*Joining us today is **Dr. Sucharit Bhakdi**, here to discuss the ‘dangerous mRNA vaccines’ and how he and his organization warned about the blood clots (and much else now coming to pass) that we are now seeing from the COVID-19 injections, months before they began.*

He stresses that it is important that we come to understand what Cerebral Venous Thrombosis is, and why all of its symptoms seem to be identical to what we are told COVID-19 symptoms are.
