Brian Barczyk, the globally known reptile enthusiast with millions of fans across TikTok, YouTube and Instagram, died from pancreatic cancer after spending 10 days in hospice. He was 54.

Barczyk was the founder of the Michigan-based reptile zoo The Reptarium. The zoo announced Barczyk's death on Monday via [social media](#). Barczyk was first diagnosed on Feb. 27, 2023.

"More than the guiding light of our organization, Brian's fervent passion for reptiles and wildlife, along with his steadfast dedication to education, has touched innumerable hearts and minds globally," read The Reptarium's statement.

"We've lost an exceptional individual — a visionary, mentor, and friend. For those of us who had the privilege of working alongside him, Brian's absence leaves an immeasurable void," continued the statement. "As we navigate this difficult time, we find comfort in the memories and the lasting light of Brian's work. He will be deeply missed but indeed, never forgotten."

Good Morning Reptile ARMY! I was so sick that I couldn't even sleep or get out of bed hardly. Thankfully I tested negative for Covid, of course I already have had it and am vaccinated. I am feeling much better now and will be great soon! Just a bit tired and recovering. Goes to show you that you can get sick and its not all Covid. But man oh man was I sick. Hope you enjoy the vlog with Lori, Noah and the crew! Thanks for all the best wishes! Love you guys and all the support you give us! I will be back in full force tomorrow! Thanks so much and have a great day! Brian

Sep. 2021 - "Fully vaccinated"

[Click here to watch the video](#)

My Take...

I will draw your attention to several details:

1. Sep. 2021: "I'm also fully vaccinated" "I've had COVID in the past" "I feel really sick" (he already had some side effects from the COVID-19 Vaccines)
2. Pancreatic cancer Stage 2 diagnosed Feb. 27, 2023 then progressed rapidly to Stage 4.
3. Diagnosis to death: 10 months.
4. Note how much he has aged in 2 years (I do believe rapid aging is a real phenomenon in the COVID-19 mRNA Vaccinated)

Brian Barczyk in 2021. Asked once to name his favorite python, he wrote: "I just can't pick. It's like asking a Mom to pick their favorite child. I love them all." Brian Barczyk

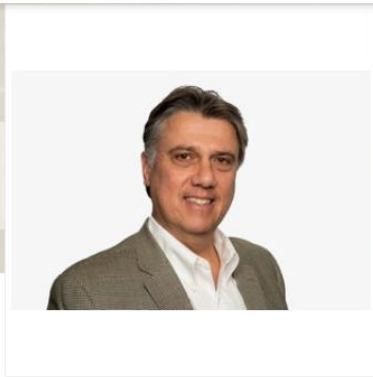

This has all the hallmarks of COVID-19 vaccine-induced turbo pancreatic cancer.

Dec. 19, 2023 - Toronto, ON - 58 year old Basil John William Arvanitis died on Dec. 19, 2023 following a "courageous battle with pancreatic cancer."

BASIL JOHN WILLIAM (BILL) ARVANITIS

Obituary

Guestbook (7)

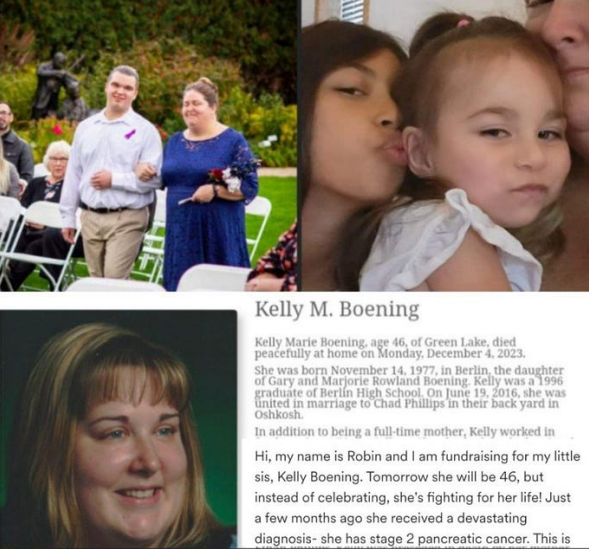

— Text Size +

ARVANITIS, BASIL JOHN WILLIAM (BILL) Peacefully at home in the arms of his family on December 19, 2023, at the age of 58, following a courageous and largely private battle with pancreatic cancer. Survived by his loving parents, Joe and Bessie Arvanitis; his adoring wife, Dr. Jennifer Arvanitis; and treasured children, Michelle, Dayna and Evan. Beloved brother of Helene Arvanitis and John Arvanitis (Alex Collins). Cherished by his nieces, Victoria and Dr. Khrystyna Ioanidis (Jamie Mundt); and nephews Christopher and Nicholas Arvanitis. Will be dearly missed by godparents, Steve and Mary Papamarko. Deeply admired son-in-law of Flora Reynolds. Bill lived a life of service to his community, his church, his family, and to countless charitable organizations. No cause was too big nor too small to capture Bill's heart and he will be remembered for his profound generosity

Dec. 4, 2023 - 46 year old Kelly Boening died suddenly after a few months battle with Stage 2 pancreatic cancer. Diagnosis to death: few months.

Ken Wilson, 51, assistant fire chief of Prospect Volunteer Fire Department, died Saturday, Nov. 11, after recently being diagnosed with pancreatic cancer. Wilson worked in Prospect for over 33 years. Submitted photo

Ken Wilson, the assistant chief of Prospect Volunteer Fire Department, died at around 4 a.m. Saturday, Nov. 11, after being diagnosed with pancreatic cancer in August. He was 51.

Mark Lauer, president of the Karns City Regional Ambulance Service and longtime friend of Wilson, said Wilson's death will be a huge loss to his community, and everyone who knew him.

"I lost a very good friend, one of my best friends ever," Lauer said. "It's definitely a sad day in Prospect. He was a great man — loved kids, loved his community — just a good dude. The world could use a few more of him."

Oct. 31, 2023 - Mississauga, ON, CANADA - 34 year old Jordan Costa, lacrosse player, died suddenly on Oct. 31, 2023 after a "fierce battle with pancreatic cancer."

On October 31, 2023, the world lost a remarkable soul, Jordan Costa, at the age of 34, to a fierce battle with pancreatic cancer. Jordan's life was one that radiated love, inspiration, and dedication to helping others. As we remember and celebrate his life, we also look at the enduring legacy he leaves behind, embodied by a scholarship in his name that will support future generations of student athletes.

In the wake of this profound loss, Jordan's cousin, Alexa Costa, established a GoFundMe campaign to honor his memory and fulfill one of his heartfelt wishes. Her heartfelt message resonated with

Oct. 26, 2023 - TURBO CANCER - CO - Diane Talbot used medical assistance in dying (MAID) and ended her life on Oct. 26, 2023 after a two year battle with pancreatic cancer "her health deteriorated rapidly in recent days."

← Ori Rodriguez is with Diane Talbot. 6d · 🌐 ...

October 26, 2023

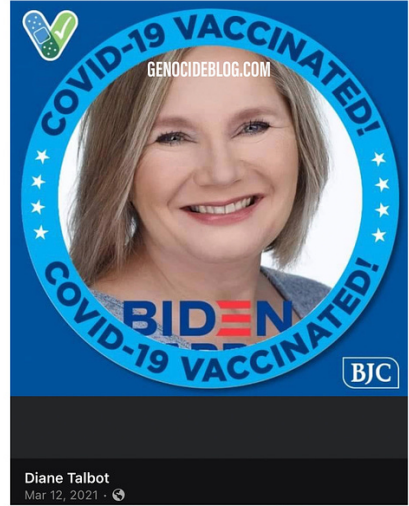

I'm sorry to be the bearer of sad news today. My mother, Diane Talbot, has used Colorado's death with dignity law following a nearly two-year struggle with pancreatic cancer. She passed around 1pm. Her health deteriorated rapidly in recent days and it was clear to all of us this was the right time.

John has asked everyone to hold off on phone calls or emails for a few days while we get her affairs settled. Please feel free to leave your condolences in the comments of this post, and reach out in about a week or so. A memorial will happen in a few months, likely in January.

Colorado, USA

I am truly sorry to those who wanted to say one final goodbye, but she was too exhausted to deal with visitors or talk on the phone. She asked me not to make an announcement in advance so she could enjoy her last days with family. She knew exactly how much each and every one of you loved her, and cherished your support. She appreciated all the friends and family who visited, and sent gifts and flowers.

She died at home, surrounded by family, on her own terms. We watched her drift off to sleep, singing together with the assistance of a music therapist, knowing she would not wake up. Of course any death is deeply sad for those left behind, but I think these circumstances are the best anyone could hope for. I'm glad she was not alone, afraid, or in pain. I don't know what comes after this, but I know that my mother lived her life to the fullest, touched countless people, and had no regrets.

Oct. 1, 2023 - 57 year old Red Sox baseball pitcher Tim Wakefield died this morning on Oct. 1, 2023 I reported yesterday he had aggressive brain cancer and his wife has aggressive pancreatic cancer COVID-19 mRNA Vaccine Turbo Cancers in families.

Tim Wakefield, former Red Sox knuckleballer, dead at 57 from brain cancer

By Jared Schwartz

Published Oct. 1, 2023, 3:08 p.m. ET

Beloved former Red Sox knuckleballer Tim Wakefield died Sunday morning at the age of 57, the team announced.

He was **recently diagnosed with brain cancer**, though it was revealed to the public without his permission on Tuesday by former teammate Curt Schilling.

“Tim’s kindness and indomitable spirit were as legendary as his knuckleball,” Red Sox owner John Henry said in a statement. “He not only captivated us on the field but was the rare athlete whose legacy extended beyond the record books to the countless lives he touched with his warmth and genuine spirit.”

“He had a remarkable ability to uplift, inspire, and connect with others in a way that showed us the true definition of greatness. He embodied the very best of what it means to be a member of the Boston Red Sox and his loss is felt deeply by all of us.”

Tim Wakefield died Sunday morning at 57 years old.

Getty Images

Likely the most famous and successful knuckleball pitcher in MLB history, Wakefield played 19 seasons in the league, 17 of which were with Boston.

He played the first two years of his career with the Pirates, who cut him before he subsequently signed with the Red Sox and spent the rest of his career there.

"Lost the battle against cancer": Exmiss Santa Cruz Mayra Copas passed away

The 28-year-old mother fought for almost a year against the diseases that affected her.

 Drafting
Ligia Portillo

This Friday, September 29, sad news was released, the former Santa Cruz Mayra Copas lost the hard battle it faced against **pancreatic and lupus cancer**. The 28-year-old mother battled for almost a year, for her little ones, but her body did not resist it.

She was diagnosed in October 2022 with autoimmune disease after bowel surgery. With a force that only mothers can show, she tried to overcome the diseases that afflicted her.

Even though his body did not allow it, **Mayra's spirit fought for her three children of 8 years, 7 years and the youngest of only 1 year**. The beauty exreina spent several months in intensive care.

The tragic news was confirmed by her mother Julia Gaby Sadud, who burst into tears when she announced that her beloved daughter left this world. **The Santa Cruz population accompanied Mayra on her pilgrimage, in a noble objective that was not fulfilled.**

Sep. 21, 2023 - TURBO CANCER - Sep.21, 2023 - Cedar Rapids, IA 53 year old Chris Cruise State champion swimmer, coach and teacher, died 1 month after being diagnosed with Stage 4 Pancreatic Cancer.

Chris Cruise, former Washington boys' swimming coach died Thursday.

Chris Cruise, a longtime head coach of Iowa swimming powerhouse Cedar Rapids Washington High School, died at 53 years old on Thursday after being diagnosed with stage IV pancreatic cancer last month.

Cruise swam at Cedar Rapids Washington in the late 1980s, winning two individual state titles and three state championships as a team from 1987-89 under head coach **Jim Voss**. He went on to join Voss' coaching staff and replace him as head boys' swimming coach in 1998 following a collegiate career at Northwestern.

"He was always dependable and committed to his goals but more so to the team goals," Voss told the Cedar Rapids Gazette. "Chris was instrumental in the success of the Warrior swim program."

Cruise guided the Cedar Rapids Washington boys to another state title as a coach in 2008, giving them a total of 27 championships — more than any other boys' program in Iowa. The team won 53 district championships in a row until having the streak snapped in 2017. He retired in 2018 after more than two decades at the helm of the Cedar Rapids Washington boys' program, but he remained at the school as an assistant activities director and part-time math teacher.

Sep. 15, 2023 – TURBO CANCER – Sep. 15, 2023 – Forked River, NJ 54 year old Kimberly Elick died after a 3 month battle with Stage 4 Pancreatic and Liver cancer.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

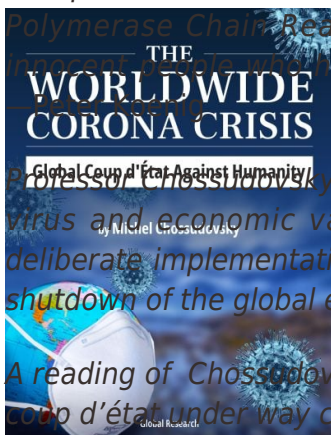

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of people who have no clue. His conclusions are evidenced by renown scientists.

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
