

Five Canadian Teenagers Ages 17-19 Died Suddenly in Their Sleep in the Past Month...

This is a public health emergency!

This is starting to spiral out of control:

- On February 6, 2023, 17 year old William Caron-Cabrera (Laval, QC) died in his sleep following a cardiac arrest ([click here](#)).
- On February 4, 2023, 17 year old Tyree Rogers (Chestermere, AB) died in his sleep ([click here](#)).
- On January 11, 2023, 17 year old Noah Bouzane (Paradise, NL) died in his sleep ([click here](#)).
- On January 6, 2023, 19 year old Jayden Lopez (Edmonton, AB) died in his sleep ([click here](#)).
- On December 30, 2022, 18 year old Theo James Gibbs (Regina, SK) died in his sleep ([click here](#)).

All deaths occurred suddenly and unexpectedly during sleep:

Les Loups de l'école secondaire Curé-Antoine-Labelle sont en deuil. Ils ont annoncé le décès leur joueur William Caron-Cabrera plus tôt dans la semaine du 6 février.

Celui-ci était en cinquième secondaire et devait poursuivre son parcours sportif avec le Campus Notre-Dame-de-Foy (CNDF) au niveau collégial. Le demi défensif est aussi passé par les équipes du Québec et les Vikings de Laval-Nord.

«C'est avec tristesse que nous avons appris le décès de l'un des nôtres, peut-on lire sur la page Facebook de l'équipe lavalloise. William [...] venait de terminer sa cinquième saison avec les Loups. Nos pensées les plus sincères vont à sa famille et ses proches.»

Selon les informations émises par le Service de police de Laval, celui-ci serait décédé dans son sommeil à la suite d'un arrêt cardiaque. La cause ne serait ni suspecte, aucunement criminelle, ni dû à un suicide.

Marley Neville is organizing this fundraiser on behalf of Kandyce Nordli.

As many of you may know Kandyce, Karl, Sydni and Myah have just experienced the unimaginable, the unexpected loss of their beloved son and brother Tyree Rogers. There are no words to describe the grief this family is experiencing.

On Saturday February 4th a police officer knocked on Kandyce and Karl's door to notify them their son Tyree had passed away, no parent should ever have to hear those words!, Tyree had been staying at his friends house and passed away while he slept. The police officer drove Kandyce and Karl to the friends home where they were able to hold Ty, hug him and tell him they loved him. The cause of Tyree's passing is yet to be determined. Tyree

@DanaMetcalf5

My friend has lost his 17 year old son who died in his sleep here in Newfoundland. I'm not sure how much more death we can tolerate from these MRNA kill shots. We've had enough and justice will be had.

Jayden Lopez Death – A longtime Edmonton, Alberta, Canada resident Jayden Lopez has passed away suddenly. He died in his sleep at home on January 6, 2023, at the young age of 19. Jayden Lopez was announced dead on Sunday, the 8th of January 2022.

Theo Gibbs: Athlete, 18, who had big baseball dreams **dies unexpectedly in sleep**, GoFundMe donors help family

By Shadiya Zubair

Updated On : 21:16 PST, Jan 17, 2023

GoFundMe News

Theo Gibbs, 18, aimed of playing his favorite sport baseball at the college level (GoFundMe)

REGINA, SASKATCHEWAN: An 18-year-old athlete from Canada unexpectedly died in his sleep. Theo Gibbs, who attended Lassen Community College with the aim of playing his favorite sport at the college level died in his sleep on Friday, December 30, while he was at his family's home in Regina, Saskatchewan. Before transferring to Lassen

Latest COVID-19 Vaccine uptake in this age group:

Table 2. Cumulative number and percent of people in Canada who have received a COVID-19 vaccine by age group and vaccination status, January 29, 2023

Age group (years)	At least 1 dose	Primary series completed	In the last 6 months, primary series completed or booster dose received
0 to 4	9.5% (178,010)	4.8% (90,889)	4.8% (90,481)
5 to 11	52.3% (1,517,838)	40.8% (1,183,956)	10.0% (290,426)
12 to 17	83.9% (2,120,607)	79.7% (2,015,082)	10.4% (263,873)
18 to 29	84.9% (5,181,592)	83.1% (4,065,615)	9.2% (561,981)

My take...

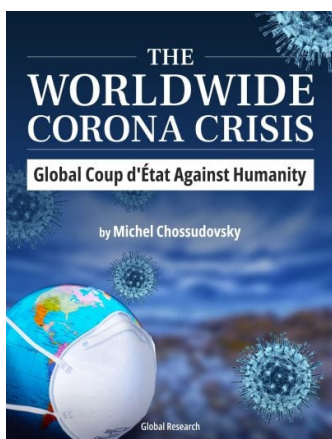

Something is very wrong here. Healthy teenagers ages 17-19 shouldn't die in their sleep. And certainly not at this high frequency.

Denmark, Sweden, Finland and Norway have halted booster shots in healthy teenagers under 18. Canada must do the same. Immediately.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
