Introductory Note

The 25th of April is an important date in Italy's history. It commemorates the 75th anniversary of Liberation, which is also the Anniversary of the Resistance.

Last year we met in Florence on the 7th of April, coinciding with the 70th anniversary of the founding of NATO.

*The theme of our conference last year was **NATO EXIT**.*

The event was organized by Italy's Comitato No Guerra, No NATO, in collaboration with the Centre for Research on Globalization (CRG). The Florence Declaration was drafted by Italy's Comitato and the CRG.

On April 25, 2020, Commemorating the Liberation of Italy. We express our solidarity with the people of Italy. At the same time we express our concern regarding the US military bases established in Italy immediately established after World WarII.

We must reflect on our history. Was it a Liberation or an Occupation?

The European Union is militarized. The Pentagon is actively involved under banner of NATO in both Western and Eastern Europe.

Italy like many other countries is currently experiencing a major crisis. This year on the 25th of April which commemorates Italy's Liberation, we are not able to meet in Firenze to debate and discuss the “coronavirus crisis” which is affecting millions of people Worldwide.

Text of The Florence Declaration adopted by more than 600 participants to the Florence No War No NATO Conference, April 7, 2019.

*Original in Italian. Translations into English, French, Russian, Spanish. The debates and discussions were chaired by renowned author and geographer **Manlio Dinucci**.*

The event was organized by Italy's Comitato No Guerra, No NATO, in collaboration with the Centre for Research on Globalization (CRG). The Florence Declaration was drafted by Italy's Comitato and the CRG.

The risk of a vast war which, with the use of nuclear weapons, could mean the end of Humanity, is real and growing, even though it is not noticed by the general public, which is maintained in the ignorance of this imminent danger.

A strong engagement to find a way out of the war system is of vital importance. This raises the question of the affiliation of Italy and other European countries with NATO.

NATO is not an Alliance. It is an organisation under the command of the Pentagon, and its objective is the military control of Western and Eastern Europe.

US bases in the member countries of NATO serve to occupy these countries, by maintaining a permanent military presence which enables Washington to influence and control their policies and prevent genuine democratic choices.

NATO is a war machine which works for the interests of the United States, with the complicity of the major European power groups, staining itself with crimes against humanity.

The war of aggression waged by NATO in 1999 against Yugoslavia paved the way for the globalization of military interventions, with wars against Afghanistan, Libya, Syria and other countries, in complete violation of international law.

These wars are financed by the member countries, whose military budgets are increasing continually to the detriment of social expenditure, in order to support colossal military programmes like that of the US nuclear programme which costs 1,200 billion dollars.

In violation of the Non-Proliferation Treaty, the USA is deploying nuclear weapons in five non-nuclear NATO States, under the false pretext of the "Russian menace". By doing so, they are risking the security of Europe.

To exit the war system which is causing more and more damage and exposing us to increasing dangers, we must leave NATO, affirming our rights as sovereign and neutral States.

In this way, it becomes possible to contribute to the dismantling of NATO and all other military alliances, to the reconfiguration of the structures of the whole European region, to the formation of a multipolar world where the aspirations of the People for liberty and social justice may be realised.

We propose the creation of a NATO EXIT International Front in all NATO member countries, by building an organisational network at a basic level strong enough to support the very difficult struggle we must face in order to attain this objective, which is vital for our future.
