*Below is an excerpt from an article on NPR:*

Ballerina Michaela Mabinty DePrince, an inspirational and pioneering figure in the dance world, has died at age 29 of undisclosed causes.

Her death was announced via her [Instagram](#) by a spokesperson on Friday. “Her unwavering commitment to her art, her humanitarian efforts, and her courage in overcoming unimaginable challenges will forever inspire us,” read the caption.

Her siblings also released [a statement on Facebook](#), noting her influence as a dancer: “Her passion and impact on the dance world, especially in inspiring young Black dancers to pursue their dreams, has been tremendous.”

DePrince, born Mabinty Bangura in Sierra Leone, lost both her parents as a toddler during the country’s civil war. Her passion for dance began early. In her memoir, *Taking Flight*, she writes that she danced in her “bare toes in the mud” during the rainy season.

### Michaela DePrince, a Sierra Leonean American Ballerina for Boston Ballet, Dies at 29: 'Truly a State of Shock'

People | NATASHA DYE  
September 13, 2024 at 3:01 PM

Michaela's sister said she is "truly in a state of shock and deep sadness" following the ballerina's "sudden" death

The news of DePrince's death was confirmed in a statement posted to her official Instagram account on Friday, Sept. 13.

"With pain in our hearts, we share the loss of star ballerina Michaela Mabinty DePrince, whose artistry touched countless hearts and whose spirit inspired many, leaving an indelible mark on the world of ballet, and beyond," the statement, signed by "Team MDP," began.

29 year old Michaela Mabinty DePrince was forced to take COVID-19 mRNA Vaccines in 2021 to be able to travel (see picture above).

She got one of her COVID-19 Vaccines during a trip to New York City.

She dropped dead on Sep. 10, 2024. Cause of death at this time remains unknown.

COVID-19 mRNA Vaccines cause cardiac damage in 1 in 30 within the first week after vaccination.

Study #1 - [Thailand study \(2022, Mansanguan\)](#) 202 boys ages 13-18 were tested. 7 of them developed subclinical myo/pericarditis within 7 days after 2nd Pfizer COVID-19 mRNA dose. That's 1 in 30 per Pfizer dose.

Study #2 - [Swiss Study \(2023, Muller\)](#) - 777 healthcare workers had Moderna COVID-19 mRNA booster shot, 22 had evidence of myocardial injury (22/777 = 1 in 35 per Moderna dose).

“Conclusion: mRNA-1273 vaccine-associated myocardial injury was more common than previously thought, and more frequent in women versus men.”

Ballerina Michaela DePrince's mother has also tragically passed away just 24 hours after the former's sudden death at the age of 29.

As per a Facebook post from family spokesperson Jessica Volinski, Elaine 'Mamma E' DePrince died on September 11, a day after her adoptive daughter's death. It was confirmed that she died during a routine health procedure before surgery.

## **The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity**

**by Michel Chossudovsky**

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### **Reviews**

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin*
