

Global Research Weekender: Will 2022 be the Year of Mass Awakening and the End of COVID-19?

By [Global Research News](#)

Global Research, January 16, 2022

It has been two years since people worldwide were dragged into this whole COVID-19 cult. Up until now, many countries implement universal health protocols such as social distancing and wearing of face mask in public spaces. Draconian measures have also been executed such as prolonged lockdowns and vaccine mandates.

Several reports of courageous people blowing the whistle on COVID vaccines and vaccine deaths surface online, sending a hopeful message worldwide that resistance is key to ending this totalitarianism.

Protests against forced vaccinations are also happening globally, blasting the medico-establishment for curtailing informed consent and medical freedom. Are these events directing us toward mass awakening from COVID hypnosis and stand in the truth against disinformation?
