When it comes to COVID-19 vaccines, Big Pharma isn't very concerned about the vaccine injured. They are collateral damage in a multi \$100 billion profit scheme and their plight can always be blamed on Long COVID or Climate Change.

But they fear suicides. A COVID-19 vaccine injured person driven to suicide can do tremendous damage to the fraudulent COVID-19 vaccine narrative about "safe and effective". Especially if they document their nightmare. Such is the case of Italian swimming champion Claudio Rais.

And he is not the only swimmer to suffer COVID-19 vaccine injuries, in fact, swimmers are dying suddenly in very high numbers now.

Sassari, Italy - 37 year old personal trainer, swimmer and triathlete Claudio Rais committed suicide by jumping off the Rosello Bridge, the highest bridge in the city of Sassari in Italy, on March 14, 2023. ([click here](#))

Claudio Rais had his first two COVID-19 mRNA vaccine doses with Pfizer in 2021, and then had a Moderna booster shot on Feb.10, 2022.

Claudio Rais is at Asl1 via Rizzeddu.

"La terza dose 📌 potrebbe causarle, oltre che fastidio al braccio, un po' di sonnolenza, probabile febbre, crampi, dolori articolari, capogiro, cefalea ed inappetenza."

"INAPPECHÉ DOTT ...!?" 🤔🙄

"The third dose 📌 could cause, besides discomfort in the arm, a bit of drowsiness, likely fever, cramps, joint pain, dizziness, headache and appetite." "

"UNSTABLE DOTT ...!?" 🤔🙄

He had a successful swimming summer season of 2022, winning multiple championships.

Claudio Rais is 😊 feeling glad at Riccione swimming stadium.

But by September 2022, he described suffering horrible injuries from his Moderna COVID-19 booster shot. In his own words:

Claudio Rais

December 6, 2022 · 🌐

Ends here, ends today...

Fate wanted my life to be totally stripped of its essence. One in a billion cases, maybe not even... it's my turn.

I'd rather walk away and not burden anyone but especially not burden myself for the rest of my days.

I thank God for everything he has given me every single day of these years and all the wonderful people he has brought me to meet.

Now all I can do is swim freely in the clouds 🌈

I hope I will stay forever in your hearts ❤️ ❤️

Good bye friends 🙏☁️

HONOLULU (HawaiiNewsNow) - The teenager [who tragically passed away after a swim meet over the weekend](#) has been identified by loved ones as a Moanalua High School senior looking forward to graduating this Friday.

Friends of Tehani Kealoha, 17, were supposed to participate in a water polo match last Saturday. That match was postponed to Monday after the teenager's tragic and sudden death.

[According to Honolulu EMS, the 17-year-old died from a medical emergency during a swimming meet in Kapolei on Saturday.](#)

"Her death really affected everyone at our school even though she didn't go here," said Kyan Shigekane, a sophomore at Kamehameha Schools Kapalama High School.

"Of course they cancelled the game when they found out the news because everyone was just so affected by it. They couldn't play," Shigekane added.

Kealoha was part of the Kamehameha Swim Club. We're told her brother is a senior at Kamehameha Kapalama.

Swimmers who knew Kealoha competed Monday night in the state high school girls' water polo championship at Kamehameha Schools Kapalama High School.

The Kealoha 'ohana joined the audience to support the swimmers in the water.

Lanang, Philippines – 49 year old swim coach Jerry Kasim had a heart attack and died during the Davao Ironman competition on March 26, 2023 ([click here](#))

COVID VACCINE INJURIES .COM @Storiesofinjury · Mar 27

A veteran swimming coach competing in the Davao Ironman has sadly died after having a heart attack during the swimming course yesterday. He was only 49.

His family was not aware of any heart-related disease he may have had.

Redlands, CA - 21 year old Sydney Rae Benveniste, a college swimmer at Azusa Pacific University, died suddenly on March 1, 2022 ([click here](#))

College swimmer Sydney Benveniste found dead in California

By Joseph Wilkinson
New York Daily News
Mar 03, 2022 at 5:23 pm

Sydney Benveniste, a sophomore swimmer at Azusa Pacific University in Southern California, died earlier this week.

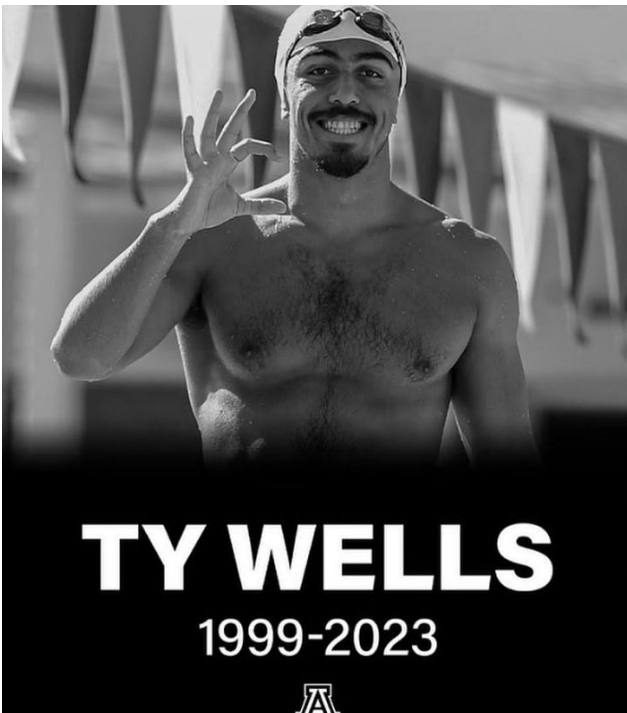

Benveniste's death was announced Wednesday afternoon by the university. No cause of death was given.

Sydney Benveniste (Facebook)

"On behalf of Azusa Pacific University, the athletics department, and swim & dive program, our thoughts and prayers are with the Benveniste family following the tragic death of their daughter Sydney," athletic

Pima County, AZ - 23 year old University of Arizona swimmer Ty Wells died suddenly on Jan.27, 2022, autopsy showed a disseminated Strep infection following a protracted upper respiratory infection ([click here](#))

Ty Wells may have suffered from severe immune system injury from COVID-19 vaccines, allowing Strep to become systemic and fatal. These types of deaths (from Strep) have become common in COVID-19 vaccinated young people.

My Take...

Triathlon and competitive open water swimming have higher rates of death compared to other forms of endurance sport. Studies have found that sudden cardiac arrhythmia is the most likely etiology of swimming related death ([click here](#)).

Furthermore, data from triathlons have shown that most sudden deaths occur during the swimming segment of the race ([click here](#)).

This means that COVID-19 mRNA vaccine induced myocarditis is even more dangerous and deadly for Triathletes and competitive swimmers than for other athletes and regular people.

Doctors should be warning swimmers and triathletes about this elevated risk of sudden cardiac death if they've had any COVID-19 vaccine. However, at this time, these increased risks of sudden death are being ignored and swept under the rug.

Competitive triathletes and swimmers are dying suddenly and doctors remain "baffled".
