Baton Rouge, LA - 64 year old Radiologist Dr. Dwayne Anderson died suddenly on Feb. 17, 2023 after a "brief illness" and 3 months later his wife, Radiation Oncologist, Dr. Cynthia Boyer died suddenly on May 19, 2023. Both were experienced Marathon runners ([click here](#))([click here](#)).

Dr. Dwayne Anderson, of Baton Rouge, Louisiana passed away on Friday February 17th, 2023 at the age of 64. He graduated from Drexel University Medical School in 1990. He went on to fellowship programs at Harvard University and Mallinckrodt Institute of Radiology. [He was a gifted neurointerventional radiologist.](#) He served the community of Baton Rouge and New Orleans as a physician, mentor, and teacher for over twenty years. He was actively involved in beekeeping, building, traveling, and running marathons. He is preceded in death by his parents Howard Anderson and Regina Knowles. He is survived by his wife of 34 years, Dr. Cindy Boyer, his daughter, Alexandra Anderson, and his son, Zane Anderson. Family and friends are invited to attend a Celebration of Life at the auditorium in Our Lady of the Lake Hospital on Friday March 3rd at 11am. In lieu of flowers, please consider making a

Dr. Cynthia Ildiko Boyer, 59, was born in Lakewood, Ohio, and died on May 19, 2023 in Baton Rouge Louisiana. She was born on September 1, 1963, to Dr. Andrew and Ildiko Boyer. Dr. Boyer grew up in Tampa, Florida and attended college at Dartmouth College and the University of South Florida. She attended medical school and later worked as a chief resident and fellow in Radiation Oncology at the University of Miami in Florida. [Dr. Boyer was an accomplished Radiation Oncologist for over three decades](#) and served the communities of South Florida, New Orleans, and Baton Rouge. Outside of her career, she loved traveling the world with her family, running marathons with her husband Dwayne, scuba diving, and swimming. She qualified for and ran in the Boston Marathon and ran in countless other marathons over the years. Cynthia met her husband, Dwayne Anderson, during medical school, where they soon fell in love. They were married for 33 years and the pair lived a wonderful life in Florida and Louisiana with their two

July 16, 2023 - Ann Arbor, MI - 61 year old Dr. Michael Fetters died on July 16, 2023 after a year long battle with pancreatic cancer (turbo cancer?) ([click here](#)).

A popular Mexican TV doctor who regularly appeared on "Mexico Today" as a "vaccination expert" died suddenly from a myocardial infarction, according to reports.

Dr. Alfredo Victoria Moreno was only 42 years old when he died in his sleep early Monday. He was a vocal advocate of COVID mRNA vaccines.

Dr. Alfredo's massive global fanbase took to social media to mourn his untimely death. They referred to his passing as a "tragedy."

Mexican TV doctor, pop epidemiologist, TikTok phenom, and covid jab expert Alfredo Victoria, 42, who ran the website provaccines.com, and frequently injected media staff on air on the Mexico Today ("Hoy!") show, suddenly and unexpectedly... [Show more](#)

The physically fit medical doctor and public health specialist had no preexisting medical conditions. He regularly appeared on TODAY ("HOY!") to administer vaccines to the show's staff on the air.

Dr. Alfredo encouraged his 440,000 Instagram followers to get vaccinated. He also had a large following on TikTok and he ran the website provaccines.com.

Anti-vaxxers added Dr. Alfredo's name to the long list of young people who "died suddenly" of heart attacks or strokes within the last 2 years.

SYRACUSE, N.Y. — The Upstate University Hospital family is mourning the loss of one of their own.

Dr. Bradley Middleton collapsed at his home on Monday and was rushed to the Upstate Emergency Room, where he worked, according to Dr. William Paolo, the chair of emergency medicine at SUNY Upstate. His colleagues, Paolo said, are staying "Upstate Strong" as their motto says, wrapping their arms around Middleton's family and each other as they deal with this sudden loss.

June 18, 2023 - Italy - 42 year old Italian doctor Dr. Paolo Cappare had a medical emergency while swimming off a beach and died suddenly on June 18, 2023. He graduated from medicine and surgery.

UniSR is in mourning for the tragic and premature disappearance of the esteemed Professor Paolo Cappare.

The Board of Directors, the Rector and the Chief Executive Officer, together with the Academic Senate and all the teaching and technical administrative staff of the Vita-Salute San Raffaele University participate, with deep condolences, affection and esteem for the disappearance of [Professor Paolo Cappare of the Faculty of Medicine and Surgery](#).

His constant dedication to patient care, research and teaching leaves an indelible trace in our memory.

Fatal bath. Drama on Sunday afternoon in San Benedetto del Tronto, in the Marche region, where a 42-year-old man died after accusing an illness while bathing. The tragedy took place near the rocks in front of the chalet "The kiss of the wave". The rescuers, who also arrived by helicopter, went out of their way to revive the 42 year old, but there was nothing for him to do.

The victim is Paolo Cappare, originally from the area, residing in Melegnano and doctor of the San Raffaele hospital in Milan.

Graduated in medicine and surgery from the Vita Salute del San Raffaele University in 2006, Cappare then graduated in maxillofacial surgery in the State. From July 2021 he was associate professor of dentistry while from January 1 of the year before he was primary aid of the San Raffaele dentistry department.

June 15, 2023 - Lubbock, TX - 56 year old Dr.Holly Sharon Stewart Hester was working in the Emergency Room when she died suddenly and unexpectedly. She leaves behind 10 year old twin orphans ([click here](#)).

Hi, my name is Melissa Henry and I had the pleasure of knowing Dr. Holly Stewart since I was a medical student at UMC, in Lubbock. Years later, I got to know her even better when she came to join us at Grace Clinic. By this time, I came to learn that she had met and married a wonderful man and they had twin babies (a boy and girl) just a few years prior. Shortly after getting married her husband was diagnosed with cancer and passed away, and she was left to raise her two children alone.

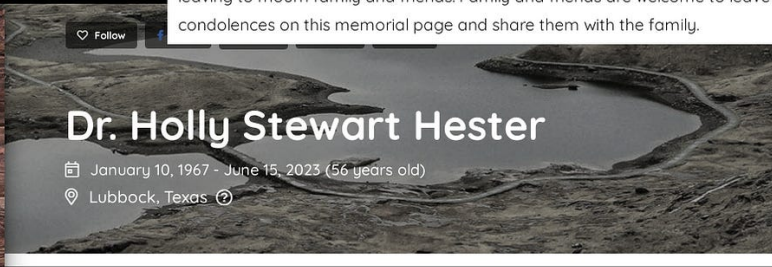

Although saddened, she remained firm in her conviction to care for her patients with the sincerest of compassion.

In her eternal search to spend as much time as possible with them, she left Grace Clinic and was working in various ERs and serving as Medical Director for a Home Health and Hospice agency. On Thursday, June 15th while working in the Emergency Room, Holly died suddenly and unexpectedly. Now her twins, Winston and Elizabeth, are left parentless and at such very young, tender ages (they just celebrated their 10th birthday this past Sunday). In spirit

Holly Sharon Stewart Hester, M.D. unexpectedly passed from this life to join her husband and mother with the Lord, Jesus Christ, on June 15, 2023. Holly was a beloved physician, friend, sister, daughter, aunt, and mother. Holly passed away doing what she loved most, which was caring for others.

Holly Stewart Hester Obituary

It is with great sadness that we announce the death of Holly Stewart Hester (Lubbock, Texas), born in Phoenix, Arizona, who passed away on June 15, 2023, at the age of 56, leaving to mourn family and friends. Family and friends are welcome to leave their condolences on this memorial page and share them with the family.

June 15, 2023 - Teresina, Brazil - 43 year old Cardiologist Dr. Ismar Marques Filho died of a “massive heart attack”.

Doctor Ismar Marques Filho, 43, son of former state deputy Ismar Marques, died on Thursday (15) after suffering a massive heart attack in the city of Bom Jesus, 603 km from Teresina.

Cidadeverde.com found out that he was working on the Itinerant Justice project in Bom Jesus when he was ill at the hotel and was taken by a friend to the Emergency Care Unit (UPA) of City. He received first aid, but died shortly after arriving in Upa at around 8:45 am.

Ismar Filho was married and had two children. He graduated in Medicine from Faculdade Souza Marques and had a specialization in Postgraduate Studies in Cardiology from Fundação Educacional Lucas Machado, specializing in Tomography and Cardiovascular Resonance, improvement in Cardiac Resonance in Congenital Heart Diseases and specialization in Legal Medicine and Medical Expertise

He has already worked as an outpatient physician in the Government of the State of Piauí, a physician in the Municipality of Parnaíba, Cardiology and Echocardiography Physician at Hospital das Clínicas de Teresina and Expert Physician - Cardiology of the Federal Court of First Degree in the State of Piauí.

June 14, 2023 - Goianesia, Brazil - 22 year old medical student at University of Rio Verde, Dr. Samya Coelho Brito Bucar died suddenly. She was hospitalized since May 17 in the ICU where she had cardiac arrests and suffered from pulmonary embolism & lack of oxygen to her brain.

GO: Medical student dies after being admitted with pulmonary thromboembolism

06/16/2023 - 15:05

Medical student Samya Coelho Brito Bucar, 22, died last Wednesday, 14, after being hospitalized for almost a month due to pulmonary thromboembolism, in Aparecida de Goiânia (GO).

The case:

- The young woman, who was a native of Guaraí, in Tocantins, had lived in Goiás for more than three years, when she started studying medicine at the University of Rio Verde (UniRV), on the campus of Goianésia, where he lived with his son, two years and three months old, and his partner;
- On May 17, she was ill and needed to be taken to a private hospital in Aparecida de Goiânia, where she was admitted to the Intensive Care Unit (UTI) in serious condition;
- Then, the young woman got worse when she had cardiac arrests and suffered from a lack of oxygen in her brain;
- On the 14th, she had her death verified. The body was taken to Guaraí and the burial took place this Friday, 16;

June 3, 2023 - Philadelphia, PA - 41 year old Dr. Sam P. Wyche died suddenly on June 3, 2023 from cardiac arrest ([click here](#)).

Sam P. Wyche III, doctor of medicine and mental health advocate, has died at 41

He graduated from Morehouse College and Temple University's medical school, and used his own mental health experiences to help others in need.

Dr. Wyche (center), father Sam Wyche Jr., and stepmother Leslie Brown Wyche, celebrate his 2008 graduation from Temple's medical school, now the Lewis Katz School of Medicine. [... Read more](#)

by Gary Miles
Published Jun 12, 2023

Sam P. Wyche III, 41, of Wyndmoor, a doctor of medicine and lifelong mental health advocate, died Saturday, June 3, of cardiac arrest at Jefferson Frankford Hospital.

Dr. Wyche earned a bachelor's degree in chemistry from Morehouse College in Atlanta in 2004 and a medical degree from Temple University in 2008. He spent a summer in college researching neurobiology at Yale University and began a residency in pathology after Temple

May 18, 2023 - Fulbourn, UK - 46 year old leading UK surgeon, doctor Stephen Quinn died suddenly on May 18, 2023. He was an NHS Obstetrician & Gynecologist, specializing in recurrent miscarriages.

Dr Stephen Quinn, 46, has died suddenly and unexpectedly (Image: Derek Quinn)

Tributes have been paid to a [leading surgeon who has died suddenly at the age of 46](#).

Dr Stephen Quinn was an [NHS](#) consultant obstetrician and gynaecologist at St Mary's Hospital, London, but grew up in Ugglebarnby, near [Whitby](#). He specialised in the treatment of uterine fibroids, adenomyosis, endometriosis and recurrent miscarriage, and also practised at the Lindo Wing at St Mary's and the Portland Hospital for women and children.

Hundreds of tributes to Stephen have been published online, with one person saying he "was the kindest and most approachable man."

Read More: [Family pay tribute to 'amazing and creative' daughter, 22, after devastating cancer relapse](#)

Another wrote: "Stephen was amazingly kind, compassionate and empathetic to the women he cared for. He is one of the kindest doctors I have had the pleasure of working with. Stephen I am irreplaceable loss to his profession, but most of all to his family and friends."

"Stephen embodied the very best characteristics any human can have," said another. "He was kind, patient, clever, considerate and supportive to all around him, always seeing the best in everyone and always leading by example."

In another tribute, the [BBC](#) will rescreen episode 1 of Your Body Uncovered on Monday, June 19, on BBC 2. The episode features Stephen carrying out a remarkable operation removing 100 fibroids.

May 14, 2023 - Singapore - 37 yo UK (NHS) trained doctor Yee Vonne Liong was diagnosed with aggressive breast cancer in Jul/Aug. 2021. It metastasized to her brain.

May 5, 2023 - Washington, DC - 60 year old cardiologist Dr. Ramin Oskoui MD, died suddenly on May 5, 2023 He was doing his cardiology rounds on May 5, when he collapsed during rounds and later died. He had been named Physician of the Year by Johns Hopkins Medicine ([click here](#)).

April 25, 2023 - Bethesda, MD - 54 year old Internal Medicine doctor Karen Ann Blackstone died after a “brief illness” on April 25, 2023. She was Director of Palliative Care at Washington DC Veterans Admin Medical Center She leaves behind three children. ([click here](#))

April 18, 2023 - Hoboken, NJ - 28 year old doctor Dr.Ahntu Vu (family medicine resident) died 2 months after being diagnosed with Glioblastoma (turbo brain cancer). ([click here](#))

My Take...

Here are 18 doctors who died suddenly, ages 20 to 64. Five were medical students or medical residents who didn't finish their studies.

- 9 cardiac arrests (2 at work - emerg, cardiology rounds, 1 swimming, 1 at

- airport, 2 at home, 1 having coffee)
- 4 sudden deaths no info (2 with “brief illness”)
- 1 died in sleep
- 1 pulmonary embolism with cardiac arrests
- 3 turbo cancers (brain – dead in 2 months, aggressive breast ca with brain mets, pancreas)

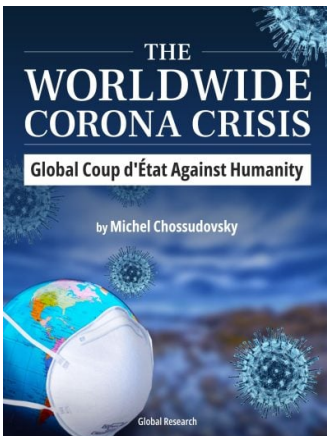

This pattern of causes of deaths is what would be expected from a COVID-19 mRNA vaccine mandated profession.

The Worldwide Corona Crisis, Global Coup d’Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
