As war drums beat across Africa, as China cleans up after devastating floods, as Maui searches remains, a tsunami is scheduled to hit Japan Tuesday with predictions of 20 inches of rain in 24 hours. Climate is changing patterns both naturally and thru geoengineering with bomb like consequences. And Niger's military coup has sparked a western reaction - WAR!

It is playing out like a 4th of July fireworks display with the finale being a ratcheted torrent of bombs bursting in air! Ordinary people are on edge, their tongues quick to lash out with anger and even rage.

Are we in the midst of a geoengineered tit-for-tat war?

The media overwhelmingly claim the Maui fire was caused by climate change. Why? Because the topsy-turvydom world claims everything nefarious is now caused by climate change. Vax deaths are because of - climate change. Plane crashes are - climate change. Citywide chaos is caused by - climate change. All because The Media says so.

The concept that a hurricane south of Hawaii caused the 'climate change' fires in Maui is preposterous! According to a past weather graph, the temperatures in Maui were normal, peaking at 88', the wind speed was NE peaking at 25 mph at noon. This is normal. Hurricane Dora never made landfall and was tracked 500 miles 'south' of Hawaii amidst Northeasterly winds blowing southwest. Maui is north of Hawaii.

A normal 'fast fire' can travel up to 14 mph. The Maui fire was stated to be traveling at 60 mph.

According to government officials, the vast majority of the recent fires in Greece and Italy

were arson. These coordinated blazes also spread across Croatia, Portugal, Spain, and Algeria. In each scenario, the respective governments blamed **'arson terrorists'**. **NOT Climate Change!**

Therefore, what if Hawaii was a tit-for-tat weaponized reaction to the China flooding? Or, what if it was a US military exercise using **Directed Energy Lasers** - gone awry...?

Directed Energy Weapons (DEW) use electromagnetic energy via energy lasers and high power microwave rays. Sonar is used to hone in on a target. They are being developed and/or are already in use by: US, China, Russia, India, Pakistan, Japan, Korea, UK, Germany, France, Iran and Turkey. Their impact is somewhat akin to an atomic bomb.

Lockheed Martin:

"At sea, in the air and on the ground, Lockheed Martin is developing laser weapon systems ready to defend U.S. and allied forces. Combined with our platform integration expertise, these systems are designed to defeat a growing range of threats to military forces and infrastructure across all domains."

Lockheed, Northrop, Raytheon are in various stages of testing Directed Energy Laser Weapons. It is NOT a conspiracy. Their websites are rife with bravado regarding their ability to target our 'enemies'. Certainly, it would not be the first time the US military 'accidentally' destroyed a city/town.

The 2010 earthquake in Haiti was considered by *'conspiracy theorists'* to have been caused by a HAARP experiment causing tectonic plate shifts. The recent earthquake in Turkey was a 'threat' to Erdogan to obey and abide by Western Cartels. OUR Government is a Conspiracy - incapable of providing anything remotely parallel to Truth.

The power and control these DEW weapons can yield is considered much more efficient than nuclear. Yet governments continue to parlay the effects of climate change as though the military industrial complex is nonexistent.

The Jet Stream: Jet streams are narrow bands of strong wind currents that occur in the upper atmosphere around 30,000 feet. The jet streams roughly follow the earth's rotation. The speed of rotation is fastest at the equator, and slows to zero at the north & south poles. Typically these air currents flow west to east and when cold air collides with warm air, the jet stream moves north or south creating curvature blips.

Jet streams cause changes in weather, affecting high and low pressure systems - and shaping the weather. Climate enthusiasts assert the opposite - that climate changes cause jet streams - a scientifically proven false assertion.

According to *Science Alert*, today jet streams are chaotic and undefinable. The current fragmentation of the jet streams are fueling catastrophic weather patterns. Scientists are baffled. As a result, they are calling for more geengineered manipulation - which will likely cause more chaos.

The flooding in China is damaging crops. The western media is fueling claims that China's flooding could result in Xi Jinping's government being blamed causing a collapse of faith in his power. And once again, the point of the accusation is to undermine Xi Jinping in order to insert a western proxy. The secondary point is the creation of a global food shortage.

The reality is that earth's weather is comprised of complex atmospheric and subsurface ecosystems that interact in a completed cycles.

Like a rain forest, if any singular interruption of the eco-balance occurs, the entire system begins a slow death. When we pound particles at CERN, seed clouds, manipulate climate, and block the sun, we are forever destroying the natural balance. And no amount of \$\$\$\$\$\$\$\$\$\$ will reverse the course SCIENCE has crippled.
