*Germany is again in the forefront in fighting the devastating, unjustified, illegal, economy-destructive, people debilitating and outright genocidal – Corona Measures. The **German COVID-19 Extra-Parliamentary Inquiry Committee - in German - ACU - German acronym for Ausserparlamentarischer Corona Untersuchungsausschuss** - (see diagram from ACU2020.org website, on the left) is planning to launch a Class Action Suit against not only governments and government officials, but specifically against the manufacturers of the infamous PCR test (PCR – Polymerase Chain Reaction – is a technique used to “amplify” small segments of DNA) which, according to honest virologists all over the world, is absolutely unsuitable for covid-19 testing. It has actually not even been licensed to carry out such tests.*

Nevertheless, the PCR test has been and is being touted and promoted by WHO – and by other leading health institutions in the western world, such as the US NIAID / NIH and CDC, as well as by researchers from the *German Center for Infection Research (DZIF) at Charité, Hospital, Berlin*. It was **Dr. Christian Drosten**, Director of the Institute of Virology at “Charité”, who propagated this test which eventually was taken over by the German respective Government and health authorities, who made it a mandatory panacea to test and count “cases”, mostly to manipulate statistics – which the media then uses to implant fear in the population.

Other countries followed similar instructions from their highest health authorities and used the test results for the same purpose – planting fear in the clueless population. The media never tell us, for example that the error rate of these tests, the so-called “positive negatives”, can be as high 50%. However, all “positives” are automatically absorbed into the “case” statistics. People get often tested several times and may also be reported several times.

That’s how the “case” rates can be manufactured and manipulated. FEAR is the Name of the Game. So that the governments are justified in closing their iron fists even stronger around your personal neck; and by cutting the countries’ economic lifeline – causing countless bankruptcies and unemployment in proportions never seen in modern history – and often deadly misery, famine and suicide.

The iron fist around the peoples’ throats include face mask, social distancing, work from home, semi- or full lockdowns, i.e. keeping people purposefully apart (the separate-to-conquer principle), discrimination against the elderly, who in their loneliness get depressed,

sick and may die earlier. Yes, elderly people, especially with co-morbidities are in a higher risk group, but in the same as with the common flu every year, which has never been a reason to discriminate them.

The result we are seeing already today. And the worst is yet to come. This fall and winter in the Global North the merging with flu and “covid” may spell even more disaster in data manipulative mastery, and consequential measures that may, wittingly or unwittingly be copied in the Global South, although the coming warmer summer climate would suggest the contrary. It’s a nasty and criminal Game that, if we don’t stop it, will not end soon.

Enough introduction. Listen for yourself what [Dr. Reiner Fuellmich](#), lawyer of ACU, has to say ([8-min video](#) below) about the Class Action Suit, and how it might bring these destructive measures to a halt and reverse them, by compensating the damaged people and small and medium size enterprises that had no choice but to declare bankruptcy and lay off their employees.

As Dr. Füllmich explains, this could happen with what he calls a BANG, if millions around the world join in the Class Action Law Suit. Since in Germany and other European countries, Class Action Suits are not well known, especially because they are complicated, lacking a similar legal basis they have in the US, this Class Action Suit would be filed in the US, representing the world population.
