Anna Foster is an embalmer with 11 years of experience in Carrollton, MO. In this exclusive interview, she reveals that 93% of her last 30 cases died due to clots from the COVID vaccine.

Explosive: Embalmer reveals 93% of cases have deadly clots caused by the COVID vax

The big news is that she found the unusual clots in 93% of the last 30 people who she embalmed. This is significant because she isn't selective about who she embalms.

Not all embalmers will see a 93% clot rate. Richard Hirschman only sees these clots in 65% of his cases.

Either way, we have identified what is the #1 cause of death in America today; a killer that is much bigger than COVID.

This is a massive health issue since it is killing a huge number of people. Her embalmer friends have noticed it as well and have never seen it before in their careers.

The clots are only associated with people who have been vaccinated. They were only observed after the vaccines rolled out.

The clots are life threatening and are almost certainly the root cause of death in all of these cases.

The doctors and coroners in her area are completely unaware of the problem.

When 93% of people who die are killed by a single cause, this merits immediate investigation by the CDC as to the cause.

However, I am certain that the CDC and all legacy media will continue to ignore this story.

I will continue to interview more and more embalmers who will relate the same story as you will learn in this video.

I am hopeful that after over 100 embalmers say similar things, someone in Congress will take action on what is likely the most serious preventable health problem in our nation's history.

If the vaccine doesn't kill you, it can rob you of a limb

Vaccinated in MA.

3 months later blood clot developed from ankle all the way to the groin...stent put in. This clot was just like the ones Richard, the embalmer, pulled out of the dead person's leg.

This is what the living person goes through when it doesn't make them stroke out or die from embolism....

Will the vaccine also sterilize men?

In other news, attorney Reiner Fuellmich, says that the COVID shots sterilize men for good. I know there has been a drop in births in other countries after the vaccine rollout. I haven't seen the statistics for new births in the US.

Has anyone looked into validating this?

This was not tested in the clinical trials. **We are the clinical trial here, but the doctors forgot to warn us about this.**

We will find out very soon whether or not we have just sterilized 80% of our population. This is the biggest clinical trial in history.

One more unexpected side-effect: AIDS

I got a call earlier today from a scientist who wants funding to test people for AIDS. At first I was confused. Why would you want to do that?

Just now, I saw a post which explains everything:

just wait until the initial survivors of the vaccine start dying because the vaccine gave them [#AIDS pic.twitter.com/LmL9fYCdtW](#)

Mathew Crawford finds the same result (massive number of deaths), but using a completely different method

Check out [Mathew's latest article](#) which references this article.

In the comments to this article, he wrote, "We have not seen a crime on this scale anywhere in the world since Mao."

The bottom line is duh, there is absolutely no question these vaccines are killing massive numbers of people, but everyone in power believes whatever the CDC tells them that the vaccines are "safe and effective" and no amount of facts or science is going to make a damn bit of difference because it will all be written off as coming from "anti-vaxxers."

We will all be ignored and later arrested by DHS and locked away without a chance for a trial. This sure looks to me to be the way things are heading.

So we wanted to let you all know that before we just "disappear."

Summary

The COVID vaccines are the largest clinical trial in world history.

What we have learned so far from the embalmers is troubling: it appears the vaccines have overtaken heart disease as the #1 leading cause of death in America today.

The CDC doesn't have a clue it is happening. They still think that nobody has died from the vaccine. They refuse to look at the safety signals in VAERS and DMED. They don't want to see any safety signals and they will not meet with anyone who challenges their point of view.

Death is one of many symptoms. Other side effects are a wide variety of cardiovascular, neurological, and autoimmune diseases, paralysis, loss of limbs, and potentially sterilization and AIDS. After a 90 day honeymoon period, [vaccine efficacy turns negative](#). They also are known to [increase cancers](#).

Stay tuned as we learn more in this clinical trial of the vaccines. I'm sure this isn't the end of the story.

The California legislature is expected to mandate soon that everyone who works in California get vaccinated ([AB 1993](#)). This will increase the numbers and allow us to get the test results sooner. California is literally sacrificing its residents for the benefit of the rest of the country.

Although I live in California, I am self-employed. I suspect I will need to fire myself soon. I will not willingly comply with their law
