Syrian Ministry of Foreign Affairs has renewed calls to the UN Security Council for an immediate end of the violations of The Syrian sovereignty by the Turkish Armed Forces. The Ministry also published a list of all violations that occurred since last December.

The letter, which was addressed to the UN Secretary General and the President of the UN Security Council, mentions illegal incursions into Syrian territory, building a wall within the so-called Turkish buffer zones (which exist on the sovereign Syrian territory), destruction of the property belonging to the Syrian citizens such as uprooting of hundreds of olive trees in order to build roads for the tanks of the Turkish army (as recently seen in the village of Qljabreen in the Azaz area of Aleppo province) and illegal backing of the terrorist groups which are loyal to the regime in Ankara.

The letter further states that the Turkish authorities recently established a military base inside Syrian territory, more precisely in the village of Jtrar, North of the town of Tal Rifaat, located in the province of Aleppo.

The base includes the headquarters for the Turkish army personnel and their allies who are stationed on the Syrian soil and are allegedly involved in the so-called “Operation Euphrates Shield”. Ammunition depots are also being mentioned. The letter reads:

“The Syrian Government renews calls to the UN Security Council to hold to its responsibilities and act in accordance with the International Law and to pressure Turkey in order to stop the violations of the Syrian Arab Republic’s sovereignty and territorial integrity. ”
