

Video: Does the Virus Exist? Has SARS-CoV-2 Been Isolated? Interview with Christine Massey

By [Christine Massey](#) and [Prof Michel Chossudovsky](#)

Theme: [Science and Medicine](#)

Global Research, December 04, 2022

The Chinese authorities announced on January 7, 2020 that they had isolated and identified “a new type of virus”. Then on the 28th of January 2020, the US Centre for Disease Control and Prevention (CDC) stated that [the novela corona virus had been isolated](#).

Christine Massey, M.Sc conducted an extensive report over a period of more than a year. The central question raised in her study is the following:

“is there reliable evidence that SARS-CoV-2 has been isolated from an “unadulterated sample taken from a diseased patient”?”

Christine Massey submitted Freedom of Information (FOI) requests to some 90 Health /Science institutions.

Does the Virus Exist? The responses to these requests confirm that there is no record of isolation / purification of SARS-CoV-2 “having been performed by anyone, anywhere, ever.”

Dear Health Ministers,

I am writing to you on advice from the Australian Department of Health (the Department) to seek clarification on information requested in a Freedom of Information (FOI) request that was sent to the Department.

The Department's initial response on 24th August 2020 (attached: "Initial FOI 1937 Response"), stated: "To obtain the information you are seeking please direct your request to the various State and territory Departments of Health".

After further correspondence between the FOI author and the Department, a more formal response was given (attached: "FOI 1937"), yet the outcome remained the same.

I am therefore writing to you to on initial advice by the Department of Health to confirm whether you do hold the information requested in the original request to the Department, as shown in attachment "FOI 1937" and pasted again below:

"All records in the possession, custody or control of The Department of Health describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient). Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- the culturing of something,*
- or the performance of an amplification test (i.e. a PCR test),*
- or the sequencing of something.*

Please also note that my request is not limited to records that were authored by The Department of Health or that pertain to work done by The Department of Health. My request includes any sort of record, for example (but not limited to) any published peer reviewed study that The Department of Health has downloaded or printed."

I look forward to your response.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
