

The FDA Has Proved Itself to be a Totally Corrupt and Criminal Organization

As I predicted, the corrupt US Food & Drug Administration (FDA), allegedly a regulatory agency but in actuality an agent for Big Pharma and agri-business, has, according to news reports, given final approval to Pfizer’s Covid “vaccine.” (Why only Pfizer’s? Is there favoritism at the FDA?) The [FDA](#) congratulates itself declaring the “vaccine” a “milestone as we continue to battle the COVID-19 pandemic.”

In one of the worse and most transparent lies ever told by a US government agency, the FDA said:

“The FDA’s approval of this vaccine is a milestone as we continue to battle the COVID-19 pandemic. While this and other vaccines have met the FDA’s rigorous, scientific standards for emergency use authorization, as the first FDA-approved COVID-19 vaccine, the public can be very confident that this vaccine meets the high standards for safety, effectiveness, and manufacturing quality the FDA requires of an approved product,” said Acting FDA Commissioner Janet Woodcock, M.D. “While millions of people have already safely received COVID-19 vaccines, we recognize that for some, the FDA approval of a vaccine may now instill additional confidence to get vaccinated. Today’s milestone puts us one step closer to altering the course of this pandemic in the U.S.”

Notice the last two sentences to which I added emphasis. The purpose of the approval is to convince those resisting inoculation with an extremely dangerous and totally ineffective “vaccine” to submit and take the shot.

As so many experts, men and women with scientific and medical knowledge far beyond what the FDA, CDC, NIH, WHO can muster, have stressed, the scientific evidence that does exist proves beyond all doubt that the mRNA vaccines fail to protect and actually enable the virus to escape the immune response, thus creating variants that infect the vaccinated. No evidence exists that supports the FDA’s claims.

Consider Commissioner Janet Woodcock’s claim that millions of people have already safely received Covid-19 vaccines. The official vaccine adverse reporting systems of the US, UK,

and EU as of mid-June, two months ago, report 22,821 vaccine-related deaths and 4,085,204 health injuries, some serious and permanent. Clearly, the vaccine was not safe for these 4,108,025 people. As it is known that only a small percentage of adverse vaccine reactions and deaths are reported, the actual number of people harmed by the vaccine is much larger. See [this](#).

Notice that the FDA gave a “safe” approval to a “vaccine” that official government databases for the US, EU, and UK show has killed as of last June 22,821 people and injured 4,085,204 people.

In its approval letter to Pfizer the FDA says that its analysis confirms that Pfizer’s “vaccine” is 95% effective. This statement is contradicted by all known evidence. From all over the world evidence is available that the majority of those in hospitals stricken with Covid are the fully vaccinated.

If the “vaccine” is 95% effective how is it possible that Iceland with a 95% vaccination rate has a massive outbreak of Covid? How is it possible that Israel, which almost exclusively used Pfizer vaccine, reports from the Israeli health ministry that at the beginning of July the effectiveness of the Pfizer “vaccine” was 64% and fell to 39% by the end of July? See [this](#).

The utterly corrupt FDA pulled 95% out of its ass.

Nowhere in the FDA’s letter of approval is there any mention that the vaccine produces Antibody Dependent Enhancement (ADE). ADE is a mechanism that increases the ability of a virus to enter cells and cause a worsening of the disease. The evidence is clear that the Pfizer “vaccine” and the rest of the mRNA “vaccines” produce virus variants that cannot be controlled by vaccines. See [this](#).

It is totally and illegally impossible for any vaccine that has this result ever under any conditions being approved.

Why has the FDA broken the law? What is the FDA’s real agenda. It most certainly is not public health.

Why does the FDA want to destroy the health of all Americans and all others in the world? What is the real agenda?

What is really going on here? Incompetence alone cannot be the answer. The incompetence required is too vast to be possible especially when from all over the world the most distinguished scientists and medical experts of our time are issuing alarms that are censored by “official health authorities” and the media. See [this](#). The corrupt dumbshits doing the censoring are not capable of carrying the books for the real experts who are being silenced.

Clearly, we are being set up for something very bad.

Robert F. Kennedy Jr. explains another aspect of the FDA’s deception of the people, see [this](#).
