a woman in its care amid allegations of neglect, according to a March 3 report in *The Guardian*.

April Valentine, a 31-year-old Black woman who was pregnant with her first child, went to Centinela Hospital Medical Center in Inglewood, Calif., Jan. 9 and died the next day, the article said. Her family and friends claim the hospital ignored the patient's complaints of pain, neglecting her as her boyfriend performed CPR on Ms. Valentine after the emergency cesarean birth of their daughter, Aniya.

Now the hospital is under investigation from California's department of health and human services to determine if it violated any regulations. The hospital could face fines and the potential suspension or revocation of its license as a result of any evidence staff failed to properly care for Ms. Valentine.

Pouncey says her daughter went to the hospital alone to give birth because her husband is incarcerated, and she had to stay home caring for her other grandchildren.

Pouncey now regrets not accompanying her daughter to the hospital, she says.

Washington was treated for high blood pressure at the hospital, she told her family, and went in for a cesarean section the night of December 22. After several hours went by with no news, Washington’s sister went to the hospital to check on her, Pouncey said.

The following morning, the family learned that the baby was born healthy. However, while doctors were treating Washington for a loose stitch and excessive bleeding, she passed away, Pouncey said.

A death certificate from the Wayne County Clerk reviewed by CNN indicates that Washington, 35, died from “postpartum hemorrhage” and “complications from multiple

cesarean sections.”

But Pouncey says she wonders if the doctors did everything to save her daughter.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
