

COVID mRNA Vaccine Injury: 5-11 Year Olds Are Dropping Dead From Heart Attacks

Are parents really OK with this? What about the 12-19 year olds?

7 year old Maine boy Evan Briggs collapsed while playing football.

"I watched him run off with a football in his arm and I went and gathered my water bottles and when I turned around, he was down."

"Their son went into sudden cardiac arrest"

The Bath Area YMCA [said in a Facebook post](#) that the child was part of their youth sports program and "collapsed while playing on the field" on **Tuesday, Sept. 17.**

"Staff immediately performed CPR and called paramedics who quickly responded and transported the child to the hospital," their statement added. "We were devastated to learn that, despite the best efforts of our staff and emergency responders, the young child passed away."

The boy has been identified by his parents as Evan Briggs.

His father, Nathan, told [NBC affiliate WCSH](#) that his oldest son was trying out for the Bath YMCA's new flag football team when he collapsed.

"I watched him run off with a football in his arm and I went and gathered my water bottles and when I turned around, he was down," he said.

His parents told the outlet he had a cardiac arrest. "He pretty much died in my arms," the dad added.

Evan was born with holes in his heart but had surgery to repair them. Still, the parents were shocked by his death, saying he was a healthy and active boy — never skipping a doctor appointment.

Evan Briggs, 7, died unexpectedly while trying out for a flag football team for the local YMCA

Evan was born with holes in his heart. When he had surgery at five months old, it was successful and he never displayed signs of any further health issues

Boy's shock death in his father's arms after he collapsed while playing sports at Maine YMCA

A seven-year-old **Maine** boy died in his father's arms after he collapsed while participating in a local youth sports program and was unable to be revived.

Evan Briggs was on the field of a local high school running trying out for the Bath Area Family YMCA new flag football team when he fell down to the ground.

His devastated father, Nathan Briggs, who was on the sidelines witnessed the horror.

He told **NewsCenterMaine**, 'I watched him run off with a football in his arm and I went and gathered my water bottles and when I turned around, he was down.'

His mother, Stephanie, and Nathan said that their son went into sudden cardiac arrest.

'You almost want their to be a reason so you can blame something,' they said.

During lifesaving measures that were taking place, Nathan said, 'He pretty much died in my arms and after the hour of them trying I heard one doctor say, "Does anybody else have anything they can think of?" and right then I knew he was gone.'

The family of a tragic nine-year-old schoolboy who died last month have revealed details of his funeral.

Little Stevie McKinlay died on September 30, only days after collapsing with breathing difficulties.

His mum, Sarah-Jane McKinlay, previously revealed how her firstborn, who had no previous health conditions, passed away in her arms.

The youngster had developed a cough which was initially diagnosed as a chest infection by the family's GP.

Tragic Stevie McKinlay who died in September. Pic: GoFundMe

But it showed no signs of getting any better and within a week on September 24, the normally active youngster had collapsed.

His parents were later to learn he had suffered a cardiac arrest.

Sarah-Jane and the youngster's dad, Louis Kelly, rushed him to hospital.

He was immediately put on life support but despite the efforts of medical staff, they told the family the tragic news that there was no hope. **Doctors** told Sarah-Jane that the youngster had "died in her arms".

The whole family were given the weekend to say goodbye to the youngster before his life support was switched off.

Sarah-Jane said they then had to say "our own final goodbye to our sweetest, kindest, funniest little boy anyone could know".

A **fundraising page** set up to provide a memorial bench to be placed in the grounds of Stevie's school, Bantaskin Primary, and help towards funeral costs has raised a staggering £11,000 in less than 24 hours.

The total now stands at over £16,600.

The organiser, Jane Wolstenholme, said any remaining funds will be given to Glasgow Children's Hospital charity.

This week, the devastated family announced Stevie's funeral will take place on Friday, October 18 at **Falkirk** Crematorium in Camelon, starting at 12.15pm.

In a social media post, Sarah-Jane, who also has daughter Clarke, said: "To celebrate Stevie's life, we have opted to wear colourful or rainbow attire. We would love if guests could also do this in his honour. Whether it's going all out or adding a splash of something bright."

The heart-breaking post continued: "Thank you to everyone who has reached out to support us through this difficult time. Thank you for all the kind words. Thank you to all those who were generous enough to donate to his fund.

My Take...

Incredible phenomenon.

5-11 year olds are collapsing with cardiac arrests and dying, and parents are perfectly fine with this.

Are the kids 12-18 years old doing any better?

Not really.

15 year old Killian was a soccer player for at Kilmore Celtic F. He died on Oct. 22, 2024.

Canada, Montreal, Quebec - 18 year old Keayton Bijou Jurovich had a pulmonary embolism and a cardiac arrest and died suddenly on Sep. 26, 2024.

Keayton Bijou Jurovich

May 16, 2006 - September 26, 2024

In Loving Memory of Keayton Bijou Jurovich

With profound sadness, we announce the passing of our beloved Keayton Bijou Jurovich. Keayton Bijou (our little "jewel") was a daughter, sister, granddaughter, cousin, niece, girlfriend, and loving friend. She left us far too soon, on September 26, 2024, in Montreal, Quebec, at the young age of 18 due to an unforeseen embolism which led to cardiac arrest.

Keayton was a bright light in all our lives, bringing joy, love, care, and laughter to everyone who knew her. Born on May 16, 2006, in Vancouver, BC, she was a treasured part of our family and a loyal friend to so many. Through hard work and unwavering dedication, she took on every challenge with unbridled commitment. While her kindness, selflessness, and generosity left a lasting impression, it was her infectious smile and witty sense of humour that filled the room with warmth and laughter.

Keayton loved animals, especially caring for and snuggling with her two cats, Toby & Cleo and dog, Sami.

Keayton is survived by her loving parents, Kari and Vern, her sister Addi, her brother Dawson, her loving extended family, her amazing circle of friends, and her boyfriend, Graeme, all of whom she cherished deeply. Her memory will continue to live on in the stories we share and the love we carry for her.

We invite all who knew and loved Keayton to join us for A Celebration of Her Life, which will be held on **Wednesday, October 16, 2024, from 2 PM to 5 PM PDT at the Robert H. Lee Alumni Centre (UBC) in the Jack Poole Hall. 6163 University Boulevard, Vancouver, BC.**

Three Tennessee High School Track stars ages 13, 15 and 18 collapsed and died suddenly in the past 2 months.

Aug. 27 - 15 year old Tristen Franklin

Sep. 18 - 13 year old Katherine Lindsay Rust

Oct. 16 - 18 year old Janie Grace Moss

The kids are not alright.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by **Michel Chossudovsky**

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
