Charlotte, NC - 52 year old Officer Dean Lauber died of a medical emergency at his home

while off duty on Dec. 20, 2022 ([click here](#))

My Take...

These deaths are happening in all professions that were subjected to COVID-19 vaccine mandates in 2021 and 2022.

There are again some very interesting cases here, with medical situations commonly seen in people who were COVID-19 vaccinated and suffered vaccine injuries:

- **Cardiac arrest in early morning hours (usually myocarditis)**
- **found unresponsive (dead) at home**
- **heart attack at work**
- **medical emergency while driving**
- **brain aneurysms (damaged blood vessels)**
- **two turbo cancers (liver cancer, angiosarcoma - cancer of blood vessels)**

We see similar types of causes of deaths in young COVID-19 vaccine mandated doctors, nurses, paramedics, firefighters, pilots, etc.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

ISBN: 978-0-9879389-3-0, **Year:** 2022, PDF Ebook, **Pages:** 164, 15 Chapters
