25-year-old woman loses unborn baby and dies days later after suffering headaches, visiting hospital multiple times

By [New York Post](#), 18 days ago

The family of a young Queensland woman are searching for answers after she lost her unborn baby and died eight days later after suffering headaches.

Olivia Harlow died on June 24 at 25 years old after visiting the hospital multiple times and being sent home, her family say.

Stefanie Harlow, Olivia's sister-in-law and the creator of a fundraising page on behalf of Olivia's partner Ryan Stephenson, told [Daily Mail](#) she went to Royal Brisbane Hospital with headaches and blurred vision at 34 weeks pregnant.

She was allegedly sent home to rest but rushed back to hospital two weeks later, on June 16, when she realized her baby wasn't moving, and was tragically told her daughter had died.

My Take...

Australia is one of the most COVID-19 Vaccinated countries in the world.

Young vaccinated Australians are dropping dead by the thousands.

Australia has over 50,000 excess deaths since COVID-19 Vaccine rollout.

Many of these news stories don't make sense until you read them in the context of COVID-19 Vaccine Injury.

1. A young 25 year old Australian woman, almost certainly COVID-19 mRNA Vaccinated (Australians were extremely compliant and women are even more likely to be vaccinated and compliant with government orders)
2. Her unborn baby dies at 34 weeks - this is never explained but extremely

common with COVID-19 mRNA Vaccinated women ([stillbirths are up 55% in Alberta](#) for example)

3. She is diagnosed with multiple brain tumors at 25 years old – COVID-19 mRNA Vaccines cause cancer (Turbo Cancer) and Brain cancers are the 2nd most common Turbo Cancer.
4. She dies within hours of diagnosis as she’s declared brain dead and her life support is turned off.

Note that there is no investigation planned. No investigation of the stillbirth, no investigation of the Turbo Brain Cancer of a healthy 25 year old woman.

This is the new normal in highly COVID-19 Vaccinated countries. We are supposed to accept these deaths as “routine”.

In memory of Olivia Harlow and Adeline Stephenson

 Stefanie Harlow is organizing this fundraiser on behalf of Ryan Stephenson.

Hi everyone, for those who don't know me, my name is Stef and I am Livs' sister in law. As most of you are aware, we tragically lost our Liv on the 24th of June due to a medical episode. Prior to Livs' passing, sadly Ryan and Olivia also lost their second daughter Adeline on the 16th of June. Respectfully, further details of both their passings are unable to be shared at this time as we as a family are still awaiting those answers. Understandably, this has taken its toll on the family and has come as a huge shock.

Olivia was the most caring and loving mother, partner, daughter, grand daughter, sister, niece, cousin and friend anyone could ever have asked for. I am reaching out on behalf of the family to help raise some funds to give Liv and Adeline the send off they both deserve and to help ease the financial burden off Ryan so he is able to take his time to grieve and be there for Evaliah while they come to terms with the sudden change of their lives.

On behalf of the family I'd like to thank everyone for their support, kind words and messages. We will post details of the funeral as soon as it has been finalised. Thank you all again.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the

deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
