Florida Surgeon General Dr. Joseph Ladapo said Wednesday that the Sunshine State will be the first state to officially recommend against COVID-19 boosters for those under age 65.

The state, in its guidance, discourages use of the booster for those under age 65 because the new U.S. Food and Drug Administration boosters lack a human clinical trial and evidence of their efficiency or benefits.

“Once again, the federal government is failing Americans by refusing to be honest about the risks and not providing sufficient clinical evidence when it comes to these COVID-19 mRNA shots, especially with how widespread immunity is now,” Ladapo said in a news release. “In Florida, we will always use common sense and protect the rights and liberties of Floridians, including the right to accurate information.”

In May, Gov. Ron DeSantis signed a ban on vaccine passports, mask and vaccine requirements in Florida schools and businesses and prohibited employers from hiring or firing workers based on vaccination status.

“I will not stand by and let the FDA and CDC use healthy Floridians as guinea pigs for new booster shots that have not been proven to be safe or effective,” DeSantis said in a news release. “Once again, Florida is the first state in the nation to stand up and provide guidance based on truth, not Washington edicts.”

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
