Ramblers Softball Club

With great sadness and sorrow we advise in the sudden passing of our club member Aaron Thompson, known to many as Horse.

Aaron was a valued, respected and loyal member of Ramblers. He was the current coach of the U15 girls, current committee member and has also played, coached, umpired and was always on the sidelines cheering the club on. Aaron was originally from the Wellington area but moved to Auckland and played with Northcote for a couple of seasons and then found his way to Ramblers in 2002 and spent the next 22 years as a proud teammate and Ramblers man.

A dedicated and proud father to Sam (13) and Georgia (12); Aaron loved watching the kids excel and along with mum Emma's support, the kids are following in their dad's very successful footsteps on and off the diamond.

Aaron won 6 x NZ Club Nationals with Ramblers. (Some highlights of his career are below)

Our sincere condolences and

Coach Doug Davis

BARTOW COUNTY, Ga. - A beloved metro Atlanta baseball coach is being remembered after he collapsed on the diamond and died in the middle of a game on Friday in Bartow County.

"The whole ballpark went silent. I mean, it was eerie. It was scary," said Sam Ray, the head coach for DC Academy's 14U travel baseball team.

Ray says his assistant coach Doug Davis collapsed during a game Friday night at Lake Point Sports in Emerson and died due to a massive heart attack.

Davis was 47 years old.

"It was something that you never want to be a part of. My son - he was a witness to it. Doug's son was a witness to it. The whole team was a witness to it," Ray said.

Ray had coached the team together with Davis for three years while their sons played for the team.

He says they became very close during that time.

"I loved him like a brother. I was fortunate enough to be right there by his side when it happened. That's one memory I will never forget," Ray said.

Ray says Davis was an incredible coach and mentor to the boys of the 14U team.

"His heart was full of gold. He loved the boys. He loved being around the boys, in particular, he loved being around his own son," Ray said.

Tributes have been paid to an "inspirational" football coach who has died suddenly.

Andrew 'Stevo' Stevenson, 42, from **Halewood**, was a popular figure in the area, giving up his free time to coach youth football teams. Speaking to the ECHO, Ray Berry, who's son Ray Jr was coached by Andrew in the Halewood Lions under 14s team, said: "I met him through grassroots football. My son has played for Andrew for about five years now.

"He was brilliant. He used to run two teams, a younger team - I think the under 12s - and the under 14s. He was good with the kids, a brilliant inspiration to them. He didn't shout at the kids, he just encouraged them. He was always positive.

The jabs are still killing people, sometimes immediately after the injection. Long Covid is Big Pharma's cover up for the delayed adverse reaction to the jabs. Why would anyone play Russian Roulette by getting another jab? Lord, please have mercy on all of us.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
