

# Food - Wars and Pharma - Trailblazing the Way to Human Demise

By [Peter Koenig](#)

Global Research, July 14, 2017

Theme: [Biotechnology and GMO](#), [Law and Justice](#), [Science and Medicine](#)

*“What the Health’ - is the groundbreaking follow-up film from the creators of the award-winning documentary Cowspiracy. The film follows intrepid filmmaker **Kip Andersen** as he uncovers the secret to preventing and even reversing chronic diseases - and investigates why the nation’s leading health organizations don’t want us to know about it. With heart disease and cancer, the leading causes of death in America, and diabetes at an all-time high, the film reveals possibly the largest health cover-up of our time.”*

This is the introduction to the trailer of one of two new documentary, “What the Health”, and “Food Matters”, purportedly showing how the food and pharma industries are conspiring to keep us lingering along sick and unhappy, drug and pharma addicts, consuming more and more unhealthy food saturated with sugar and fat, to lead to increasing pharma- and drug consumption - a spiral ending at the graveyard.

## **What the Health - trailer (2 min)**

## **Food Matters - trailer (3 min)**

What do these food-war documentaries have in common with the holocaust-type wars and destruction in Iraq and Syria; the devastation of Libya, Afghanistan, Ukraine, the chaos in Sudan, Somalia, all of Central Africa, the destabilization and attempted destabilization of Pakistan, Venezuela, Iran, Ecuador, Bolivia, all of Central America, the Philippines and countless other countries that could make up an entire United Nations by themselves?

Russia and China, are of course, also in the crosshairs of the evil empire. To achieve Full Spectrum Dominance as per the neocons bible, the PNAC (Plan for a New American Century), all opposition to the New World Order has to be tamed, come hell or high water - or even a nuclear holocaust.

These wars have everything in common. Everything. They go all hand-in-hand. They want humanity subjugated, suffering from diabetes, cancer and heart diseases, and dying at an increasing pace to have a real impact on population reduction.

Are we blind? Why are we still jumping up and down in front of our TV, in our comfortable armchairs, watching the evening news - watching how countries are destroyed - in far-away places, gobbling up the lies of the commentators - cursing about Venezuela, Russia, Iran and even China, because that’s what the news commentators teaches us to do - why?

Well, this killing is not for us, we are safe, we are protected by our democratic governments

military and police, they take good care of us – so we keep swallowing heaps of fat-dripping cheeseburgers, French fries, ice creams, and mega-liters of sugar-loaded sodas.

The food war like the pharmaceutical war fit perfectly the pattern of the Dark State that masterminds Washington. They are joining the war of bombs, canons and guns. These wars show clearly that there are deeper and darker forces at play than we realize. The world population needs to be reduced drastically that the elite can live happily with the limited resources our planet will leave behind. Kissinger and the Rockefeller sponsored Bilderbergers have been advocating this for a long time. We pay no attention. They eat well. Look how old they become? That's not by accident. Not only that, a smaller population is easier managed, enslaved than a large one.

Remember Kissinger's infamous saying in the early seventies:

“Who controls food, controls the people, who controls energy controls entire continents, and who controls money controls the world”.

Kissinger is just a spokesman for the Deep Dark State. A patsy. A convinced patsy and a well remunerated patsy. He has conveniently stayed in the background for decades, since Laos, Vietnam and Chile. But, lately he is coming to the fore again. As a chief Zionist, he is a welcome advisor for the neocons, especially as they are strategizing for their last blow.

Why are we blinded?

None of the people in the two trailers, the people who spoke up, scientists, who seem to be so awake – none of them mentioned the end-goal of the elite as responsible for our unhealthy, outright killer food and equally killer medication intake, what we eat, drink, swallow as palliatives for our pains — poisoned by toxins, by GMOs, by fat... you name it.

Do they not know? – Do they not know what could in a very immediate future be implanted in GMOs as long-term debilitating diseases, that will reduce the function of our brains, our vital organs, liver, kidneys, pancreas, and finally our heart – but not before we have tried hard with medication and drugs – and our hard-earned money – to stay alive, albeit miserable, but alive – until the stoppage of the heart does us part. Literally and figuratively. Do they really not know? Or do they not dare to tell?

The fear factor. It always reminds of Greece. Everybody on this planet who has a half-wit brain, knows that the destruction of Greece is purposeful, and not recoverable, never as part of the EU and the Euro. Everybody knows that. Tsipras and his entourage stooges know that they are complicit in not only destroying their country, but also the lives of their countrymen.

Yet, nobody says anything. Tsipras knows, he could stop it all by just stepping out of this criminal organization called EU with their fraudulent currency, called euro. He doesn't dare. Fear. Because he may have been told by the dark masters of the universe what may happen to him, his family, if he doesn't behave – or worse, if he talks? – Yes, we know what happened to many of those who haven't heeded the warnings of the dark manipulators.

The same about the food and pharma industry.

Do these scientists who warn us really believe it's the fast-food and pharma lobby alone behind it all? Do they not suspect more sinister forces behind this human calamity? Do they not see the connection between bombs, food and pharma? - Have they not read Orwell's 1984 - which is being played out in our full sight?

The food and pharma lobby are semi-gods, accompanying the war god, and closely modeled according to the deep dark great god of Satan. They follow his dictum. They are agreed patsies who cash in huge profits on the way to the human graveyard. Population control by government repression, transiting to population reduction by food, wars, drugs, by implanted diseases, genetic diseases... and since lately, by forcefully imposed mass vaccinations.

The Macrons and Gentilonis of this world are the French and Italian 'trailblazers' to show the rest of the western world how to deal with a resisting population. It's already happening in Italy. In France, the law is already prepared, waiting to be approved by Macron's parliamentary majority after the summer vacation. To most awakened people it's clear - you can put anything into a vaccine - as well as into a genetically modified food crop - long-drawn-out diseases, genetic diseases that will be difficult to trace back to vaccines or GMOs generations from now. And if - it will be too late.

And we keep having no clue. And if we had a clue, we have lost the sense of solidarity. Without solidarity, without joining hands with other resisters, friends and comrades, against this miserable neocon NWO lot, we are lost. And they know it. That's why they keep dividing us, with markets and with greed. Be aware and stop falling into the trap. Reach out in solidarity, to others who want to resist.

People have always been lied to by the masters, but the extent of deceit planted upon us day after day, hour after hour, has never been as strong and as intense and Machiavellian as today - when we are, as I said in an earlier article - probably in the '[final phase](#)'. The recent G20 summit in Hamburg was just a trial balloon - taking the temperature of the resisters, a benign beginning of the [horrors that may come](#).

**Peter Koenig** is an economist and geopolitical analyst. He is also a former World Bank staff and worked extensively around the world in the fields of environment and water resources. He lectures at universities in the US, Europe and South America. He writes regularly for Global Research, ICH, RT, Sputnik, PressTV, The 4th Media (China), TeleSUR, The Vineyard of The Saker Blog, and other internet sites. He is the author of [Implosion - An Economic Thriller about War, Environmental Destruction and Corporate Greed](#) - fiction based on facts and on 30 years of World Bank experience around the globe. He is also a co-author of [The World Order and Revolution! - Essays from the Resistance](#).
