Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases (NIAID) described as one of the world’s leading experts on infectious diseases was until recently categorically against wearing the face mask.

He offered advice and provided specific health guidelines based on scientific evidence.

Video interview with Dr. Fauci

“No reason to be walking around with a mask”. it is not providing perfect protection. It has “unintended consequences”, says Dr. Fauci. He is absolutely right

DR. FAUCI: NO REASON

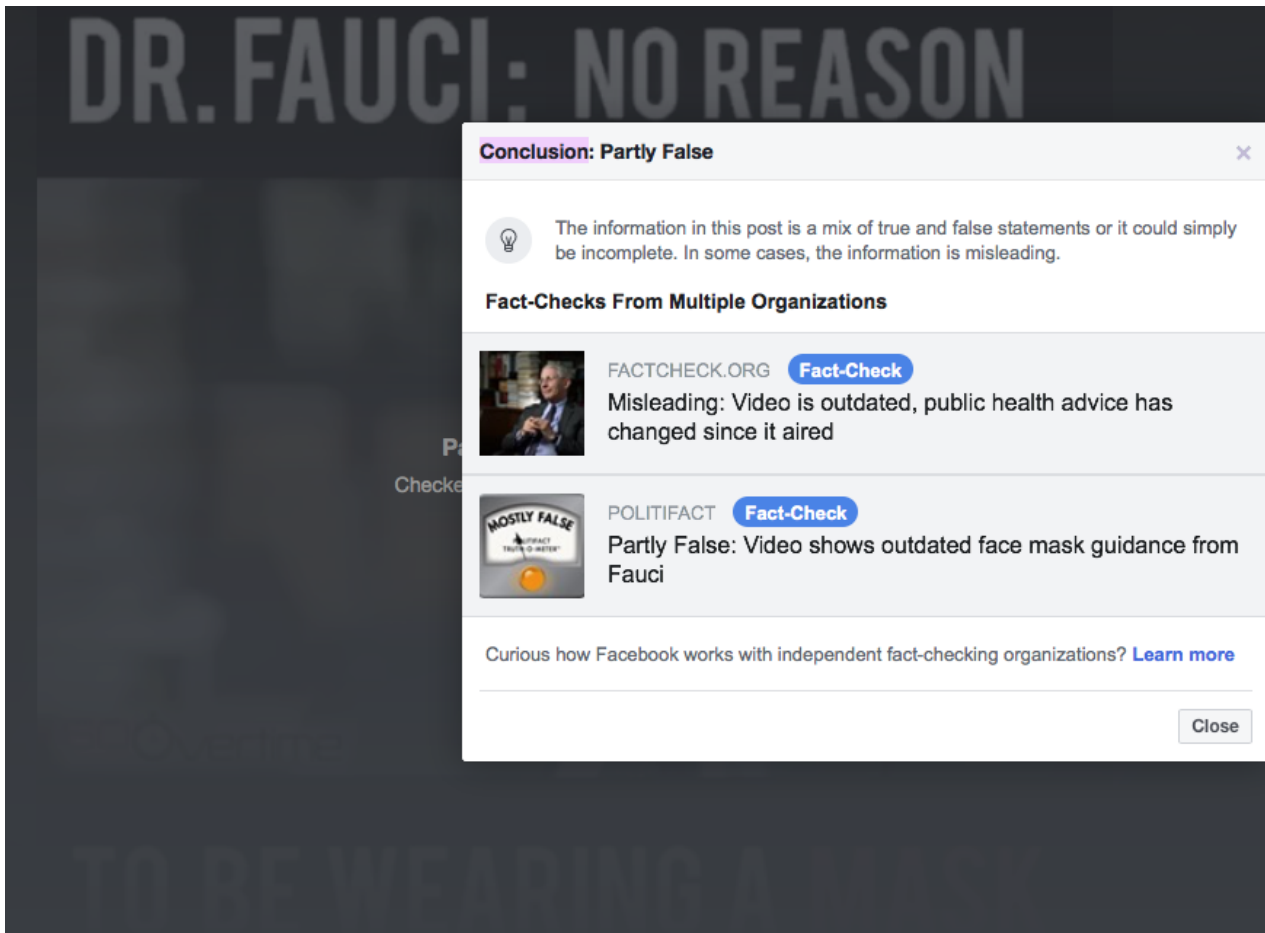

TO BE WEARING A MASK

And now Dr. Fauci is in favor of the mask.

In a bitter irony, his earlier statement (2 months ago) is now categorized as “fake news”.

Access to the video is partially blocked by “Fact Check”....

His statements are politely categorized as “Partly False”. “Outdated” scientific statement?

Now Fauci is saying exactly the opposite: "We are trying to get people to universally wear masks".

Fauci is not only lying to himself, he is actively involved in the censorship of medical doctors who question the official agenda which is destroying our lives.

Dr. Fauci's earlier statement (corroborated by scientific evidence) has been repealed.

There is a broad consensus among medical doctors that the face mask is detrimental to a person's health.

Fauci was labelled fake news for telling the truth. And now his lies are upheld as the "official truth".

BBC Video Interview with Fauci

Conflicting guidance on masks not helpful, says Dr Fauci

The US top infectious disease expert has disputed claims in a video shared on social media by President Trump about mask-wearing and the use of hydroxychloroquine to treat Covid-19.

Dr Anthony Fauci told the BBC's Katty Kay that it wasn't productive for him to judge the president's tweets or retweets but made it clear that his own view on masks was well known in the White House, adding that "it's not helpful" for conflicting guidance to be presented "when we are trying to get people to universally wear masks".

There are more than four million cases of coronavirus in the US and almost 150,000 people have died.

READ THIS

It should be noted that Fauci's earlier assessment (categorized as "partially false" by Google's "Fact Check") is consistent with a broad "scientific consensus". According to [Dr. Russell Blaylock](#):

Researchers found that about a third of the workers **developed headaches** with use of the mask, most had preexisting headaches that were worsened by the mask wearing, and 60% required pain medications for relief. As to the cause of the headaches, while straps and pressure from the mask could be causative, the bulk of the evidence points toward hypoxia and/or hypercapnia as the cause. That is, a reduction in blood oxygenation (hypoxia) or an elevation in blood CO₂ (hypercapnia).

It is known that the N95 mask, if worn for hours, **can reduce blood oxygenation as much as 20%**, which can lead to a loss of consciousness, as happened to the hapless fellow driving around alone in his car wearing an N95 mask, causing him to pass out, and to crash his car and sustain injuries. I am sure that **we have several cases of elderly individuals or any person with poor lung function passing out, hitting their head. This, of course, can lead to death.** (Blaylock, op. cit).

People are being misled.

The compulsory wearing of the face mask should be discontinued.

The evidence is there. **SPREAD THE WORD**
