*The US Department of Homeland Security (HSA) is conducting medical censorship while hiding in plain sight. **The website for the Cybersecurity and Infrastructure Security Agency (CISA)** has resources to engage vigilante “disinformation” police to assist HSA in their mission of silencing opinions on COVID-19 and pandemic response.*

The main stated target is disinformation defined as information deliberately created to mislead, harm, or manipulate a person, social group, organization, or country. Their toolkit allows any user to use “products” and tailor them with official logos to spread the government propagandized message:[i]

Disinformation and COVID-19: How State and Local Officials Can Respond

Rely on trusted sources. For situational updates on COVID-19 and stay-at-home guidelines, rely on information provided by state and local health officials, as well as the Centers for Disease Control and Prevention (CDC) at coronavirus.gov and the Cybersecurity and Infrastructure Security Agency (CISA) at cisa.gov/coronavirus.

So, the picture is becoming more clear on how the US government operationalized a

propaganda campaign on its own people from the very beginning of the COVID-19 crisis.

They took these steps:

- 1) establish a single source of truth—the CDC,
- 2) weaponize CISA to declare “disinformation” their target,
- 3) enlist a legion of volunteer deputies without any official authority or accountability to operate within social media and all walks of life, giving public service messages telling Americans the CDC is the only trusted source of information.

The converse of this assertion—anything else must be considered untrue and up for being nailed as “misinformation,” “disinformation,” or “malinformation.” Don’t be surprised if FOIA-obtained documents demonstrate CISA and CDC were operating as partners in established campaigns with social media, mainstream television, print media, corporations, schools, and every aspect of life. Nothing can be more dangerous to public health. Directing all trust to a single source of medical information that is not contemporary, has no regular schedule of review or public briefings, is not transparent with data (e.g., the withheld V-Safe dataset), and has woefully lagged on major scientific developments (contagion control, testing, vaccine safety). It’s a mind-blowing reality that our government agencies, in a planned and coordinated manner, have operationalized a plan to control information and spread propaganda in order to influence behavior. They pitted agencies against citizens and individuals against one another and set social media as the main battleground. The CDC and DHS CISA should be prime targets of US Senate and Congressional Investigations into our disastrous pandemic response.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
