Lizzy Musi dead at 33: Street Outlaws star succumbed to stage four breast cancer while surrounded by family

64 comments

She was diagnosed with Stage 4 TNBC in April 2023.

June 28, 2024 - 'Street Outlaws: No Prep Kings' star Lizzy Musi dead at 33

Lizzy Musi has died at 33.

The driver and reality TV star, best known for “Street Outlaws: No Prep Kings,” passed away after a battle with breast cancer.

Her father, Pat Musi, announced her death in a [post](#) shared via Facebook on Thursday.

“Surrounded by her Family, in the comfort of her own home, Lizzy was called to heaven at 11:25pm tonight,” the post read.

“Thank you for all the prayers and support throughout her battle

Musi, who grew up in North Carolina, rose to fame on the Discovery Channel series “Street Outlaws: No Prep Kings,” a spinoff of 2018’s [“Street Outlaws,”](#) a docu-series about drag racers competing on rough terrain.

She starred on the show with her father Pat, an eight-time PDRA Pro Street World Champion, according to his [website](#).

In addition to being a driver, she was also the director of Musi Racing in Mooresville, North Carolina.

Musi revealed her cancer diagnosis in an April 2023 Instagram [post](#).

“Hey Everyone, I haven’t been able to have much time to post due to an unexpected life change. A few days ago I have been Diagnosed with Triple Negative Stage 4 Breast Cancer that has moved to my lymph nodes to my liver,” she wrote, adding, “I have a rough journey ahead of me. I appreciate everyone’s messages and calls.

In June 2023, she showed off “the new me” after shaving her head.

“Never thought in a million years I would post a picture like this. I want to share every raw moment with you guys through my journey,” Lizzy [captioned the image](#). “2 nights ago I had to shave my head due to extreme hair loss,” adding that her ex-fiance, Kye Kelly, helped her shave her head.

“Some days are tough to look in the mirror,” she wrote.

After winning the 2023 “Street Outlaws: No Prep Kings” invitational at Tulsa Raceway Park in Tulsa, Oklahoma, Musi [told Drag Illustrated in August](#), “I swear I haven’t been this happy in my whole life. I just feel like I can do my job as a driver, and it just came so naturally. It felt so good to be able to be myself again and race.”

She added, “I can’t even begin to explain everything I’ve been going through and dealing with this cancer diagnosis – a lot of people had their doubts about me. I’m very thankful and

blessed that I can keep doing what I'm doing."

She noted that her health struggles didn't put her down, saying: "I still have the fire in me."

"I have such a huge support system that keeps me going. My family has been so supportive. It's incredible, and I'm so thankful for that."

Musi continued, "I'll sit in treatment rooms, getting this chemo done, and here I am a couple of days later in a race car, and now we won this race - it feels like the biggest accomplishment ever. We struggled so much, so I feel like going through all those struggles makes a win so much more worthwhile. Me and my dad got emotional at the top end, but we both know that we went through hell and back to get to where we're at. I look up to him so much."

"But there are days where I feel stronger than ever."

Her father wrote in his Facebook post about her death, “At this time, the family would like to have time to process, grief and make arrangements in peace. We will give an update as soon as we have information to share.”

My Take...

Lizzy didn't push COVID-19 vaccines but with all the sponsors, TV show on Discovery, racing on various racetracks during 2021-2023, etc, she is presumed vaccinated.

Triple Negative Breast Cancer (TNBC) has the worst prognosis.

COVID-19 mRNA Vaccines cause Turbo Cancer. Breast cancer is in the top 3 most common Turbo Cancers. Of the Turbo Breast Cancers, TNBC is the most common type.

Look at the features:

1. Very young age: 33 is much too young, we start screening at 50
2. Stage 4 Presentation. No warning signs.
3. Triple Negative - this is the most common type after mRNA injection
4. Died 14 months after diagnosis - progression much too rapid and also suggests the cancer did not respond to chemo.

All of these features are typical of mRNA-induced turbo cancer.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault on liberty and the goodness of people, Chossudovsky’s book is a rock in our fight. —Dr. Emanuel Garcia

In thirteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.

—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
