Athens, GA – 62 year old Chief Deputy Ricky Brown died unexpectedly on April 10, 2023, cause of death not released ([click here](#))

My Take...

As always, this article was not meant to be in multiple parts, but there were too many sudden deaths to be contained in one article.

Look at these police officer deaths: suffered medical emergency or collapsed while on duty, medical emergency off duty (usually at home), turbo cancer or cause of death not released.

I believe we are in a wave of sudden deaths that are the result of 2021 and 2022 COVID-19 mRNA vaccine mandates, which were universal across police forces in the United States and Canada.

These are longer term adverse effects of COVID-19 mRNA vaccines. Without proper autopsies being done, we are blind as to the mechanisms of sudden deaths at this time, given that most people have stopped taking COVID-19 mRNA booster shots.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
