The phenomenon of SADS – “Sudden Adult Death Syndrome” is a brand new phenomenon since COVID-19 mRNA vaccines rolled out in the general population starting in December 2020.

Perfectly healthy, young COVID-19 vaccinated people go to sleep and never wake up. There is no struggle. They die “peacefully”.

Here are 13 such cases of young people dying in their sleep in 2022:

UK - 40 yo healthcare worker Kelly Gleeson died suddenly of a pulmonary embolism on Dec.29, 2022. She went to take a nap at 6pm due to feeling sick and never woke up.

📌 Kelly Gleeson tried to sleep off her mysterious illness and tragically passed away

A 40-year-old woman who was suffering from suspected food poisoning died in her sleep and was tragically found unresponsive by her teenage daughter an hour later.

Care home worker Kelly Gleeson was later found to have died from a pulmonary embolism. Her heartbroken family told how the mum-of-one had decided to go to bed at around 6pm after spending most of the day throwing up.

London, UK – 33 year old mother Nadia Joseph-Gosine died suddenly in her sleep on Dec. 7, 2022 on the morning of her wedding.

Shock as 33-year-old British mum dies in her sleep on her wedding day

By **Matthew Roscoe** · 12 January 2023 · 11:19

HEARTBREAKING news from London, UK, after it was revealed that a British mum, 33, died suddenly in her sleep on the morning of her wedding day.

Boulder, CO – 17 year old Peter Bonn-Elchouess died in his sleep on Nov. 12, 2022, from myocarditis. He qualified for Junior Olympics as a fencer & was a concert violinist.

Peter Guthrie Bonn-Elchones, born September 29, 2005 in Boulder, CO, **died in his sleep early on November 12, 2022** at his home in Niwot, CO. Predeceased by his grandfather, Marc Elchones, he is survived by his parents, Eve Bonn and Dave Elchones, his beloved brothers, Henry and Charlie Bonn-Elchones, his grandparents Andrea Elchones, Bernie and Bonnie Bonn, his uncles Michael (Lauren) and Richard Elchones, his aunts Emily Bonn (Paul Duncan) and Nancy Bonn (Chris Grugan), and his cousins Gabi, Paige, Cam, Charlie, Charlotte and Sam.

Peter was an enormous and magnetic presence, with a talent for making friends wherever he went, chosen by his classmates as Niwot's first official best behaved boy (if you know, you know). Known for his kindness and thoughtfulness, at the start of Covid he planned a family field day for his little brother who was upset about missing his fifth grade continuation activities. His friends remember how he made each of them feel truly cared for, a skill he hoped to use in the future by studying psychology.

A senior at Niwot High School, Peter was an accomplished fencer who had recently qualified for the Junior Olympics, a violinist who was concert master of his first year orchestra, and mock trial team member who lettered his freshman year.

May 3, 2023

When Eve Bonn and Dave Elchones **lost their son Peter suddenly in November 2022 to myocarditis**, they wanted to be sure they honored the person he was.

A senior at Niwot High School at the time of his death, Peter Bonn-

Dallas, TX - 18 year old Kayla Rose Lumpkins died suddenly in her sleep on Sep. 9, 2022, months after her COVID-19 booster shot.

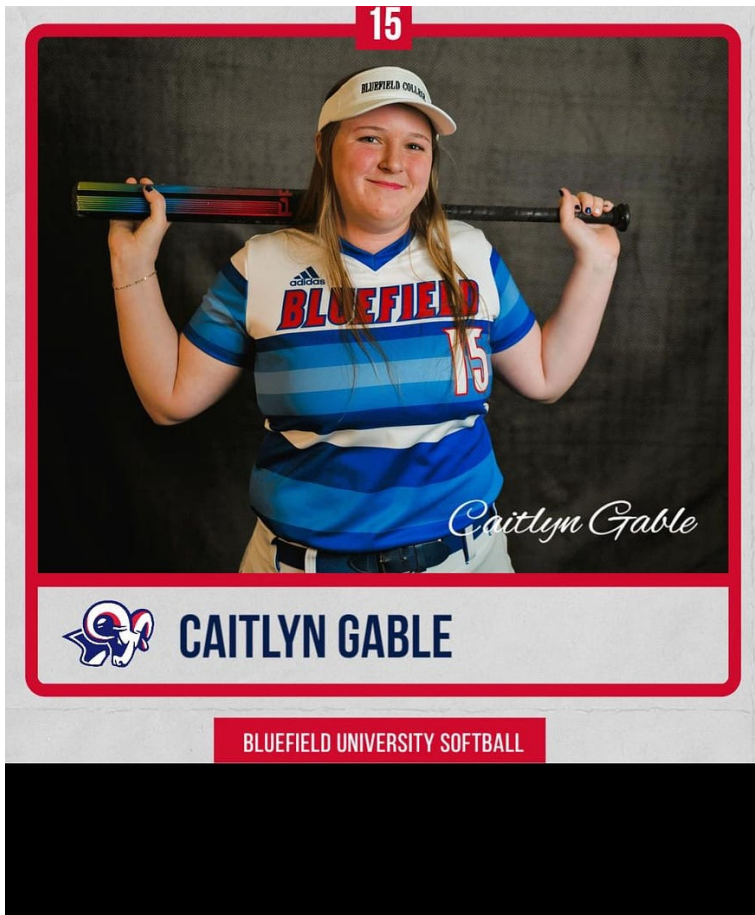

“I Now Truly 100% Believe It was Because of the [Vaccine]” – Grieving Mother Vows to Bring Justice Following the Sudden Death of Her “Healthy and Athletic” 18-Year-Old Daughter

By Jim Hoft Oct. 25, 2022 12:50 pm 2651 Comments

A grieving mother from Texas is searching for answers and justice following the sudden death of her 18-year-old daughter who died in her sleep.

Concord, NC: 20 year old baseball player Caitlyn Victoria Gable died in her sleep on Aug. 9, 2022. Her death was called “Sudden unexpected death among epileptic persons” SUDEP. She was also “up to date with all her shots” including COVID-19 mRNA jabs

Recently, we (finally) learned why she was called home so early in her beautiful life. As all of you know Caitlyn was extremely heathy; and as a college athlete she was strong physically. She was up to date with all her shots and took good care of herself. She was diagnosed with epilepsy ar the age of 8; although it was controlled with medication 🍌, breakthrough seizures are always a possibility. It seems the Lord didn't want her body to deal with these seizures any longer. Officially, SUDEP. This stands for sudden unexpected death among epileptic persons. I take slight peace knowing that she passed peacefully, in her sleep, and knowing I will see her again.

Layton, UT - 42 year old Jana Christopherson died in her sleep on Aug. 1, 2022. She was an advocate of mandatory COVID-19 vaccinations via the use of force. ([click here](#))

In Memory of Jana Christopherson

Marissa Reynolds is organizing this fundraiser on behalf of Marilyn Perkins.

It is with a heavy heart that we announce the passing of our beloved sister, mother, daughter, aunt and friend Jana Christopherson. She passed away peacefully in her sleep on August 1, 2022. She leaves behind two amazing sons, Quincy and Collin, who were the

Aurora, CO - 36 year old nurse Catherine (Katie) Fleagle died in her sleep on July 1, 2022. She left behind a 3 year old and 4 month old baby.

CATHERINE FLEAGLE OBITUARY

Katie entered this world on 1/21/1986 bringing smiles and joy to all who held her. It is with profound sadness that we share that Katie died suddenly and unexpectedly on 7/1/2022. She passed away peacefully in her sleep in the early morning hours. As she grew her sweet demeanor and her quiet poise blossomed. Katie had a gift for developing and maintaining beautiful lifelong friendships. She grew up in Boulder attending Sacred Heart Elementary School, Summit Middle School, and Boulder High School. She graduated from CU Boulder in 2008. She decided to become a nurse after an undergraduate degree and was accepted and graduated with a master's degree from DePaul University in Chicago in 2011. Katie met Eric Keifer in Chicago in 2009 and shortly thereafter fell

Montreal, QC - 32 year old comedian Nick Nemeroff died suddenly in his sleep on June 27, 2022. ([click here](#))

32-Year-Old Comedian, Who Warned About Vaccine Side Effects, Dies Suddenly

 Fact checked

June 30, 2022  Baxter Dmitry  News, US  8

Popular stand-up comedian Nick Nemeroff **died suddenly in his sleep** on Monday, according to a Twitter post published by his family. He was 32.

Nemeroff received two doses of Pfizer's Covid-19 vaccine and experienced side effects that led him to announce that he regretted the decision to be vaccinated. He later swore he would not get a booster vaccination.

Chicago, IL - 17 year old Gwen Casten, daughter of Congressman Sean Casten, died suddenly in her sleep of sudden cardiac arrhythmia on June 13, 2022.

Rep. Sean Casten reveals teen daughter died from cardiac arrhythmia

By Mary Kay Linge

 Australian Medical Association SA president Michelle Atchison has revealed **her only daughter died in her sleep this week.**

Picardy, France – 48 year old international bike racer and cycling journalist Richard Moore died in his sleep on March 28, 2022.

Chris Hoy was close friends with journalist Richard Moore, who tragically died last month (Image: INTERNET PICTURE)

Hoy's honest and relatable assessment of his feelings highlights how even sporting heroes deal with very real grief and trauma. The 46-year-old simply lamented the fragility of life given Moore died suddenly while asleep, but he did explain how the words of esteemed sports psychiatrist Steve Peters had helped him.

"One of the first things that Steve Peters ever said to me was, life's not fair," Hoy recalled. "Why do you expect it to be fair? It's not. You can stomp your feet and you can have a little tantrum, but it's not going to change anything. The sooner you accept that, the better. It's unreal at this stage."

"He was 48. He passed away in his sleep. He would have known nothing about it which is this one mercy of it all. But for those left behind, there's so many questions.

My Take...

SADS (Sudden Adult Death Syndrome) didn't really exist before COVID-19 mRNA vaccines were forced on the entire population.

There was a related phenomenon called Sudden Arrhythmic Death Syndrome which was extremely rare and was caused by congenital anomalies that predisposed young people to sudden cardiac death.

Interestingly, these unprecedented sudden deaths while asleep started happening almost immediately after COVID-19 vaccines were rolled out in Dec.2020 and could happen after 1st dose, 2nd dose or booster shot.

They've continued to occur on a regular basis ever since, even though most people are no longer taking their booster shots.

This suggests that there is a long term adverse effect of COVID-19 vaccination that puts people at risk for sudden death while sleeping, even if they had their last COVID-19 vaccine a year ago or even longer.

How do we identify which COVID-19 vaccinated person is at risk for sudden death while sleeping and what do we do to prevent those sudden deaths?

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
