Michael Welch (MW): *The development of AI recently seems to have taken the world by surprise. Yet AI is part of this transition. Like a surprise discovery in December of last year. Yet it seems like AI would be part of the overall trajectory of the scheme towards the great reset and agenda 2030. Could you explain how that is possible?*

Peter Koenig (PK): Let me begin by saying that we are about the fifth or sixth Civilization that has inhabited this planet in the past several hundred thousand years.

All of these previous civilizations have died out, have basically committed suicide, with technological “advances” - more technology, more materialism, and less spirituality.

Materialism is seductive. It allows the least spiritual people to become an “elite” by accumulating more and more material things, making technical “advances” - I call them *advances* - mind you they are not - so people understand... these technical advances allow them an ever-smaller elite to possess ever more material goods and eventually to control those who have less or no material goods.

From what we know, previous Civilizations have been equally or more “advanced” technologically than we are... in different ways. They had technologies we dream of, but don’t know how to activate them... like free energy all around us. Those who control and drive these technological “advances”, would lose control.

In the spiritual sense, these people become “sick” - dangerous, including dangerous for themselves, because they are eventually destroying the very base that they used to dominate.

Well, today, we are about again at these cross-roads of technification of everything. We call it digitization, transhumanism, where a machine controls our brains, what we call Artificial Intelligence (AI).

Our “means of exchange”, we call it money – will be digitized, so it allows the elite which controls it all – to put the population in hand-cuffs, in prison actually. Because this digitized money which they will call Central Bank Digital Currency or CBDC will be programmable, meaning they can block it from you using it, they can make it expire at a certain point... they can – or let me say could – because we are not there yet – starve you to death.

Its as simple as that.

And we, the people, are lied about it constantly – by those who control the “technology”, who also control what we call the media – the information system. All can be bought by “material things” in this case money – what we use as an exchange system.

Maybe people have heard about the “Tavistock Institute for Social Manipulation”. Highly recommended for those who want to wake up.

It is the title of a book that describes the way manipulation works, so that most people have no clue how they are manipulated. Tavistock is based in the UK. Its counterpart of the US is called DARPA and stands for Defense Advanced Research Projects Agency, it is a thinktank attached to the Pentagon, doing the same – and more...

So, with this as background, AI has been under preparation for a long time, for decades. It has come lately to the fore, because it is now that they are planning to apply it to humans.

First, it must be made palatable to people, so they like it and fall for it. Once they do, they can be easily enslaved by AI; their brains will be controlled by remote AI – as well explained by Dr. James Giordano, in 2018 at the West Point NY Military Academy for elite military officers.

For Dr. James Giordano’s video presentation (video 1:07:28 h – [see this article](#), in which this and another revealing video are embedded.

It is hardly a coincidence that Klaus Schwab’s book the *Fourth Industrial Revolution* came out in 2018, precisely when Dr. Giordano, a DARPA scientist, presents AI and mind manipulation via 5G microwaves to the officers of the US top military academy.

And yes, the *Great Reset* and the so-called UN Agenda 2030 go hand in hand. The UN has years ago ceased being what still most people believe it is – the United Nations, vouching for Peace on Earth.

Guterres is a close friend and associate of Klaus Schwab’s. Or better, Schwab is his boss, as Schwab, the WEF CEO, calls the shots on behalf of those who fund and support the WEF. And Big Finance calls the shots on the WEF. There we go. Nothing is what it seems.

MW: AI was on the agenda of the Bilderberg Conference in Lisbon Portugal. And Sam Altman CEO of Open AI (Which founded new Artificial Intelligence technology was an attendee of Bilderberg, He previously testified in front of a U.S. Senate Judiciary subcommittee regarding the recent rise of Artificial Intelligence (A.I.). Biden Administration

assigned Eric Schmidt to head the National Security Commission on Artificial Intelligence (NSCAI), or the [AI Commission](#). He chairs Bilderberg. Henry Kissinger has taken great interest in AI as well. So, with all these developments, what are your core concerns about where AI may be headed?

PK: AI is primed to control the surviving humanity. “Surviving”, because, as you know, one of the key objectives of **The Great Reset** is **massive population reduction**. And the pursuit of this target is in the process of happening, thanks to the forced vaxxes upon a fake plandemic – so well “marketed” with fear and threats, and of course, lots of money, that again, most people fell for it.

[See this revealing admission](#) of a BlackRock recruiter on how politicians are bought – video 11-min.

Most people were injected with different kinds of poisonous concoctions that cause different kinds of diseases, many if not most, mortal diseases, cancers of all sorts, mostly affecting reproductive organs of both women and men – other injection types are sterilizing women – that has already been noticed, as birth rates in Germany and most European countries have gone down drastically.

And much more.

Others – maybe most, were also injected with graphene oxide, a highly magnetic substance, especially when it gets in touch with 5G microwaves – precisely the kind of electronics that aims at manipulating people’s minds, making humans to transhumans.

In other words, most vaxed people are already primed to eventually become transhumans, if they do not die before.

MW: A lot of people noticed the pandemic is finally over. And are probably rejecting the vaccine in greater numbers by now. Was the pandemic part of the PR drive for bringing about the Great Reset and all the changes coming into play with the Fourth Industrial Revolution which was already planned?

PK: The short answer is YES. The Plandemic was or is, already an integral part of the Great Reset and serves to prepare people, to *prime* people – for the 4th Industrial Revolution, for full digitization of everything, including people’s brains.

If you told people, they would not believe you.

I recommend everybody to read *The Great Reset* and the *Fourth Industrial Revolution*. Easy

reads - both available from Amazon. Knowing their contents - of course you need to do a lot of reading between the lines... will help waking you up, becoming alert, informing others - This is the way of becoming a critical mass.

MW: Digitized ID is still part of the plan. What evidence is there that everybody will have to switch over to digital ID and digital currency?

PK: None so far.

Up to now it is just a plan of the EU and WHO - talking about it, as if it were already in place is also called "fear-mongering" - and people in fear are highly vulnerable, as we know, as we got confirmed by the entire covid fraud.

On digital money - it is a plan of the Bank for International Settlement (BIS), the Central Bank of all central banks, and the IMF. The managing director of the IMF has just today (21 June) called upon all countries to adopt as fast as possible CBDCs. She urged the IMF's some 190 member countries to accelerate the CBDC-process.

Nothing is DONE yet. But it takes people to say NO in unison, and with their legislators. Yes, unfortunately the legislators, all or most of them are corrupted.

What We, the People must do, is demand *en masse* to exit WHO.

In the country where this drive for total health tyranny of WHO started, in the US, there are several Republican Senators seeding a motion in the Senate to exit WHO. This is a good sign and could be a guiding light for other countries to follow.

MW: Explain the role of 5G and 6G in this unusual enterprise. They are necessary for fast downloads and driverless cars etc. But what is your foundation for the claim it can be a tool for enslaving us?

PK: Again, the fast downloads and self-driving cars are just a pretext. I have not seen or heard anybody so far who wants a self-driving car. All to the contrary. People do not want to lose their last autonomy.

As Dr. Giordano so vividly and lucidly explains, these powerful short-waves are mainly to be used to control peoples' brains, to make them into transhumans, or quasi-robots, so to speak.

Something to this extent, Klaus Schwab admitted in a 2016 interview with Swiss French TV. He said by 2025 we may all have chips implanted in our clothes or under the skin, to interface with the electronic world. He already then used the term "transhumanism".

In essence, this means, if people do not behave according to the rules, they can be "taken

out” remotely – and nobody would notice.

By the way, have you noticed how these 5G and soon 6G antennas are going up all over the world like mushrooms? Not just thousands, but millions.

And so do satellites, tens of thousands are already in the air – and many more tens of thousands are to follow, beaming down these deadly microwaves to the antennas which then are set to direct the 5G waves on you – on us – to kill our sentiments – pineal gland, and to read and manipulate our thinking – and eventually, to order us to do what the elite wants us to do.

MW: What have you seen in the last 3 years that convinces you that resistance is not futile?

PK: Frankly, I have not seen much fruitful resistance, so far. The resistance that most springs to mind, is the US Senate movement of Republican Senators in the US Congress to object to WHO’s plan of introducing a global health tyranny, by depriving each WHO member country of its sovereign right on issues of health.

These Senators want to get out of WHO.

And so do other counties, and people of other countries. Like in Switzerland, there is already a people’s initiative under way to exit WHO.

There is ample room for much more protest and resistance – but in solidarity, in unison. Solidarity makes us strong.
