New peace policy instead of NATO aggression

“Chancellor Angela Merkel is committing an irresponsible provocation, when, 75 years after the attack on the Soviet Union, she is sending the Bundeswehr to the Russian border,” said Sahra Wagenknecht, Chairman of DIE LINKE.

Wagenknecht further: “The federal government is playing with fire if they blindly support NATO’s aggressive game. A permanent presence of NATO combat troops on the Russian border is contrary to the existing agreements with Russia.

EU eastward expansion and the NATO troop parades are poison for peace and stability in Europe. The deployment of combat units of the Bundeswehr to the Russian border threatens the vital interests of the German population. The German Bundestag must debate it.”
