

Five E-Books Now Available on Global Research!

By [The Global Research Team](#)

Global Research, July 14, 2022

Global Research is glad to announce our publication of five e-Books.

They are made available free of charge with a view to reaching out to people worldwide.

We are envisaging a PDF version of these e-Books that can be downloaded straight to your devices; in the meantime, you can read them on our website, www.globalresearch.ca. They are accessible in 51 languages by activating the Translate Website drop down menu on the top banner of our homepage (desktop version only).

Global WAR-NING! Geoengineering Is Wrecking Our Planet and Humanity

Edited by Prof. Claudia von Werlhof

After more than one year of “lockdowns” all over the world, the issue of “global warming” and “climate change” is back on the table of the international debate.

It seems that natural catastrophes have started to surround us everywhere - from the animal world next to us as well as from the sky above us. Is “nature” the enemy that has to be combatted today, be it by vaccinating humanity against the coronavirus that allegedly jumped out of the wilderness attacking us, be it by tearing down industrial production and consumption in order to avoid the alleged greenhouse gas CO₂ emissions, being officially identified as the sole culprit of a so-called global warming? Or be it by applying methods of an alleged civil “geoengineering” against an ongoing climate change that seems to threaten

the world?

The 2020-22 Worldwide Corona Crisis: Destroying Civil Society, Engineered Economic Depression, Global Coup d'État and the "Great Reset"

By Prof. Michel Chossudovsky

In the course of the last 22 months starting in early January 2020, I have analyzed almost on a daily basis the timeline and evolution of the COVID crisis. From the very outset in January 2020, people were led to believe and accept the existence of a rapidly progressing and dangerous epidemic.

I suggest you first read the Highlights, the Preface and Introduction before proceeding with Chapters II through XIII.

Each of the thirteen chapters provides factual information as well as analysis on the following topics:

- What Is COVID-19, what is SARS-CoV-2, how is it identified, how is it estimated?
- The timeline and historical evolution of the Corona Crisis,
- The devastating economic and financial impacts,
- The enrichment of a social minority of billionaires,
- Social engineering and the destabilization of the institutions of civil society
- How the lockdown policies trigger unemployment and mass poverty Worldwide,
- The devastating impacts on mental health.

The US-NATO War of Aggression Against Yugoslavia

By Prof. Michel Chossudovsky

This e-Book is a retrospect. It takes the reader back in history. Several of the texts were written at the height of 1999 bombing campaign or shortly thereafter.

Twenty-two years ago in the early hours of March 24, 1999, NATO began the bombing of the Federal Republic of Yugoslavia. "The operation was code-named "Allied Force " - a cold, uninspired and perfectly descriptive moniker" according to Nebosja Malic.

In 1999, when Belgrade was bombed, the children's hospital was the object of air attacks. It had been singled out by military planners as a strategic target.

NATO stated that to "save the lives" of the newly borne, they did not bomb the section of the hospital where the babies were residing, instead they targeted the building which housed the power generator, which meant no more power for the incubators. What this meant that was that the entire hospital was for all sakes and purposes destroyed and many of the children died.

I visited that hospital, one year after the bombing in June 2000 and saw with my own eyes how they did it with utmost accuracy. These are war crimes using NATO's so-called smart bombs.

Our Species Is Being Genetically Modified. Are We Witnessing Humanity’s March Toward Extinction? Viruses Are Our Friends, Not Our Foes

By David Skripac

When the alleged “pandemic” was declared in March of 2020, I, like millions of other people around the world, was paying close attention to politicians and public health officials as well as to bureaucrats from the Rockefeller Foundation-created World Health Organization (WHO), all of whom announced, in almost perfect synchronicity, “This is the new normal until a vaccine can be developed.”

How odd, I thought. Why is it that the immediate default position is a vaccine? And why is it that a single coronavirus is being blamed for causing people to fall ill in every corner of the earth? Could something else—perhaps one or more toxins in the environment—be the real culprit?

History of World War II: Operation Barbarossa, the Allied Firebombing of German Cities and Japan's Early Conquests

By Shane Quinn

The first two chapters focus on German preparations as they geared up to launch their 1941 invasion of the Soviet Union, called Operation Barbarossa, which began eight decades ago. It was named after King Frederick Barbarossa, a Prussian emperor who in the 12th century had waged war against the Slavic peoples. Analysed also in the opening two chapters are the Soviet Union's preparations for a conflict with Nazi Germany.

The remaining chapters focus for the large part on the fighting itself, as the Nazis and their Axis allies, the Romanians and Finns at first, swarmed across Soviet frontiers in the early hours of 22 June 1941. The German-led invasion of the USSR was the largest military offensive in history, consisting of almost four million invading troops. Its outcome would decide whether the post-World War II landscape comprised of an American-German dominated globe, or an American-Soviet dominated globe. The Nazi-Soviet war was, as a consequence, a crucial event in modern history and its result was felt for decades afterward and, indeed, to the present day.
