This map series shows the progressive theft of Palestine by Zionist Israel since 1947, with the complicity of Washington and Europe. Where did all the Palestinians who lived in the green areas of Palestine, almost the entirety of Palestine, in 1947 go? They were herded into refugee camps in Jordan and Lebanon.

The UN (second map from the left) planned to give Israel half of Palestine, although no one

explained the UN's ability to give away a people's country. The UN's generous redistribution of Palestine to Israel did not satisfy Israel who took the rest.

Zionist Israel's theft of Palestine and ethnic cleansing of Palestinians from their own country was covered up each year along the way by the West pretending to be in favor of a "two state solution." Of course, such a solution never materialized decade after decade as Israel claimed the entire territory.

The "two state solution" let the West pretend it was doing the right thing while Israel stole the country and exiled the people, the remnants of which were confined to the Gaza ghetto, currently under destruction by Israel using American weapons and money.

America has been unable to do anything about this genocide of a country and a people because US presidents and members of the House and Senate are elected with the aid of Israeli campaign contributions.

The billions of dollars that US taxpayers are forced to hand over to Israel every year come back to purchase our elections. Consequently, Washington answers to the Israel Lobby, not to the American people. We see this clearly in the invitation of the US Congress to Netanyahu who is under indictments both within Israel and by the International Criminal Court. Washington is determined to show that Netanyahu's criminal indictments notwithstanding, Netanyahu is under the protection of the United States. In contrast, we are supposed to write Trump off as a gangster based on concocted indictments resting on nothing but opinions of prosecutors determined to keep Trump from the White House.

Israel also uses its American tribute to purchase pastors of evangelical churches who indoctrinate their congregations that it is God's will for America to support Israel and for Israel to reclaim their home of 2,000 or more years ago, from which God dispelled a sinful Jewish population. Some of the evangelical churches are so captured that they are known as "Christian Zionists."

What the "great moral West" doesn't understand is that by supporting and defending Israel's genocidal policy toward Palestinians, the "great moral West" has given its approval to genocide. So how is the West moral?

Even Putin congratulates Israel for its sins and crimes. Perhaps Putin does this because the Holocaust story is a way for Putin to emphasize that Russia is fighting nazis in Ukraine. Nevertheless, Putin's support for Israel is extraordinary as it is Israel that is pressuring its American lapdog to attack Iran, which would be a catastrophe for Russia and China. Without Iran the efforts of Russia and China to organize Asia into a coherent trading bloc independent of the dollar is impossible. Instead CIA jihadists would be flowing into the Russian Federation, Central Asia and China.

America's disgrace from supporting genocide is diminishing the ranks of qualified personnel in the US Department of State. Two more officials have resigned rather than be associated with Washington's complicity in the mass murder of Palestinians.

Alexander Smith prepared a report for the US Agency for International Development on the extraordinary high rate of maternal and child mortality among Palestinians suffering the Israeli attack. He was quickly fired before he could deliver the report.

He said:

“I cannot do my job in an environment in which specific people cannot be acknowledged as fully human, or where gender and human rights principles apply to some, but not to others, depending on their race.”

Another State Department official, **Stacy Gilbert** resigned. She said she could no longer accept the State Department lies that Israel was not deliberately obstructing the flow of food or other aid into Gaza.

So far 33 State Department officials have resigned, leaving their comfortable high-paying jobs because they cannot stomach the immorality of being a US State Department employee.

This is hopeful. It indicates that some Americans employed by Washington still have a moral conscience and will not serve Washington at the expense of their conscience.

The total evil that the Biden regime represents has the support of a large minority of American voters. That Americans will vote for evil shows how far down the drain America has gone. The question automatically arises: what is the United States other than a threat to life on earth, a threat to all civilization, to all known morality? How do we know that Satan doesn't hold Washington in his hand?

We are faced with the possible outbreak of nuclear war, a death sentence for life on earth, and there is not a single Western leader trying to resolve the crisis. Zelensky has passed a law prohibiting negotiations with Russia to end the conflict. Washington's response to Russia's direct warnings is to turn the warnings into propaganda against Russia.

As Putin says, we will see what happens.
