Over the past 17 years since 9/11/01, the title question has plagued the tens of thousands of committed groups of highly intelligent and thorough truth-seeking scientists, physicists, architects, engineers, pilots, ex-military officers, ex-intelligence agents, firefighters, demolition experts, psychologists, medical professionals, etc, etc who have absolute proof that the official Cheney/Bush White House story about what happened on 9/11/01 was a “Big Lie”, that was so easily perpetrated on a fearful, gullible and mainstream media-saturated public that was very willing to suspend their critical thinking skills and throw their trust onto authority figures that would tell them what they were supposed to believe, even if it was contrary to what they actually saw with their own eyes. Unfortunately, those pseudo-authority figures that have the power to dominate the media, also have a long history of being serial liars - and they have hidden ulterior motives and a willing mainstream media machine on which to perpetuate the lies.

Millions of clear-headed people all over the world have gradually begun to disbelieve the Big Lies about 9/11 and have started to pay attention to the evidence that disproves the lies, even though they are big ones. The truth has a way of getting out - albeit usually too slowly - and thus these truth-seekers have seen through the propaganda that launched and perpetuated the lies. These clear-headed folks, with the unassailably truthful facts on their sides - all easily provable in a court of law - are naturally wondering what is going on with the perpetuation of the White House 9/11 Myths, and why has the truth been forbidden to be spoken of in average newspapers and media outlets like the ones in my home town?

Billions have seen the suffering, despair and slaughter of innocent Muslim women, children and old men that have been driven from their homes by US soldiers and their lethal high-tech weaponry.

Observers with open eyes and open hearts have seen the rape, pillage, plunder, deaths and decapitations (documented following US drone strikes and mortar attacks) of innocents, families, tribes, cultures, societies, religious sects and infrastructure, predictably provoking violent reprisals (including retaliatory beheadings) from justifiably angry victim-members of the invaded homeland who naturally desire revenge and retaliation against the homicidal “christian” invaders and occupiers that drew “first blood”.

Qui Bono (Who Benefitted)?

Many observers know the names of the military, economic, corporate and political entities that were the beneficiaries from the post-9/11 wars. Those wars lavishly enriched them all, but it was at the expense of the doomed, deceived and psychologically deadened boots on the ground that did the dirty work for the perpetrators, all of whom were safely back in America orchestrating the chaos.

Many of us know the names of the war-profiteering oil cartels, weapons manufacturers, gun runners, the rent-a-mercenary corporations and all the other multinational and American corporations that enjoyed huge stock market gains back then - not just from the wars but also from the rumors of war - again at the expense of the soldiers and the deceived and pseudo-patriotic citizens watching the exciting carnage on TV.

The American Empire, the Pentagon, Full Spectrum Domination, "The New Pearl Harbor" and "Corporate Personhood"

A few observers also saw the connections between the pro-corporate, proto-fascist think tanks of the past few decades that include this short list of easily recognizable NeoConservative groups: Heritage Foundation, American Enterprise Institute, American Conservative Union, Americans for Tax Reform, American Legislative Exchange Council, American Family Association, the Chamber of Commerce, Christian Coalition of America, Club for Growth, Eagle Forum, Family Research Council, National Taxpayers Union, the various pro-Israel lobby groups, among about 800 others. And, of course, neither the Republican Party nor the Democratic Party are innocent in the active participation in the post-9/11 war-mongering activities.

Full Spectrum Domination for the US, Facilitated by a "New Pearl Harbor"

The leaders of the think tanks represented by the above short list seem to be peopled largely by draft-dodging Chicken Hawk insiders from the Cheney/Bush administration - that are consistently pushing for American military and economic hegemony abroad. The type of hegemony is secretly called "Full Spectrum Domination", which seems to be the operating principle that every Pentagon subsidiary endorses and which is pushed by every talking head retired general on Fox TV that has undeclared financial ties to the weapons industry that will automatically prosper in any perpetual war or "rumor of war" scenario.

Many of the Cheney-Bush insiders that gained tremendous political power after the stolen election in 2000 were members or had close connections to the nefarious Project for the New American Century - PNAC - that published in its manifesto "Creating Tomorrow's

Dominant Force” exactly one year prior to 9/11/01. The following indicting sentence from their manifesto reveals its intent: **“the process of transformation (i.e., achieving full spectrum planetary dominance by the US military), even if it brings revolutionary change, is likely to be a long one, absent some catastrophic and catalyzing event--like a new Pearl Harbor”**. It doesn’t take a genius to decide what group should be at the top of the list when the international war crimes tribunal starts to subpoena people to testify.

Interested in knowing who are the folks from PNAC? Immediately below, Pilots for 911 Truth has provided us with a list of the operatives that deserve to have their day in court to clear their names. They will have some pretty tough explaining to do. Check [this](#) out for much more. Here is the short list:

Dick Cheney, Donald Rumsfeld, Paul Wolfowitz, John Bolton, Scooter Libby, Richard Armitage, Richard Perle, Dov Zakheim, Gary Bauer, William Kristol, William Bennett, Norman Podhoretz, Jeanne Kirkpatrick, James Woolsey, Robert Bork’s daughter Ellen, Charles Krauthammer, Jeb Bush, Steve Forbes, Rudy Boschwitz and Vin Weber. No progressives were members of this NeoConservative think tank. (You can see the rest of the list of Republican members [here](#)).

Fair-minded readers will agree that it is extremely important that voting Americans be mindful that every future election will be targeted by the NeoConservative 9/11 planners (including the old members of the PNAC noted above) that continue to actively work to achieve and maintain not only foreign, but also domestic full spectrum domination in the White House, the Supreme Court, the Senate and the House of Representatives as well as in all the state legislatures.

Most of PNAC’s blind supporters (mostly GOP voters) happen to be pro-war, climate-change deniers, supporters of polluting corporations (that they probably own stock in) and are quite willing to risk the destruction of the planet if profits can be made - thus ignoring the suffering of the “non-believers” whom the radical religious right-wing truly believe will be “left behind” to suffer and burn after the “Rapture” lifts the true believers to heaven.

It doesn't look good for democracy if punitive, compassionless politicians and their cunning psychopathic corporate paymasters are to gain total control in what is shaping up to be a rolling, coup d'etat that was dramatically facilitated by the 2016 election of the sociopathic, historically-illiterate Donald J. Trump. (Recall that sociopathic, non-human corporations were deemed by the Supreme Court to have the same rights and privileges of actual persons - but few of the responsibilities - in the Citizens United vs. the FEC ruling in 2010.

9/11 Truth-seekers and Many Eye-Witnesses are Willing and Eager to Testify Before an International Criminal Court

Many of the members of the 911 Truth-seeking groups listed in paragraph one above are articulate, highly intelligent, scientifically and historically astute, very professional, and are not totally unselfish in their concern over the future of America and the earth. They want a truly independent commission with subpoena power to get to the bottom of what really happened on 9/11/01.

A multitude of experts are ready to be subpoenaed and to testify about the science of controlled demolition, the impossibility of office fires or even jet plane impacts in bringing down massively steel-reinforced concrete skyscrapers and the impossibility of amateur Cessna pilots flying commercial jets, much less guiding them into buildings at high speed.

Hundreds of well-informed eye-witnesses are ready to testify about the multiple explosions that they heard both prior to the plane's impacts into the two twin towers and also the multiple explosions just prior to the freefall collapse of each of the three skyscrapers, 1, 2 and 7 as the disintegrated into fine powder and fell directly into their footprints in less than 12 seconds.

Three thousand professional architects and engineers who know everything there is to know about the construction and demolition of high-rise, steel-reinforced skyscrapers maintain a comprehensive website. (Google it at www.ae911truth.org for everything one needs to know about what really happened on 9/11/01.) These professionals are willing to testify about the robust construction of the three over-engineered WTC towers that were each designed to withstand jet airliner impacts and office fires without falling down. These professionals will testify about the impossibility of the absurd official Cheney/Bush White House "pancake theory" and the fact that the ONLY WAY to bring down steel-reinforced skyscrapers is by controlled demolition by highly trained teams of demolition experts.

Professionals with various areas of expertise are ready to testify to the impossibility of a 100,000 pound aluminum commercial jet with a 124 foot wing-span and 44 foot high tail section disappearing into the Pentagon through a 16-foot diameter hole in its outer wall, leaving no debris on the unscathed lawn outside the wall. These professionals are especially eager to question the total disappearance of the two virtually indestructible titanium engines that left no holes and broke no windows in the Pentagon's outer ring. And they will question why the 80+ video-cameras all around the Pentagon were confiscated immediately by the FBI and still have not been released to the public. The obvious conclusion: no 757 hit the Pentagon; therefore a remote-controlled military missile likely did the damage.

Experienced pilots and on-the-ground eyewitnesses are ready to testify about the impossibility of a commercial jet disappearing into a 15 foot-wide smoking slit at Shanksville, PA, with no plane parts, no debris, no luggage, no body parts, and no frantic search and rescue at the site, proving that no jet plane crash had occurred there, contrary to what was portrayed in the fictitious Hollywood movie, Flight 93. The Shanksville site now has a national monument that is obviously designed to perpetuate the Big Lie.

Scientists and communication experts are ready to testify to the fact that the cell phone calls from flight 93 were hoaxes, only partly because it was impossible to have made cell phone calls from a 2001 phone from a jet traveling 500 miles per hour at 30,000 feet.

Patriotic 9/11 truth-tellers - typically unfairly painted as being unpatriotic - have been marginalized as "conspiracy theorists" by truth-obscurers in order to discredit and demean them and their unwelcome message.

Being "Good Germans" Means Believing in the Validity of "My Country, Right or Wrong" Patriotism

The ethically invalid belief in "my country, right or wrong" patriotism - a common American trait - was also fervently believed by most patriotic "Good Germans" during Hitler's 12 year-long "Thousand-year Reich". Not wanting to come face-to-face with unpleasant truths about the criminality of police state fascism, most Good Germans (essentially 100% "christians"), contrary to what Jesus would have wanted them to do, (i.e., resist tyranny, but by nonviolent means). Unfortunately, most Good German "christians" preferred to maintain their silence (and ignorance) about what the Nazis were doing in their name.

Most Good German Christians did not want to know about the atrocities that their soldiers were committing in the invaded and occupied territories during WWII, and they felt threatened by the whistle-blowers who were asking questions. Thus most Good Germans stayed in denial about the Jewish Holocaust and the death camps, despite the cattle car caravans that always came back empty of their human cargo. They stayed silent about the over-powering stench of burning flesh that was so prominent in the smoke that was coming out of the barbed-wire enclosed extermination camp stacks.

Those who questioned Hitler's white supremacist henchmen about the "theories" of mass exterminations might have been labeled as "conspiracy theorists" if the Gestapo had ever thought of such a cunning concept.

The CIA's Invention of the "Conspiracy Theorist" Smear Campaign to Discredit Dissenters

In his 2013 book, *Conspiracy Theory in America*, author Lance deHaven-Smith traced the term "conspiracy theory" back to a CIA propaganda campaign that was designed to discredit doubters of the Warren Commission's fake search into who assassinated President John F. Kennedy in Dallas, Texas. The use of the pejorative term is obviously a tactic to shame and humiliate those who saw through the ulterior motives of the commission, and thus effectively censor out or even banish anyone who questions an official government account.

The Warren Commission, to its eternal shame, ignored the testimony of a multitude of eye witnesses to the crime that proved that there were shooters both behind and in front of Kennedy's motorcade. Many witnesses, none of whom were called to testify, heard shots coming from the grassy knoll in front of the motorcade. Their testimony was unwanted and therefore ignored. The "Lone Gunman" account was preferred by the true orchestrators of the Kennedy assassination as being easier to explain and defend even though it was just another Big Lie that was designed to obfuscate the truth.

One of those 1963 eye-witnesses in Dallas, Texas was an emergency room physician that attended Kennedy's dying body. He would have testified to the commission that there was a tiny entry wound in JFK's throat as well as a large exit wound that blew off the back of his head (depositing a chunk of his brain on the trunk of the limousine - which Jackie Kennedy was filmed retrieving in the famous film of the assassination by Abraham Zapruder).

Anyone with discerning eyes who watched the film saw JFK's head being thrown violently backwards from the head shot, thus proving that that shot had come from the front (as did the neck shot), thus disproving the single shooter theory and proving that the assassination of JFK was indeed a conspiracy (i.e., more than one entity plotting the evil deed).

Hence the CIA's cunning ploy (frequently using the pejorative "conspiracy theorist" term) to discredit those who had taken on as their duty to question what was indeed another of the Big Lies that regularly come from political entities that want our trust and votes. Big Lies also come in advertising campaigns from corporations that want our trust and money; from government and military entities that want our taxes, trust and allegiance; and from the for-profit media entities that want our trust and purchases. All those entities were somehow involved in the crime - and the cover-up - of the events of 9/11/01.

Both the Warren Commission and the 9/11 Commission were, in effect, saying:

“Hey you American idiots, listen up. How many times do we have to tell you that this case is closed? We got our crazed lone gunmen; now just be obedient Good Americans and resume your brain-numbing shopping, amusements, celebrity worship and vegetating on the couch cheering for your favorite professional football, baseball, hockey or basketball team.

“Just move on. There’s nothing to see here.”
