Dear readers,

As the saying goes, “knowledge is power.” The more informed we are the harder it becomes to deceive us.

From its inception in 2001, Global Research has established an extensive archive of news articles, in-depth reports and analysis on issues barely covered by the mainstream media. In an era of disinformation, our focus has essentially been to centre on the “unspoken truth”.

Global Research has established an international network of authors, scholars and investigative journalists. It counts among its regular contributors a number of prominent writers, researchers and academics as well as several promising young authors. We are deeply indebted to them for their tireless work.

We are currently facing an unprecedented threat to independent thought and freedom on the Internet. The ultimate goal is the silencing of any voice of opposition to the mainstream narrative. If these voices get silenced it will be too late, the lie will have defeated the truth.

We need your help to keep the independent voice alive! While our commitment is to offer our content free of charge, our survival nonetheless hinges upon continued voluntary contributions. Please consider becoming a member or making a donation to support us by clicking below:
