Czechoslovak reserve forces against the war planned by NATO commanders

On January 19th 2015 the [facebook group](#), which combines all members of the CSLA, PS, VMV, SNB in reserve or decommissioned, issued an important memorandum, which has become even more urgent in light of the situation today. A defensive back up location in the event that the group gets „disappeared“ from Facebook, the group of the same name exists on [VK.com](#). as well.

For the first time since the end of the 2nd World War we see a genuine threat of war yet again. Consequently, we consider it necessary to issue the following statement.

We, the Czechoslovak soldiers in reserve, unanimously reject any participation in battles that are geopolitical acts of aggression of the global elite by way of NATO and the support of our governments.

We swore to defend our homeland the Czech and Slovak Republics. We swore to protect the freedom and independence of our proud and sovereign nations, for which our ancestors laid down their lives in the world wars. We are guided by this oath in a civilian initiative to deal with a crisis situation. Freedom and independence is being jeopardized long time by a system of representative pseudo-democracy, where an elected representative does not have the obligation to advance the interests of voters and in practice, laws represent but the personal interests of the legislators, the interests of political parties and economic interest groups. Our homeland is under the pressure of global elites and economic interest groups, who are doing away with the power of citizens through a system of representative democracy.

Our deliberately flawed constitution and charter of rights and freedoms is being perverted and constitutional laws are violated by legislators themselves. Legislative power is being privatized, executive power is being politicized and judicial power corrupted by lobbying laws and pressure from our governments. The results are an unplayable public deficit, deindustrialization, the privatization of the republic's property and defrauded budgets, food and energy dependence, the privatization of natural resources, pensions and the health of citizens. Our country has been unlawfully divided, looted, indebted, people enslaved and their families liquidated by repossession genocide, national infrastructure transferred into

the hands of western corporations. Destructive chaos and despair dominates in the community.

For this reason, we the Czechoslovak soldiers in reserve recognize our military oath and together we come with a vision for the defense of our nations. We unequivocally reject fighting in the ranks of NATO against the Russian federation or other Slavic nations and we likewise intend to stand up firmly through organized civilian pressure against the further liquidation of our democracy, freedom and independence. We are uniting in a crisis situation and by utilizing our civilian and military skills and expertise we intend to create sufficiently strong, organized civil pressure for the period of time necessary to assert our patriotic goals.

We swore allegiance to our homeland, the Czech and Slovak Republics.

We, the Czechoslovak reserve soldiers,

will fulfill this oath!
