

## Don't Miss Out on Global Research Online e-Books!

By [The Global Research Team](#)

Global Research, November 13, 2024

In the past three years, we started our online e-Book project, which is a thematic compilation of articles published individually on the Global Research website.

Our online e-Books are our authors' comprehensive and elaborate analyses on a wide range of contentious issues and topics.

We undertake this endeavor with the objective of providing a safe and free online access to important information that would otherwise be censored by mainstream publications.

These e-Books can be read online and/or downloaded as PDF.

---

If you have the means, we encourage you to **support the online e-Book project** by making a donation to Global Research.

## 1. The US-NATO War of Aggression Against Yugoslavia

**Author:** Michel Chossudovsky

**Published:** March 2021

Twenty-four years ago in the early hours of March 24, 1999, NATO began the bombing of the Federal Republic of Yugoslavia. “The operation was code-named “Allied Force ” - a cold, uninspired and perfectly descriptive moniker” according to Nebosja Malic.

When Belgrade was bombed, the children’s hospital was the object of air attacks. It had been singled out by military planners as a strategic target.

NATO stated that to “save the lives” of the newly born, they did not bomb the section of the hospital where the babies were residing, instead they targeted the building which housed the power generator, which meant no more power for the incubators. What this meant was that the entire hospital was for all sakes and purposes destroyed and many of the children died.

I visited that hospital, one year after the bombing in June 2000 and saw with my own eyes how they did it with utmost accuracy. These are war crimes using NATO’s so-called smart bombs.

The causes and consequences of this war against the people of Yugoslavia have been the object of a vast media disinformation campaign, which has sought to camouflage NATO and US war crimes.

## 2. Global WAR-NING! Geoengineering Is Wrecking Our Planet and Humanity

**Authors:** Vilma Almendra, Rosalie Bertell, Michel Chossudovsky, Josefina Fraile, Elana Freeland, Claire Henrion, Maria Heibel, Conny Kadia, Linda Leblanc, Claudia von Werlhof

**Edited:** Prof. Claudia von Werlhof

**Published:** December 2021

After more than one year of “lockdowns” all over the world, the issue of “global warming” and “climate change” is back on the table of the international debate.

It seems that natural catastrophies have started to surround us everywhere - from the animal world next to us as well as from the sky above us. Is “nature” the enemy that has to be combatted today, be it by vaccinating humanity against the coronavirus that allegedly jumped out of the wilderness attacking us, be it by tearing down industrial production and consumption in order to avoid the alleged greenhouse gas CO<sub>2</sub> emissions, being officially identified as the sole culprit of a so-called global warming? Or be it by applying methods of an alleged civil “geoengineering” against an ongoing climate change that seems to threaten the world?

This is the best moment to publish our book “Global War-ning! Geoengineering Is Wrecking Our Planet and Humanity”. Our warning, however, is not a warning against CO<sub>2</sub> emissions that are the alleged reason for the warming of the planet. This is claimed from above, especially the Intergovernmental Panel on Climate Change (IPCC), from governments, the media, and the super rich, as well as from corrupted social movements everywhere (see Second Letter to Greta Thunberg, Annex).

We are, however, warning against the effects of a form of geoengineering that is not of civil, but of military origin, and a technology which alone is able to produce effects that appear as global warming, climate change, and much more, such as damage to the planet’s ozone layer (Werlhof in this vol.).

### **3. Our Species Is Being Genetically Modified. Are We Witnessing Humanity's March Toward Extinction? Viruses Are Our Friends, Not Our Foes**

**Author:** David Skripac

**Published:** December 2021

When the alleged “pandemic” was declared in March of 2020, I, like millions of other people around the world, was paying close attention to politicians and public health officials as well as to bureaucrats from the Rockefeller Foundation-created World Health Organization (WHO), all of whom announced, in almost perfect synchronicity, “This is the new normal until a vaccine can be developed.”

How odd, I thought. Why is it that the immediate default position is a vaccine? And why is it that a single coronavirus is being blamed for causing people to fall ill in every corner of the earth? Could something else—perhaps one or more toxins in the environment—be the real culprit?

My hope is that I have succeeded in deconstructing the official narrative: first, by explaining how viruses have been blanketing the earth with their genetic codes for eons, creating biodiversity and allowing for adaptation throughout the ecosystem, and, second, by pointing out the myriad ways reckless human behaviour is creating a real environmental catastrophe—not the carbon-is-the-culprit con, but actual pollution and deforestation and species extinction, to name a few such scourges. These real problems are being ignored by the fake “climate change” crowd, who hide their mercenary motives behind euphemisms like “sustainable development goals” (SDGs) and “environmental, social, and governance” benchmarks (ESGs) and florid phrases such as the “Great Reset” and “Build Back Better.”

## Food, Dependency & Dispossession Resisting the New World Order

Colin Todhunter

Cover art by Isa Esasi

### 4. Food, Dispossession and Dependency. Resisting the New World Order

**Author:** Colin Todhunter

**Published:** February 2022

The following text sets out some key current trends affecting food and agriculture and begins by looking at the Gates Foundation's promotion of a failing model of industrial, (GMO) chemical-intensive agriculture and the deleterious impacts it has on indigenous farming and farmers, human health, rural communities, agroecological systems and the environment.

Alternatives to this model are then discussed which focus on organic agriculture and specifically agroecology. However, there are barriers to implementing these solutions, not least the influence of global agri-capital in the form of agritech and agribusiness conglomerates which have captured key institutions.

The discussion then moves on to focus on the situation in India because that country's ongoing agrarian crisis and the farmers' struggle encapsulates what is at stake for the world.

Finally, it is argued that the COVID-19 'pandemic' is being used as cover to manage a crisis of capitalism and the restructuring of much of the global economy, including food and agriculture.

## 5. History of World War II: Operation Barbarossa, the Allied Firebombing of German Cities and Japan's Early Conquests

**Author:** Shane Quinn

**Published:** May 2022

The first two chapters focus on German preparations as they geared up to launch their 1941 invasion of the Soviet Union, called Operation Barbarossa, which began eight decades ago. It was named after King Frederick Barbarossa, a Prussian emperor who in the 12th century had waged war against the Slavic peoples. Analysed also in the opening two chapters are the Soviet Union's preparations for a conflict with Nazi Germany.

The remaining chapters focus for the large part on the fighting itself, as the Nazis and their Axis allies, the Romanians and Finns at first, swarmed across Soviet frontiers in the early hours of 22 June 1941. The German-led invasion of the USSR was the largest military offensive in history, consisting of almost four million invading troops. Its outcome would decide whether the post-World War II landscape comprised of an American-German dominated globe, or an American-Soviet dominated globe. The Nazi-Soviet war was, as a consequence, a crucial event in modern history and its result was felt for decades afterward and, indeed, to the present day.

## 6. The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

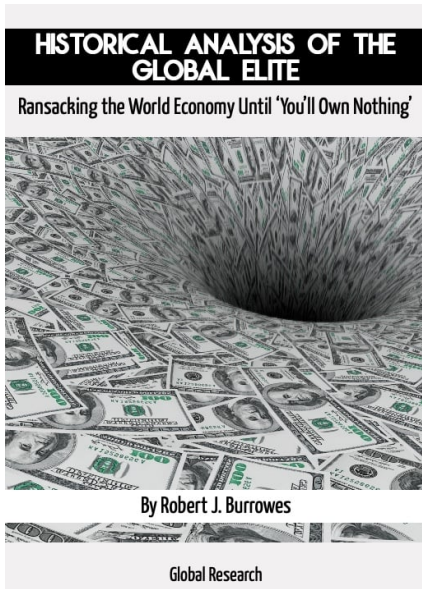

**Author:** Michel Chossudovsky

**Published:** August 2022

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

## 7. Historical Analysis of the Global Elite: Ransacking the World Economy Until 'You'll Own Nothing.'

**Author:** Robert J. Burrowes

**Published:** January 2023

Answering the question 'Why do human beings kill each other?' so that I might know how to end it, became my life passion.

With the benefit of more than 50 years of investigation behind me, when prominent global and national figures starting expressing concern about the threat supposedly posed by a novel coronavirus in early 2020, some brief research soon revealed that there was no documented scientific proof that a unique 'virus' had been isolated and it was just the latest medical hoax to be perpetrated on humanity. From there, it was an easy step to identify and comprehend the basic components of this latest (technocratic) stage in the Elite program to impose control over all humanity. Still, after nearly three years, it felt like it was time to spell out, more fully, how what is happening now had a 5,000 year 'lead time'. So this is my attempt to do so.

## 8. Sickening Profits: The Global Food System's Poisoned Food and Toxic Wealth

**Author:** Colin Todhunter

**Published:** December 2023

This is a follow up to the author's e-book Food, Dispossession and Dependency — Resisting the New World Order, which was originally published in February 2022 by Global Research and is hosted on the Centre for Research on Globalization's [CRG] website.

RICHARD C. COOK

**WORLD WAR III IS "ON" BUT  
THE EMPIRE HAS ALREADY LOST**

**An American Civil War Looms**

Spiritual transformation is the only way to prevent extinction.

Global Research

## **9. World War III Is “On” But the Empire Has Already Lost. An American Civil War Looms. Spiritual Transformation Is the Only Way to Prevent Extinction.**

**Author:** Richard C. Cook

**Published:** September 2024

I was then the student head of the James Blair High School International Relations Club. Our faculty adviser had gotten us an invitation to a conference being held at the Williamsburg Lodge. We showed up, but before our group was able to attend any sessions, I got word that we had been *disinvited* due to the “bad behavior” of some of our student members. It was a surprise. I had never witnessed any of this. The date was April 11, 1964.

Or maybe someone was hiding something.

Many years later I learned that the conference was being put on by the Bilderberg Group. At this conference there took place the first meeting between Club of Rome founder Aurelio Peccei and mega-banker David Rockefeller. It was the start of the merger between globalist finance and worldwide population reduction that is still going on and ruling world events today.

From the assassination of JFK and the meeting between Peccei and Rockefeller, there is a straight line that marks the trajectory of the catastrophe that I characterize in this eBook as the start of World War III and possibly the American Civil War II.

I have been a close-up witness to that trajectory, including 32 years as a federal government analyst and the years of writing I have done since then. It’s *what* I have witnessed that this eBook is about.
