Worldwide, international organizations such as the World Health Organization (WHO), governments and the corporate media, acting as agents of the global elite, continue their efforts to preoccupy the human population with measures supposedly being taken to address the non-existent virus labeled SARS-CoV-2.

For just two of the most recent of the ever-lengthening list of documents and videos demonstrating non-existence of the virus, see [‘COVID-19: The virus does not exist – it is confirmed!’](#) and [‘Statement On Virus Isolation \(SOVI\)’](#).

Unfortunately, this lie is succeeding in distracting the vast bulk of the human population from the ongoing elite coup to take complete control – politically, economically, socially, spiritually and even physically – of the human population under the guise of the World Economic Forum’s ‘Great Reset’. See [‘The Great Reset’](#) and [‘Now is the time for a “great reset”’](#).

Hence, the elite coup – which includes implementation of the technological measures necessary to facilitate the fourth industrial revolution as well as the agenda of the transhumanists – now rapidly gathers pace, at enormous cost to the human population and our prospects for survival.

In brief, this coup has many facets *notably including the deployment of 5G* to enable comprehensive surveillance, digital ID (possibly implanted in your brain: see [‘Beware the Transhumanists: How “Being Human” Is Being Re-Engineered by the Elite’s Coup’](#)) linked to your bank account and health records, a social credit ID that will end up dictating every facet of your life, the digitization of money, robotization of the workforce and the military as well as, in the words of Dr Joseph Mercola, the complete transformation ‘of government, energy and finance to food, medicine, real estate, policing – even how we interact with our fellow human beings. The globalist technocracy is using the COVID-19 pandemic to bypass democratic accountability, override opposition, accelerate their agenda and to impose it on the public against our will.’ See [‘Who Pressed the Great Reset Button?’](#)

But for a more detailed summary of the essential details of this coup, see [‘Corrupt Science and Elite Power: Your Techno-Slavery is Now Imminent’](#). For a summary of the enormous and increasing costs, see [‘The Elite’s COVID-19 Coup Against a Terrified Humanity: Resisting Powerfully’](#). And for the evidence of the coup’s adverse impact on human survival prospects,

see [‘The Elite’s COVID-19 Coup to Destroy Humanity that is also Fast-Tracking Four Paths to Human Extinction’](#).

However, while the bulk of the human population remains unaware of what is being planned for us, or naively believes the sanitised version of events presented by elite agents – such as the World Health Organization, governments, official medical spokespeople and the corporate media – enough people are concerned about the serious threats to humanity’s future or, at least, about the very damaging impacts of the lockdowns and other measures such as the ‘gene-altering injectables’ being marketed as ‘vaccinations’, that resistance to this elite coup is also gathering pace. And while this is an encouraging sign, the resistance being conducted so far falls well short of what is necessary given the imminence, multifaceted nature and enormity of the threats.

As a result, Homo sapiens rushes headlong to the cliff-edges of both tyranny and extinction.

So who is resisting, how are they doing so and what else must be done to defeat this coup?

The Resistance So Far: Individual Scholars and Groups

Of course a substantial number of individuals and groups have made the effort to investigate and analyse what is happening ‘beneath the surface’ of this coup and these efforts have resulted in a multitude of documents and videos such as these, for example:

This [interview of Catherine Austin Fitts](#) for the film ‘Planet Lockdown’.

This video [“‘The New Normal” New documentary exploring the origin and purpose behind the covid narrative’](#).

This latest video by Professor Michel Chossudovsky: [‘The 2021 Worldwide Corona Crisis’](#). Or you can read his article [‘The 2020 Worldwide Corona Crisis: Destroying Civil Society, Engineered Economic Depression, Global Coup d’État and the “Great Reset”’](#).

And this article by Dr Joseph Mercola which explains the network of organizations centrally involved in [‘The Web of Players Trying to Silence Truth’](#).

The Resistance So Far: Health Professionals

Many health professionals and others have been consistently exposing the lies that underpin the official narrative being promulgated by the (badly misnamed) World Health Organization, the United Nations, the World Economic Forum, national governments and the corporate media. One outcome of this effort to educate people was the formation of the [World Freedom Alliance](#), which you can join.

Another initiative, undertaken by the 1,500 members of United Health Professionals, was to issue an initial ALERT on 26 August 2020, titled [‘STOP to: terror, madness, manipulation, dictatorship, lies and the biggest health scam of the 21th century’](#). They urged an immediate halt ‘to all crazy and disproportionate measures that have been taken since the beginning to fight SARS-CoV-2 (lockdown, blocking the economy and education, social distancing, wearing of masks for all, etc.) because they are totally unjustified, are not based on any scientific evidence and violate the basic principles of evidence-based medicine.’ Subsequent alerts of a similar nature have followed.

Other initiatives, among many, have included this recent video by 33 doctors warning against getting the experimental vaccines. Watch [‘33 doctors around the world issue dire warning, to not get the covid vaccine’](#).

Leo Hohmann simply reminds us that Dr. Tal Zaks, the chief medical officer at Moderna, admitted in 2017 that ‘We are actually hacking the software of life’ thus ‘totally debunking the establishment media’s lie that mRNA vaccines don’t alter your genetic code’ when that, of course, is the actual purpose of messenger RNA vaccines. See [‘Moderna’s top scientist: “We are actually hacking the software of life”](#)’.

Other authors make a point of highlighting the high death rate among those vaccinated, even on official sites which clearly understate the extent of the problem. See, for example, [‘460 Dead 243,612 Reported Injuries from COVID19 Vaccines Reported in the U.K.’](#) and [‘COVID Vaccine Injury Reports Grow in Number, But Trends Remain Consistent’](#).

An earlier report noted that the US was forced to change official guidelines in response to the enormous vaccine injury rate. See [‘CDC Issues New Guidelines, Launches Probe After 1000s Negatively-Affected Following COVID-19 Vaccination’](#).

And Denmark, Iceland and Norway have simply halted administration of the vaccine ‘after reports of blood clots among some people who had received the inoculation’. See [‘COVID: Several European countries halt use of AstraZeneca vaccine’](#).

If the above doesn’t have you questioning the elite-driven narrative, check out this website with its multitude of videos challenging elite dogma in relation to the ‘virus’: [‘Questioning Covid’](#).

Of course, you will find very little of the above in the corporate media, with its huge advertising revenue from the major pharmaceutical corporations giving them no incentive to risk losing this income by telling the truth.

The Resistance So Far: Legal

Another series of initiatives is the ongoing efforts to challenge the legal basis of the lockdowns and other official policies supposedly in response to the virus. Watch, for example, **Dr. Reiner Fuellmich** outline the basis of one legal challenge in [“‘Crimes Against Humanity’: The German Corona Investigation. “The PCR Pandemic”](#)” and see these two documents submitted to governments in Australia by the Concerned Lawyers Network: [‘Re: Notice of Liability & Potential Claims, 6 November 2020’](#) and [‘Re: Notice of Liability & Potential Claims, 11 December 2020’](#).

One challenge has been posed by scholars and a judge drawing attention to the ways in which forced mask-wearing and forced vaccines violate [The Nuremberg Code, 1947](#). See, for example, **Judge Anna Von Reitz’s** [‘A Plague of Liars’](#) and **Makia Freeman’s** [‘Do Mandatory Masks and Vaccines Break the 10 Points of the Nuremberg Code?’](#)

Two of the legal challenges under way in the United States are those being conducted by New Mexico **Attorney Ana Garner** against declaration of the public health emergency and mandatory administration of the unapproved experimental injectables. Watch [‘It’s Here: First Court Case Against Mandatory Vaccination - Attorney Interview’](#).

Of course, there are other legal challenges taking place in various countries but, again, you won't hear much about them in the corporate media.

The Resistance So Far: Police and Military

Police and military personnel around the world have also taken a stand in defence of human freedoms won long ago but now under siege once again.

For example, police in Spain formed *Policías Por La Libertad* ([‘Police for Freedom’](#)) and this is now spreading around the world, including to Australia, the Netherlands, Sweden and the United States, for example.

The mission of this international movement is to re-humanise our societies, bringing back trust and unity between the security forces and the people. The peaceful marches, events, campaigns and content created by Police For Freedom aim to educate people about their human rights, civil liberties, constitutional rights as well as the ethical code of conduct for the police and security forces.

We are colleagues from different occupations who want to continue to carry out our work based on our personal and professional ethics, without being influenced by fears, deceptive narratives, immoral rules or differences of opinion.

The Association of French Reserve Army Officers issued their extensive and damning report [‘Investigative Report on the Covid-19 Pandemic and its Relationship to SARS-CoV-2 and other Factors’](#) in May 2020. Its conclusion noted that ‘The management of the health “crisis” seems to be a pretext for a totalitarian global takeover’ and includes the ‘intention to impose a global cryptocurrency, a vaccine with nano-chips and a subcutaneous electronic chip’ with ‘5G installations, both terrestrial and aerial (Elon Musk’s satellites in low-Earth orbit)... clearly part of this “total war” project.’

Of course, plenty of military personnel are simply resisting vaccination personally, given the long history of abuse of service personnel with experimental ‘vaccinations’. At one US base, ‘as little as 30 percent of personnel are accepting the vaccine’. See [‘A THIRD of all military personnel are refusing to receive the COVID-19 vaccine with alarmed commanders aiming to make the shot mandatory “as soon as possible”’](#).

The Resistance So Far: ‘Ordinary’ People

Resistance to one or other features of the coup by individuals, communities, businesses and religious organizations, despite being largely ignored or denigrated by the corporate media, has been considerable with plenty of demonstrations, street theatre and other nonviolent actions documented all over the world. For just one article outlining some of the resistance in Europe last year, see this summary: [‘Anti-Lockdown Protests All Across Europe’](#).

But perusal of the progressive media will quickly reveal some of the many initiatives undertaken by activists and others who have no trouble ‘seeing through’ the fog of lies and misinformation with which certain international agencies, governments, tame medical personnel and the corporate media are deluging us. For example, you can watch [‘10,000 Protesters In Vienna March Against Coronavirus Restrictions’](#).

More recently, this resistance has gathered pace considerably, including among the small business community. For example, in mid-January restaurant-owners in Italy, other parts of Europe, Mexico and elsewhere opened their doors in defiance of lockdown measures reminding people that collective civil disobedience of any magnitude is extraordinarily difficult to stop. See [“I Am Open”: 50,000 Italian Restaurant Owners Plan to Ignore Lockdown’](#).

And, more broadly, hundreds of Polish businesses reopened in January as well. See [‘Lockdown Rebellion: Highlanders in Poland’s “Winter Capital” to Reopen Hundreds of Businesses’](#).

Such is the resistance taking place across Europe, that some prominent commentators have been led to ask [‘Is a Revolutionary Movement Developing in Europe? Rejecting the Lockdown and the Mask’](#).

Are you reading about any of this in the corporate media?

What can we do to halt ‘The Great Reset’ and defend ourselves against the elite coup?

Understanding the many elements of what is taking place and, therefore, what is necessary to address it effectively, is the first step to responding powerfully.

Important points in this understanding include two I have made above: The global elite is driving what is happening and, using the ‘virus’ (for which there is no documented scientific proof in existence) as a ‘cover story’, is conducting a coup to take complete control of our lives.

But there is a third, and deeper, point that it is vital to understand: This coup has only proceeded this far because existing parenting, educational and religious practices indoctrinate and terrorize children into a lifetime of submissive obedience. Hence, the bulk of the human population is too (unconsciously) frightened to even question the elite-driven narrative, let alone seek out and analyze the evidence for themselves and then act powerfully in response. For detailed explanations, see [‘Why Violence?’](#) and [‘Fearless Psychology and Fearful Psychology: Principles and Practice’](#).

So if we are to succeed in defeating this elite coup, we must be strategically thoughtful in how we approach it.

This is why it is important to point out that entreaties to key international organizations and governments, as well as legal challenges, must ultimately fail. The global elite operates without official constraint, well beyond the ‘rule of law’ and has long controlled all key international organizations as well as governments and legal systems (and the medical and pharmaceutical industries, for that matter) so that they serve elite interests. Therefore, initiatives directed at these elite agents will inevitably come to nought, as history has repeatedly demonstrated. See, for example, [‘The Rule of Law: Unjust and Violent’](#).

So while I acknowledge the sincerity and genuine effort being put into such activities as lobbying politicians and legal challenges, for example, unless sufficient people are willing to take action that fundamentally undermines the power that enables the global elite to implement its agenda, humanity faces a dark future. It is for this reason that, once again, I outline below the measures that are necessary for us to succeed.

Hence, if you would like to be part of the campaign to defeat the elite coup, see the list of strategic goals necessary to achieve this outcome, and other aspects of this campaign, starting here: [Coup Strategic Aims](#).

Anita McKone has presented a simpler version, with explanations and examples of actions you can take, here: [‘We Are Human, We Are Free’](#). Her song, of the same title, can be heard here: [‘We are Human, We are Free’](#).

If you wish to focus on resisting the deployment of 5G – the central pillar that will enable so many of the technological measures of the coup to be implemented while causing enormous other harm in the process – scroll down [‘Campaign Strategic Aims’](#).

To undertake action that is strategically-focused, it will be useful if more people understand the principles and practice of nonviolent action, which can be taught by some nonviolence educators around the world. See, for example, [‘Nonviolent Action/Strategy Workshops in Australia’](#).

If you wish to campaign to avert one or more of the four most immediate paths to human extinction, you can see a list of strategic goals for doing so here: [Campaign Strategic Aims](#).

If you wish to nurture children to be better equipped to understand what is happening and far more able to critique it and act powerfully, see [‘My Promise to Children’](#).

If you wish to reduce your vulnerability to elite control, consider joining those who recognize the critical importance of reduced consumption and greater self-reliance by participating in [‘The Flame Tree Project to Save Life on Earth’](#). In addition, you are welcome to consider signing the online pledge of [‘The People’s Charter to Create a Nonviolent World’](#).

Conclusion

Under cover of a non-existent virus and pandemic, the global elite is now implementing a coup that has been carefully planned and prepared over several decades: It is the logical culmination of a millennia-long process of consolidation and expansion of elite control, at the expense of humanity and the biosphere. I have briefly outlined this history in [‘Why Activists Fail’](#).

If you question the sanity of the global elite for doing this, you are right to do so. See [‘The Global Elite is Insane Revisited’](#).

The fundamental aim of this elite coup, readily discernible by reading their documentation over the past 50 years, is to substantially reduce the human population and keep those still alive, subject to permanent surveillance as well as mind and behavioural control, as ‘techno-slaves’.

If you wish to resist this fate for humanity, you are welcome to join us.

Appendix

The Earth Pledge

Out of love for the Earth and all of its creatures, and my respect for their needs, from this day onwards I pledge that:

1. I will listen deeply to children. See '[Nisteling: The Art of Deep Listening](#)'.
2. I will not travel by plane
3. I will not travel by car
4. I will not eat meat and fish
5. I will only eat organically/biodynamically grown food
6. I will minimize the amount of fresh water I use, including by minimizing my ownership and use of electronic devices
7. I will not own or use a mobile (cell) phone
8. I will not buy rainforest timber
9. I will not buy or use single-use plastic, such as bags, bottles, containers, cups and straws
10. I will not use banks, superannuation (pension) funds or insurance companies that provide any service to corporations involved in fossil fuels, nuclear power and/or weapons
11. I will not accept employment from, or invest in, any organization that supports or participates in the exploitation of fellow human beings or profits from killing and/or destruction of the biosphere
12. I will not get news from the corporate media (mainstream newspapers, television, radio, Google, Facebook, Twitter...)
13. I will make the effort to learn a skill, such as food gardening or sewing, that makes me more self-reliant
14. I will gently encourage my family and friends to consider signing this pledge.
