On April 4, 2023 I wrote a substack article titled: [“Pregnant women having heart attacks, strokes and dying - a dark side of Pfizer & Moderna COVID-19 mRNA vaccination no one is talking about - 15 cases”](#)

This is a continuation of that article, as there have been many new deaths. Recent sudden deaths of pregnant women include:

- Sue Marroa Jones (age 31) - died on May 11, 2023
- Crystal Candler (age 35) - died April 27, 2023

- Dr. Sheena Nageli (age 34) – died April 25, 2023
- Meaghan Riley Elizabeth Seipp (age 29) – died April 21, 2023
- Kelsey Holder (age 32) – died March 21, 2023
- Rocio “Rose” Michelle Roberts (age 27) – died March 15, 2023
- Alona White (age 25) – died March 13, 2023
- Laura MacDonald Seymour (age 44) – Died Oct.30, 2022

New Zealand – International NZ Chess Champion Sue Maroroa Jones, age 32, died suddenly after giving birth to her 2nd child, on May 11, 2023, due to “post natal complications” ([click here](#))

International Kiwi chess champion Sue Maroroa Jones [has died unexpectedly after giving birth to her second child.](#)

The 32-year-old chess master, who died in England last week, is being remembered by family and friends for her “generous spirit” and “beautiful smile”.

Her tragically early death was revealed by her husband Gawain Jones on Facebook, an English grandmaster and two-time British Chess Champion.

“It is with great sadness and heavy hearts that we announce that my beautiful wife, Sue Maroroa Jones, has passed away,” he posted.

“An incredible and cherished mother of Samaria and baby Daniel, beloved daughter of the late Temu Maroroa and Suee Lee Maroroa, and wonderful sister of Andrew Maroroa.

“She leaves behind a loving family who will miss her greatly.”

Chess master Maroroa Jones’ death came soon after Daniel’s birth, following post-natal complications, according to [Chess.com](#) - the world’s biggest chess website.

“We are deeply saddened at the tragic loss of our dear teammate and friend, Sue. She will be forever in our hearts and minds,” the Icelandic Matar Chess Club said online.

“Sue was the most generous spirit I was lucky enough to call a friend,” another mourner said.

New Zealand Chess said she was an accomplished player who held the FIDE title of Woman International Master and represented New Zealand in five world championships between 2002 and 2012.

Narrows, VA – 35 year old Crystal Candler, who worked as a Child Care Director, died while pregnant at 35 weeks on April 27, 2023 ([click here](#))

She suffered an unspecified “medical emergency” at 35 weeks gestation and died 5 days later on April 27, 2023. Her baby survived.

Boerne, Texas – 34 year old Dr. Sheena Nageli, a pediatric chiropractor, delivered baby Juliette on April 20, 2023 and died on April 25, 2023 ([click here](#))

Sheena had her baby girl with a home birth on April 20, 2023. In the process of recovering from the birth, it was determined on April 24, 2023 that she was battling a localized infection “unrelated to her pregnancy”. Sadly, that infection, for inexplicable reasons, spread quickly. Despite quick medical intervention she died the following day on April 25, 2023. ([click here](#))

Saskatchewan nurse, 29 year old Meaghan Riley Elizabeth Seipp died during delivery on April 21, 2023

William Makis MD ✓

@MakisMD

Estevan, SK - 29 year old nurse Meaghan Riley Elizabeth Seipp died suddenly on April 21, 2023.

Healthcare workers need to start speaking up for their dying colleagues.

@SaskHealth knows COVID-19 vaccines are killing doctors, nurses & health staff.

This has been my most controversial Twitter post this year. I have been threatened repeatedly over it. But why?

“It couldn’t have been the vaccine”, I was repeatedly told.

This is the longest version of the story I received privately on Instagram:

“She was induced because her doc wasn’t going to be there the next week so babe wasn’t ready. Due to the storm, the surgeon couldn’t get to the hospital so an inexperienced doctor had to perform the C-section after hours of pushing since the babe’s heart rate was dropping and he was so stuck they broke his leg getting him out. They stitched her back up and noticed how pale she was so reopened her and she was internally bleeding due to

missing something. Due to the storm, helicopter couldn't come so doc was FaceTiming another and being coached through a certain stitch to stop the bleeding. She was transferred to a bigger hospital by ambulance, but, the closest one is an hour and a half away and she didn't live long after arriving."

There are too many questions with this story to simply say "couldn't have been the vaccine". Bleeding/clotting issues are central when it comes to COVID-19 vaccine complications.

Brentwood, TN - 32 year old 5th grade teacher Kelsey Holder, died suddenly on March 21, 2023 with her stillborn baby ([click here](#))

Guatemala - Pennsylvania mother of two boys, 27 year old Rocio "Rose" Michelle Roberts

died suddenly on March 15, 2023, 4 days after giving birth, from a pulmonary embolism. ([click here](#))

Thousands poured into the streets of San Cristobal Verapaz, Guatemala to honor the life of a 27-year-old Pennsylvania mother of two boys (both under two years of age) on March 19, 2023, those who knew her told Daily Voice.

Rocio "Rose" Michelle Roberts passed suddenly on March 15, 2023, according to her sister-in-law Diana Ramirez.

On March 11, Rose delivered her youngest son, while attended by an indigenous midwife, just as she had with her first pregnancy. Four days later she died, but the cause of her death is not fully known. "She was doing well post delivery but then suddenly developed some complications. She was taken to a hospital in Guatemala, where she ultimately passed. The physicians believe it was a pulmonary embolism that caused her death," Ramirez explained in a follow-up conversation with Daily Voice.

Detroit, MI – 25 year old Alona White died of brain bleed 5 days after giving birth to her 2nd child on March 13, 2023 ([click here](#))

Puyallup, WA – 44 year old mother of 5 Laura MacDonald Seymour died suddenly and unexpectedly during birth of her sixth child and first daughter on Oct. 30, 2022 ([click here](#))

Michael B. MacDonald is with Laura MacDonald Seymour.

April 30 at 6:16 AM · 🌐

Six months ago today, on Sunday, October 30, 2022, our daughter Laura died suddenly and most unexpectedly at the age of 44 from a rare complication she suffered during the birth of her last child and first daughter. For me, this was a life-changing event. I will never be the same again. But what do I do? Do I blame the OB doctor for not anticipating the possibility of this complication? Do I blame the doctors and nurses who worked on her intensely for seven hours but wer... [See more](#)

My Take...

COVID-19 mRNA vaccines were never tested for safety in pregnancy. But these vaccines were pushed on unsuspecting pregnant women en masse. To this day, Alberta Health Services continues to recommend unsafe, toxic experimental mRNA products to unsuspecting pregnant women.

COVID-19 mRNA vaccines have caused a sharp increase in miscarriages and stillbirths, as well as perinatal maternal complications including death.

Pregnant women who take COVID-19 mRNA vaccines face the same or higher risks of serious adverse events as the rest of the population: cardiac arrests, strokes, pulmonary

emboli, blood clots, bleeding, infections and more.

Any unexpected death of a COVID-19 vaccinated pregnant woman, occurring in the perinatal period, must be viewed with a strong suspicion of having been caused by COVID-19 mRNA vaccination.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
